
A BILL FOR AN ACT

RELATING TO EDUCATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the period from
2 birth to age five is the most crucial period of learning in a
3 child's life. This is when over eighty-five per cent of a
4 child's brain development takes place in response to the
5 stimulation that the child receives. Early experiences lay the
6 groundwork for a child's lifelong learning and behavior. The
7 legislature further finds that high quality early learning
8 programs that are affordable and accessible for all children are
9 critically important to ensuring the success of Hawaii's keiki.

10 In addition, the significant, long-term benefits realized
11 through investments in high-quality, early learning systems have
12 been established through decades of research. Many studies show
13 the importance of early childhood education. For example, a
14 federal Department of Education study reports that all
15 kindergarteners increase their knowledge and skills regardless
16 of how much they knew prior to enrollment. Kindergarteners are
17 expected to and often do leave kindergarten knowing how to read
18 and write. First graders who did not go to kindergarten are

1 typically behind their peers in their academic and social
2 development and are more likely to fail a grade in elementary
3 school.

4 The purpose of this Act is, among other things, to:

- 5 (1) Establish the executive office on early learning;
- 6 (2) Establish the early learning advisory board to replace
7 the early learning council;
- 8 (3) Repeal junior kindergarten programs at the end of the
9 2013-2014 school year;
- 10 (4) Require students to be at least five years of age on
11 July 31 of the school year in order to attend
12 kindergarten starting with the 2014-2015 school year;
13 and
- 14 (5) Make an appropriation to the executive office on early
15 learning.

17 amended by adding three new sections to be appropriately
18 designated and to read as follows:
