**SAVE OUR
GOATS!!**

They are Feral & Wild!

PROBLEM #1: PEOPLE including the STATE DLNR ARE GUNNING THOUSANDS OF GOATS THROUGH ERRADICATION PROCESSES CLAIMING THEY ARE A NUISANCE. Please stop gunning down our food supply!!

Thousands of goats are being shot dead and their carcass is left to rot under the Hot Hawaiian Sun!!

Some people including the DLNR may think GOATS are a nuisance, but they are an excellent source of FOOD! So Please stop GUNNING down our FOOD SUPPLY! There is a huge demand and market for GOATS.

“Hi, I am so hungry for goat. I love to eat goat. Can you get more 10 goats? We are having a party this weekend? When can you get more goat? Please call us when you get goat? Do you have Khalding? What about next month, will you get more goat? What happened to the goats? You used to have plenty, now no more? I want to buy your goat, you give good price, the other guy charge too much. I want to help my friends, and buy your goat. Please please, give us goat? Your goats are the healthy and strong kind. We want more goats!”

These are some of the questions and responses we receive on a daily basis. We have hundreds of potential buyers for goats. However, we are unable to supply their demand. Yes, these people are doing without goats, and/or they are paying the higher price for them.

With the high rise of oil, we can not afford to waste our island's livestock food supply.

SAVE OUR OIL, SAVE OUR SOLDIER'S LIVES

PLEASE STOP WASTING OUR GOATS! THEY ARE A VALUABLE FOOD SOURCE. NO NEED TO IMPORT FOOD FROM FOREIGN COUNTRIES AND MAINLAND, OUR FOOD SOURCE IS RIGHT HERE IN THE ISLANDS, SO WHY ARE WE MACHINE GUNNING THEM DOWN AND WASTING THEM TO ONLY ROTT IN THE HOT HAWAIIAN SUN. THEY ARE NOT A NUISANCE! THEY ARE SUSTAINING HAWAII'S AGRICULTURE!! We love to eat goats!

Captain Cook brought them to Hawaii many years ago so that they would duplicate and we could eat them. Now, goats are everywhere. With increasing oil prices, we need to protect our food source, so that we won't have to rely so much on imported foods. So why are we gunning down our food source? Just because someone started crying "GOATS are a Nuisance"! They are wrong wrong wrong, SOOOOO Wrong !! This has started a spiraling downward trend, so that people are now rounding them up by helicopter and machine gunning them down?

Here's a better solution: Round them up, send them to WAIMALU VALLEY RANCH, and SAVE OIL by importing less food!! Trust me, WAIMALU VALLEY RANCH knows what to do with these goats!! We have Hundreds of hungry people lined up wanting these goats. So why are we shooting them dead? Why are we destroying our own HEALTHY herd stock, OUR food source when they are right next door to us GOAT HUNGRY people?

**SAVE OIL, SAVE A SOLDIER'S LIFE
STOP GUNNING DOWN OUR ISLAND GOATS!
GOATS ARE NOT A NUISANCE, THEY ARE OUR
ISLANDS FOOD SUPPLY!**

Goats are a wonderful and excellent source of food. There is a market here for them. Goats, the very ones being GUNNED down are in high demand AS A FOOD SOURCE. These goats are preferred over farm-raised goats because these GOATS eat grass and Haole Koa are strong and healthy!! I know thousands of

people who would eat goats only if I could get someone to round them up and send them to me. If people can spend the time and money to round them up BY HELICOPTERS and shoot HUNDREDS AND THOUSANDS OF THEM DEAD AS PART OF a goat eradication process, then why don't they just round them up, put them in a container and bring them to WAIMALU VALLEY RANCH!! We will pay the price to eat healthy, strong, delicious tasting goats!!

