House Committee on Health

HB 2564, RELATING TO VOLUNTEER MEDICAL ASSISTANCE SERVICES

**Testimony of Loretta J. Fuddy, A.C.S.W., M.P.H.
Director of Health**

February 3, 2012, 9:00 a.m.

- 1 **Department's Position:** The Department of Health strongly supports this Administration bill.
- 2 **Fiscal Implications:** No impact.
- 3 **Purpose and Justification:** This measure would include pharmacists as volunteer medical assistance
- 4 personnel. Medically-licensed volunteer workers who are performing volunteer medical assistance
- 5 services within the scope of their license on behalf of the State or a county are indemnified under Hawaii
- 6 law when responding to an emergency and during non-emergency situations such as school-based
- 7 immunization clinics. Lack of coverage for professional liability may mean that these valuable workers
- 8 will not participate as state volunteers, thereby limiting the ability of the State to draw upon their skills
- 9 as a critical public health resource.

10 Thank you for the opportunity to testify on this bill.

Representative Ryan Yamane, Chair
Representative Dee Morikawa, Vice Chair
HOUSE COMMITTEE ON HEALTH

February 3, 2012 – 2:35 p.m.
State Capitol, Conference Room 329

Regarding H.B. 2564, Relating to Volunteer Medical Assistance Services.

Chair Yamane, Vice Chair Morikawa, and Members of the Committee,

My name is Cindy Kamikawa, Vice President of Nursing, ED, Trauma, CNO, of The Queen's Medical Center (QMC), testifying on S.B. 2826, which seeks to include pharmacists who provide state voluntary medical assistance services as immune from liability. **QHS strongly supports this measure.**

Medical professional volunteers continue to be needed to supplement the State's staff in preparation for disasters and emergencies, including pharmacists. Lack of coverage for professional liability for pharmacists will likely mean that these valuable workers will not participate as state volunteers. As much as they may wish to help, they are unlikely to risk losing their home or other assets as the result of a lawsuit. Utilization of volunteers for periodic non-emergency activities and events keeps the volunteer force active and interested, provides an opportunity for volunteer training, and allows practice of the system for calling volunteers out to respond. In order to build a strong volunteer workforce of medical professionals to support public health interventions and for emergency medical surge capacity, we strongly believe that pharmacists who volunteer for the state should be indemnified in both emergency and non-emergency situations, providing that they are acting within the scope of their license and assigned volunteer role and without willful misconduct.

QHS strongly supports this measure as it will provide the public with the benefits of including pharmacists in an enhanced volunteer workforce organized and trained to respond to emergencies.

Thank you for the opportunity to provide testimony on this measure.

CATHOLIC CHARITIES HAWAII

TO: Representative Ryan I. Yamane, Chair
Representative Dee Morikawa, Vice Chair
Committee on Health

FROM: Diane M. Terada, Division Administrator

DATE: Friday, February 3, 2012 (9:00 a.m., Room 329)

RE: Support of HB 2564, Relating to Volunteer Medical Assistance Services

Catholic Charities Hawai'i (CCH) is a tax exempt, non-profit agency that has been providing social services in Hawaii since 1947. We strongly support HB 2564:

CCH has provided supportive home and community based services to elders since 1973 and currently serves approximately 5,000 older persons each year. The agency has a Medication Management Program for seniors and caregivers.. Volunteer pharmacists are a valuable resource for this program which provides medication management education and one to one medication screenings. We support this bill to add pharmacists as volunteer health professionals to be provided immunity from liability.

Catholic Charities Hawai'i asks for your support of HB 2564. If I can provide any further information, please feel free to contact me at 808-527-4702 or via email at diane.terada@catholiccharitieshawaii.org. Thank you for this opportunity to provide testimony.

**RE: HB 2564 – Relating to Volunteer Medical Assistance Services – In Support,
Requesting Amendment**

Chair Yamane, Vice Chair Morikawa, and members of the Committee:

My name is Todd Inafuku and I am a pharmacist, **testifying in support of HB 2564**, which adds pharmacists as a volunteer health professional to be provided immunity from liability.

Pharmacists are able to administer immunization orally, by injection, or by intranasal delivery to persons eighteen years of age older provided they first receive appropriate training that includes programs approved by the Accreditation Council for Pharmacy Education (ACPE), curriculum-based programs from an ACPE accredited college of pharmacy, state or local health department, or programs recognized by the board of pharmacy. By including pharmacists as volunteer medical assistance personnel, pharmacists who are able to administer immunization may be allowed to volunteer and provide professional medical services in support of vaccination campaigns.

Having worked in the past as the Bioterrorism Preparedness and Response Branch pharmacist for the Department of Health, I am strongly recommending that HB 2564 be amended to also include pharmacists in HRS 321-23.3 as volunteer emergency medical disaster response personnel. In the event that prophylaxis medication or administration of vaccines may need to be provided to the public at Points of Distribution, pharmacists may be called upon to provide assistance at those identified locations. Also, pharmacist oversight to ensure the continued supply of maintenance prescription medication to individuals under the care provided at Alternate Care Sites during an emergency is critical to the healthcare and well being of those individuals and will prevent these individuals from overwhelming emergency care facilities just to obtain their maintenance medications.

The addition of pharmacists to the list of volunteer emergency medical disaster response personnel will allow pharmacists licensed in this state or employed in a health care facility to utilize their professional expertise in the emergency response to a mass casualty event or disaster. This will also allow pharmacists to participate in the mass casualty and disaster training which is vital in the preparation for the response to an emergency event.

Thank you for the opportunity to testify.
