Comments:

This summer, Representative George Fontaine convened an Informational Briefing about cyber crime that was particularly riveting (and this is a comment coming from someone who has absolutely NO interest and finds absolutely NO enjoyment from anything having to do with computers).

Unfortunately by the end of the presentation, I was so depressed in all I'd heard I was feeling like "Ok, I quit - the bad guys win - too many of them, too smart, not enough good guys, not enough tools for the good guys" but thank goodness Representative Fontaine didn't respond the same way - he looked more committed than ever to correct the crimes, loopholes and stumbling blocks that police and investigators face when attempting to bring computer criminals to justice so I am so happy and inspired that there are so many computer and cyber-related pieces of legislation coming before you this session.

Like domestic violence, you DON'T want to fall victim to cyber crime so we need protections and consequences in-place (such as this) to assist to that end.

Thank you for this opportunity to provide testimony in support of HB1788.
