A BILL FOR AN ACT

RELATING TO COMMUNITY HEALTH CENTERS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that community health
2 centers are one of Hawaii's most important health care assets,
3 and they have become even more essential to health care delivery
4 in the State during the current hard economic times. In 2008,
5 community health centers across the State met the critical care
6 needs for almost one hundred twenty thousand people while saving
7 more than \$128,000,000 in health care costs. That year,
8 community health centers provided care for about one-third of
9 all uninsured persons in Hawaii and were the health care
10 providers for nearly one in four Med-QUEST patients.

11 The legislature further finds that community health centers
12 fill health care provider gaps in rural areas of the State by
13 providing medical care where there are shortages of physicians.
14 In addition, some community health centers provide dental care
15 for children insured by medicaid in areas of the State where
16 they may not have access to dental service. In the face of
17 significant cuts to state mental health programs, community

1 health centers also serve as a safety net for persons with
2 mental health care needs.

3 The legislature finds that Act 316, Session Laws of Hawaii
4 2006, increased the state taxes on cigarettes, and allocated a
5 portion of the increased tax revenue to community health centers
6 in Hawaii. The amount of cigarette tax revenue collected in
7 fiscal year 2008-2009 for the benefit of community health
8 centers was estimated to be \$9,000,000, an average of less than
9 \$600,000 per community health center. The administration and
10 the department of health did not release those revenues for use
11 by community health centers in the State.

12 The purpose of this Act is to appropriate funds from the
13 community health centers special fund for use by community
14 health centers and to direct the state administration and the
15 department of health to release the revenues in the community
16 health centers special fund for operating community health
17 centers.

18 SECTION 2. There is appropriated out of the community
19 health centers special fund the sum of \$ or so much
20 thereof as may be necessary for fiscal year 2011-2012 and the
21 same sum or so much thereof as may be necessary for fiscal year

1 2012-2013 for the purposes of funding operations of community
2 health centers in Hawaii.

3 The sums appropriated shall be expended by the department
4 of health for the purposes of this Act.

5 SECTION 3. The governor shall release \$ from the
6 community health centers special fund, including all of the
7 moneys deposited into the special fund from revenue generated by
8 the cigarette tax, pursuant to section 245-15, Hawaii Revised
9 Statutes, to be expended by the department of health to operate
10 community health centers that provide health services to
11 eligible low-income and underserved populations throughout the
12 State.

13 SECTION 4. This Act shall take effect upon its approval.
