Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in strong support of House Bill 2727 – Relating to Vehicle Immobilization.

"The purpose of HB 2727 is to deter individuals from driving illegally when their licenses have been suspended or revoked. The threat of immediate immobilization for those apprehended driving without a license may encourage more DUI drivers facing license revocation to install an ignition interlock device in their vehicles rather than chance driving illegally. For those not eligible for an interlock device, the possibility of vehicle immobilization should discourage individuals from driving illegally without a valid license. Ultimately, there should be fewer crashes caused by high-risk drivers.

"This bill proposes: a largely administrative system of implementing the immobilization program rather than court-based; the use of a vendor to provide the immobilization devices and monitor their use; penalties for tampering with or circumventing the device; a schedule of time periods for the immobilization device to remain on the vehicle; and a procedure for family members to petition for removal of the device if they have no other means of transportation.

"Individuals who are arrested for driving on a suspended or revoked license when the suspension or revocation was the result of an alcohol or drug related law enforcement contact fall into a high risk category of drivers. Highway safety research and advocacy groups recommend that penalties for these drivers include vehicle sanctions. It is apparent that the license revocation penalty has been disregarded, jail time is usually too short to be an effective sanction and fines may also be postponed or also disregarded. Immobilizing the vehicle is a sanction that is relatively simple and avoids the challenges and costs associated with impoundment or forfeiture.

"I urge the Members to pass HB2727 to reduce the problem of individuals illegally driving after their license has been suspended or revoked after a DUI."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2727, entitled: "A BILL FOR AN ACT RELATED TO VEHICLE IMMOBILIZATION," passed Second Reading and was referred to the Committee on Judiciary, with Representative Takai being excused.

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in strong support of this measure, which authorizes certain private employers to administer a work-sharing plan to avoid temporary layoffs. Under the plan, the bill allows employees to receive employment benefits to compensate for lost wages.

"The Work-Share program gives employers an alternative to avoid layoffs. Currently, during temporary layoff situations, employers who wish to reemploy their workers are at risk of losing their skilled employees to other business offers. Under the Work-Share program, employers can keep their skilled workers during a slow economy by reducing the work hours of a larger group of employees. The workers whose hours and wages are reduced would be eligible to receive a portion of their unemployment insurance benefits to compensate for the lost wages. The program benefits both parties as companies can retain skilled workers, reduce hiring costs once business improves, and avoid "financial and emotional hardships" associated with layoffs, while the employee will still have a job and receive unemployment benefits.

"During a recession, the State must do all it can to keep people on the job where they can continue to develop skills and gain experience. 20 states have already implemented work-sharing legislation. I believe it is imperative that we join those states to assist both employers and their employees during difficult economic times. For these reasons, I urge the Members' support."

No. 2025, HD 1, entitled: "A BILL FOR AN ACT RELATING TO EMPLOYMENT SECURITY," passed Second Reading and was referred to the Committee on Economic Revitalization & Business, with Representative Takai being excused.

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in strong support of HB 2228 HD1. The Breastfeeding in the Workplace bill is a commonsense bill which accommodates new mothers by making it mandatory that a sizeable business (20 or more employees) provide a clean location in which new mothers can express breast milk in privacy.

"This bill aids new mothers in assimilating back into the workforce after their pregnancy. Without an appropriate and sanitary environment in which to breastfeed, new mothers may potentially find themselves in an unfair situation where they must choose between being a mother and being

employed. Women have struggled for some time to attain equal footing in the workforce, and to reject new mothers as employees would be detrimental to this decades-long struggle.

"HB 2228 is a fair measure that applies to new mothers and does not pose an unreasonable burden on employers of 20 or more employees. A business of that size can be expected to provide some small, sanitary area to a new mother for the purposes of breastfeeding.

"Breastfeeding is a natural and necessary part of raising an infant, and it is my hope that the Legislature will be able to recognize this fact. In accordance with our modern and equal society, I hope similar legislation to this will be made to support new mothers in the workforce, and not keep them from securing gainful employment in this new phase of their life.

"I urge you to support passage of this bill as it pertains to the cause of women and their equal standing in the workplace."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2228, HD 1, entitled: "A BILL FOR AN ACT RELATING TO BREASTFEEDING IN THE WORKPLACE," passed Second Reading and was referred to the Committee on Economic Revitalization & Business, with Representative Takai being excused.