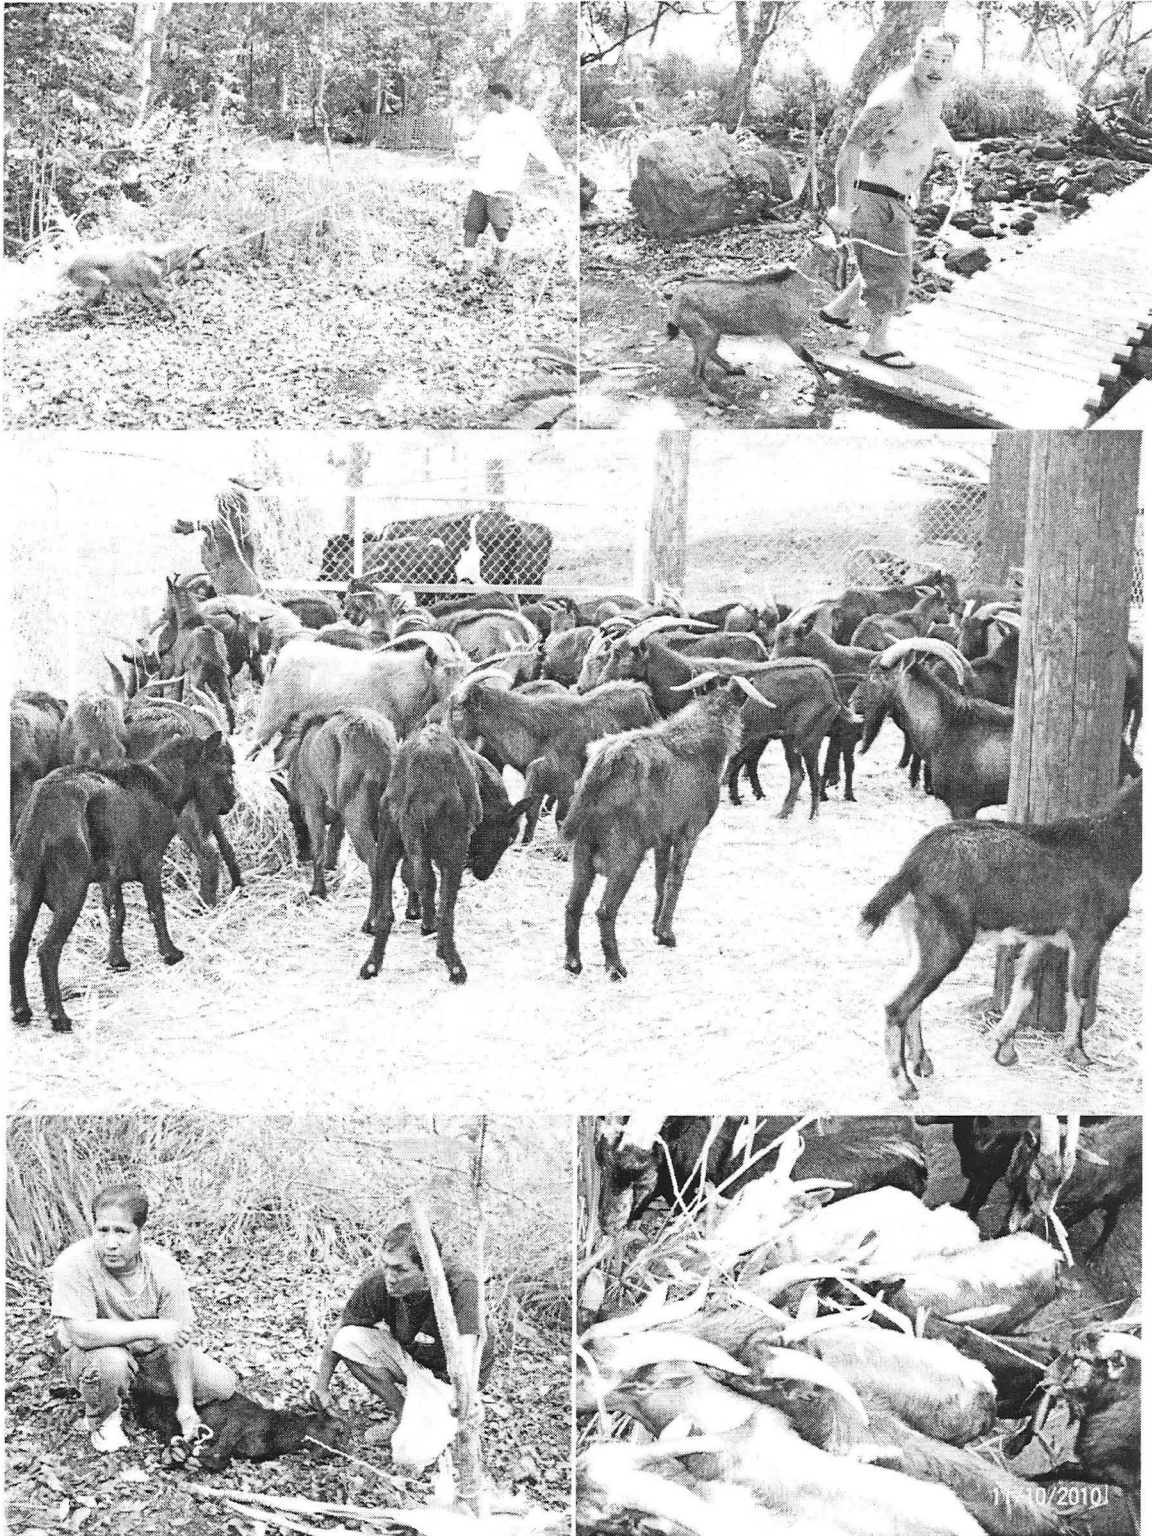

It is a delicacy in some cultures. For some people, Goat meat is preferred over beef or pork. SAVE OUR GOATS and STOP SHOOTING THEM DEAD (hundreds and thousands of them) LEAVING THEIR CARCASS TO ROTT in the hot Hawaiian sun. THEY ARE NOT A NUISANCE. THEY ARE HAWAII'S VALUABLE STOCK SUPPLY OF FOOD.

The 3 necessities & essential for survival:

FOOD-SHELTER-CLOTHING

“Without these, we would not survive!”

These pictures show that GOATS need to be protected by Hawaii's Law and Policies. Goats are a food source, and can help to Sustain Hawaii's food supply AS Capt Cook intended, and thus making Hawaii less dependent on
