Committee on Judiciary and Labor

HB 1926 HD1 SD1 Relating to Assaults against Medical Services Providers

I am here to testify in **support** of HB 1926 HD 1 SD1. This bill will help protect medical providers from unnecessary violence in the workplace.

With over 40,000 people providing health care in the State of Hawaii, health care workers do face the significant risk of job related violence.

I ask for your passage of this legislation.

George Waialeale