Representative Fontaine rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Pine rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Johanson rose in support of the measure with reservations and asked that his written remarks be inserted in the Journal, and the Chair "so ordered."

Representative Johanson's written remarks are as follows:

"I rise in support with reservations on this measure. While I do support this measure in concept and recognize that there is a need to address the decrease in the number of physicians willing to accept worker's compensation claims, I have concerns about the potential cost implications that this measure may have for employers. The Hawaii Insurance Council estimated the total cost impact of this increase could be upwards of 3.4 percent or \$6.2 million. There is a potential for insurance premiums to rise, for employers to incur additional costs and to create long-term fiscal impacts to insurance providers, employees and the State.

"Moreover, testimony we received from the State Department of Human Resources Development and the Department of Labor and Industrial Relations indicates that the Director has the ability to raise fees for specific services in certain circumstances. At this time, because the measure

appears potentially unnecessary and costly, I support the measure with reservations."

Representative Ching rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2152, entitled: "A BILL FOR AN ACT RELATING TO WORKERS' COMPENSATION," passed Second Reading and was referred to the Committee on Economic Revitalization & Business, with Representative Takai being excused.

"Yes, just brief comments in support. What this bill does is it makes an appropriation to expand emergency medical services and ambulance systems for the Leeward Coast after the closure of Hawaii Medical Center. I just really wanted to publicly thank the Chair and Vice-Chair of Health for making this a priority for people of the Leeward Coast."

Representative Ching rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I also rise in strong support, and also would like to thank the Chairman and all those that made this possible. Because we know that the importance of this bill cannot be understated. The closing of HMC Center, East and West affected so many residents of the State of Hawaii. So I'd like to incorporate the words of our Floor Leader, and also insert additional written comments, please."

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I stand in strong support of H.B. 1953-Relating to Health. This bill makes an appropriation to expand emergency medical services and ambulance services on the Leeward Coast of Oahu. This bill also creates a grant pursuant to Chapter 42F to Wahiawa General Hospital to provide additional emergency room services.

"The importance of this bill cannot be understated. According to H.B. 1953, the closing of Hawaii Medical Center-East drastically affected the patients of Ewa Beach and Liliha district. Consequentially, the City and County is now responsible to take care of current and future emergency care cases. It is of paramount importance that we provide appropriate funding for emergency medical and ambulance services at this time to address the healthcare needs of our people, many of who needed to be transferred or discharged to other facilities.

"According to the testimony provided by the Emergency Services Department of the City and County of Honolulu, after HMC's closure, the City Emergency Medical Services (EMS) Division found "sick individuals seeking help at the empty emergency departments" and that their original funds were unable at this time to support the amount of patients needing care. They have acknowledged in their testimony that without "supplemental appropriations which would be afforded by this measure, other areas of our service will suffer."

"It is my firm belief that this bill is crucial to the health and healing of our family, friends, and residents of Hawaii. If any of our family members or friends were in an accident, we would hope that we would receive the most excellent care possible. Thank you."

Representative Cabanilla rose to speak in support of the measure, stating:

"In support, Mr. Speaker. I just would like to thank the Chair of Health, as well as all the Members in this Body for yielding to the needs of the people on the Leeward Coast."

Representative Jordan rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. I'd like to say that I also strongly support this, and if you would please allow me to have additional written comments. Thank you."

Representative Jordan's written remarks are as follows:

"I stand in strong support of HB 1953, Relating to Emergency Medical Care. The purpose of this bill is to ensure that there are adequate emergency services to Leeward Oahu after the recent closure of Hawaii Medical Center's two hospitals by appropriating \$1.2 million to the Department of Health to assist the City and County of Honolulu Emergency Medical Services Division with expanding emergency medical services and ambulance services in communities on Leeward Oahu. This will help expand hours of operations for ambulance services within the Leeward Oahu area which will help with shorting travel time for the patient, as well as provide much need support and relief for Emergency Medical Service personnel.

"This bill also appropriates \$500,000 as a grant to assist Wahiawa General Hospital in providing additional emergency room services. As noted by the Committee on Health in SCR 152-12, this Body should consider not identifying specific locations and broadening the time to allow for the most efficient and effective use of the appropriation moneys."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 1953, entitled: "A BILL FOR AN ACT RELATING TO EMERGENCY MEDICAL CARE," passed Second Reading and was referred to the Committee on Finance, with Representative Takai being excused.

