A BILL FOR AN ACT

RELATING TO PUBLIC SAFETY.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that the most recent
2 information on the use of drugs, alcohol, and tobacco reveals a
3 disturbing rise in the use of these substances among the native
4 Hawaiian population. Many studies conducted both nationally and
5 statewide show native Hawaiians to be at particularly high risk
6 for substance abuse. Among students in the eighth and tenth
7 grades, native Hawaiian children rank highest among all ethnic
8 groups in the use of these substances. The studies also show
9 that substance abuse starts at an early age, and if not
10 addressed will:

11 (1) Lead to more serious offenses, which break down family
12 structures spiritually, psychologically, socially, and
13 economically;

14 (2) Create many health hazards and problems for and with
15 the individual; and

16 (3) Lead to other serious problems, such as poverty,
17 homelessness, and a growing dependence on both legal
18 and illegal drugs which in turn may lead to child

1 abuse, family abuse, sexual abuse, and other serious
2 life threatening crimes.

3 The legislature finds that a pu'uhonua, or wellness center,
4 based on Hawaiian cultural practice will help the native
5 Hawaiian community and the community at-large. Unquestionably,
6 many high risk individuals need to be cared for in a much more
7 sensitive intervention program that will address solutions that
8 will alleviate their problems. The greatest potential to stem
9 the tide of this most horrific situation lies in the creation of
10 a pu'uhonua comprising a culturally-based substance abuse
11 treatment and intervention program that takes a holistic
12 approach, based upon cultural identity and strength to get to
13 the core, the why, of substance abuse. The cultural practices
14 of pule, ho'oponopono, aloha 'aina, mahi'ai, la'au lapa'au, and
15 aloha will help create a sensitive setting. These cultural
16 practices have been successful in the past, possessing the
17 optimal potential to heal an individual. A culturally-based
18 pu'uhonua will restore and maintain a better atmosphere and
19 relationship between family, friends, community, and society.

20 The legislature further finds that the site formerly used
21 as the Kulani correctional facility in east Hawaii would be an
22 ideal site for such a wellness center. It is a place of deep

1 spirituality for the Hawaiian people and, pragmatically, it has
2 the infrastructure and historical precedent for use in
3 sustainable living.

4 The purpose of this Act is to reduce recidivism, prevent
5 crime, and ensure long-term positive change by developing a plan
6 to create a wellness center that reestablishes highly recognized
7 native Hawaiian cultural practices to restore the overall well-
8 being of individuals, families, and the native Hawaiian
9 community.

10 SECTION 2. The department of public safety, working with
11 'Ohana Ho'opakele and other restorative justice groups, is
12 directed to prepare a plan for the creation of a pu'uhonua, or
13 wellness center, on lands owned or controlled by the State,
14 giving preference to the site formerly used as the Kulani
15 correctional facility on the island of Hawaii.

16 The department of public safety shall submit a report to
17 the legislature no later than twenty days prior to the convening
18 of the regular session of 2013 on its findings and
19 recommendations, including any budget requests necessary to
20 achieve the purposes of this Act.

1 SECTION 3. This Act shall take effect upon its approval.
