13 vaccine ordering and accountability policies and  
14 procedures;
- 15 (4) Producing aggregate immunization assessment reports to  
16 monitor and improve public health;
- 17 (5) Supporting efforts to prevent and manage outbreaks of  
18 vaccine-preventable diseases, including pandemic  
19 influenza;
- 20 (6) Assisting the department of health in the event of a  
21 public health emergency; or

1           (7) Managing and maintaining the Hawaii immunization  
2           registry system.

3           ~~[-(e)]~~ (f) The use of registry information accessed  
4 pursuant to this section shall be limited to the purposes for  
5 which access is granted. "

6           SECTION 4. Section 325-125, Hawaii Revised Statutes, is  
7 amended to read as follows:

8           "~~[+] §325-125 [+] Registry record requirements; duration of~~  
9 retention. (a) The establishment of an individual's record in  
10 the registry shall not require the prior consent of a patient or  
11 the consent of a patient's parent or legal guardian in the case  
12 of a minor or dependent.

13           (b) The department of health shall make available to the  
14 patient or the patient's parent or legal guardian in the case of  
15 a minor or dependent, via the patient's health care provider or  
16 birthing hospital, a written description of the purpose and  
17 benefits of the registry as well as the procedure for refusing  
18 inclusion in the registry. ~~[No registry information shall be~~  
19 ~~established in the registry for any patient who in writing~~  
20 ~~refuses, or, in the case of a minor or dependent, the patient's~~  
21 ~~parent or legal guardian who in writing refuses to allow the~~  
22 ~~information to be included in the registry.]~~

1        (c) A patient's, or in the case of a minor, the minor's  
2 parent's or legal guardian's, choice to refuse inclusion in the  
3 registry shall be documented in writing on a form or in a format  
4 approved by the department of health.

5        (d) Each health care provider or birthing hospital shall  
6 maintain the records of refusal of inclusion and shall report  
7 any refusal to the department of health in a manner specified by  
8 rule.

9        (e) When a patient, or in the case of a minor, the minor's  
10 parent or legal guardian, chooses to refuse inclusion in the  
11 registry, minimal demographic information, including the  
12 patient's name and date of birth, shall be maintained within the  
13 registry system to identify the patient as having elected to  
14 refuse inclusion in the registry. If the patient has an  
15 existing record in the registry at the time that the refusal  
16 documentation is submitted, all other patient demographic and  
17 immunization information shall be removed from the registry.

18        ~~[(b)]~~ (f) All registry authorized users shall make  
19 available for inspection by the department of health all medical  
20 records relating to patient demographic and immunization  
21 information recorded in the registry or documentation of the  
22 patient's, or in the case of a minor, the minor's parent's or

1 legal guardian's refusal of inclusion in the registry for the  
2 purposes of performing registry-related quality improvement or  
3 quality assessment activities.

4 (g) Registry information for any individual included  
5 within the registry shall be retained as a part of the registry  
6 for twenty-five years after the last entry, except in the case  
7 of minors, whose records shall be retained during the period of  
8 minority plus twenty-five years after the minor reaches the age  
9 of majority. At the conclusion of the retention period, the  
10 data stored in the registry for that individual shall be  
11 archived."

12 SECTION 5. This Act does not affect rights and duties that  
13 matured, penalties that were incurred, and proceedings that were  
14 begun before its effective date.

15 SECTION 6. Statutory material to be repealed is bracketed  
16 and stricken. New statutory material is underscored.

17 SECTION 7. This Act shall take effect upon its approval.

**Report Title:**

Hawaii Immunization Registry

**Description:**

Authorizes the Department of Health to allow limited health insurer access to the Hawaii Immunization Registry and authorizes the Hawaii Immunization Registry to store minimal demographic information for individuals who have elected to refuse inclusion in the Hawaii Immunization Registry.

JUSTIFICATION SHEET

DEPARTMENT: Health.

TITLE: A BILL FOR AN ACT RELATING TO THE HAWAII IMMUNIZATION REGISTRY.

PURPOSE: Authorizes the Department of Health (department) to allow limited health insurer access to the Hawaii Immunization Registry (registry). Authorizes the registry to store minimal demographic information for individuals who have elected to refuse inclusion in the registry.

MEANS: Amend sections 325-121, 325-123(b) and (c), 325-124, and 325-125, Hawaii Revised Statutes.

JUSTIFICATION: The statutory change requested would enable health insurer access to the registry for the limited purpose of producing immunization assessment reports. The department's ability to efficiently share a member's or subscriber's immunization data with the member's or subscriber's insurer could assist the insurer in formulating strategies to improve immunization rates in its member or subscriber populations.

The additional statutory change requested would allow for the inclusion of minimal patient demographic information in the registry to enable the system to automatically identify patients who have elected to refuse participation in the system ("opt out"). This change would prevent the inadvertent data entry or data transfer of restricted patient information into the registry, thereby ensuring more thorough privacy protections for individuals who have elected to opt out.

Impact on the public: The ability to efficiently share the immunization data of

their members or subscribers with health insurers could serve to assist insurers in formulating strategies to improve immunization rates in their member populations.

Eliminating registry users' ability to create and store full demographic and immunization records for individuals who have elected to opt-out of participation in the Registry would more thoroughly protect the privacy of these individuals and would prevent registry users from inadvertently performing actions that would be non-compliant with existing statute.

Impact on the department and other agencies:

The ability to share efficiently the immunization data of their members or subscribers with insurers would assist the department in the further expansion of partnerships with health insurers to assure the efficient exchange of electronic health records toward increasing immunization rates and decreasing vaccine-preventable disease occurrence.

An automated opt out notification process would serve to improve accuracy and eliminate the need for the current manual opt out notification and audit process, resulting in increased staff productivity and efficiency.