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in strong support of this measure, which would make permanent the assessment and deposit of the Hawaii State Center for Nursing ("HSCFN") fees into the Compliance Resolution Fund and distribution of those funds to the credit of the HSCFN special fund.

"In 2003, the Legislature passed Act 198, to create the Hawaii State Center for Nursing. The Center was given the mandate to collect and analyze data, and make recommendations regarding the current status and trends of the nursing workforce; conduct research in best practices and quality outcomes; develop a plan for implementing strategies to recruit and retain nurses; and research, analyze and report data related to the retention of the nursing workforce. We can see in the work that the Center for Nursing has produced that they have very ably done what was asked of them. The data and evidence collected by the Hawaii State Center for Nursing is invaluable in making workforce, policy and resource decisions.

"The HSCFN should be continued as it has become a leader in workforce planning, nursing research, and professional practice in the State. Stakeholders recognize the HSCFN as the source of reliable information regarding existing and emerging trends in nursing. The repeal of the Center fees would in essence cause the demise of the HSCFN as the fee is its main source of funding.

"I urge the Members' continuing support of nursing and healthcare in Hawaii."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and H.B. No. 2023, entitled: "A BILL FOR AN ACT RELATING TO THE CENTER FOR NURSING," passed Second Reading and was referred to the Committee on Higher Education, with Representative Takai being excused.

Representative Ching's written remarks are as follows:

"Thank you, Mr. Speaker. I stand in strong support of H.B. 1954-Relating to Health. This bill provides reimbursements by Medicaid and its contracted health plans to hospitals for patients occupying acute-licensed beds who are waitlisted for long-term care patients.

"The importance of this bill cannot be understated. Currently acute care hospitals are financially constricted due to providing care to patients who need to continue receiving medical services long after hospitalization. That said, we need to recognize that acute hospitals are budgeted to care for patients that do not require long-term care and are doing the State of Hawaii and our community an added service by accommodating long-term care patients.

"We also need to recognize that acute hospitals are taking a financial risk managing patient transitions to appropriate facilities at this time. If the hospital is unable to find appropriate long-term care facilities for patients that no longer need acute care, according to H.B. 1954, the hospital absorbs the financial losses occurred due to reduced Medicaid reimbursement, which is 20 to 30 percent of the actual cost of acute care hospitalization. That means a 70 to 80 percent revenue loss that occurs on the part of the hospital. As you can see in the heart-felt testimony submitted by The Healthcare Association of Hawaii, which comprises of a breadth of healthcare organizations, including acute care hospitals and long-term care facilities, an average of 150 patients in Hawaii's hospitals are waitlisted because long-term care is not available, thereby causing "inappropriate quality of care for the patient and creates a serious financial drain on hospitals."

"It is my firm belief that this bill is crucial to the health and healing of our family, friends, and residents of Hawaii. Without compensatory reimbursement by Medicaid at this time, we may be causing undue strain on our hospitals. That said, we should be sensitive to contributing factors that may cause financial hardship on our hospitals, especially in the recent bankruptcy of HMC in Hawaii. Thank you."

Representative M. Lee rose in support of the measure and asked that her written remarks be inserted in the Journal, and the Chair "so ordered."

Representative M. Lee's written remarks are as follows:

"Mr. Speaker, I rise in support. This bill intends to provide a great safety measure for those that are visually impaired or blind to apply for and obtain disability parking permits. The current law allows for disabled residents who require the use of a cane for mobility to obtain a disability parking permit. However, the blind who also required the use of a cane for mobility are excluded. Nearly half of the states have laws allowing the blind to obtain a disability parking permit including other similar veteran and tourist friendly states such as California, Florida, and New York.

"The current law also implies that the blind only ride TheBus, TheCab or the HandiVan as transportation where they are dropped off at a sidewalk and have a clear reference to their destination. However, many blind

persons travel with their families and must navigate through crowded and dangerous parking lots, risking their safety en route to the sidewalk.

"The Disability and Communication Access Board does not support the bill mainly due to funding, which was estimated to cost an extra \$60,000 a year. When one compares that to the medical costs of a potential blind victim in the parking lot, the number becomes irrelevant, showing that the benefits of authorizing a parking pass for the blind greatly outweigh risking their safety through a crowded parking lot. I urge the Members' support."
