
A BILL FOR AN ACT

RELATING TO THE HAWAII SCIENCE, TECHNOLOGY, AND INNOVATION
AGENCY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that to be successful in
2 the twenty-first century global economy, Hawaii must position
3 itself as a leader in science and technology. Innovation in
4 science and technology fields will not only allow the State to
5 succeed in the global marketplace, but will also support
6 Hawaii's sustainable development goals. This will require a
7 commitment to the development of a highly capable workforce that
8 is able to compete in a technological environment.

9 The legislature further finds that any such advancement
10 will require a combined effort on the part of multiple state and
11 community sectors to improve communication across government,
12 private, and academic entities; to develop networks capable of
13 sustained collaboration; and to prepare today's students to be
14 tomorrow's leaders.
