Comments:

I oppose this measure to add a photo to the EBT card. This is obviously being done to prevent some kind of fraud that some people would like to believe is inherent in the food stamp/social service program, but this is a false belief and is due to prejudice those on social services. I believe this bill is one manifestation of prejudice, which results in discriminatory acts such as these types of bills.

I believe this bill make it harder for those that are disabled or need/want someone to go to the store to pick up food for them to get help and cause unnecessary hassles. It is enough to have a pin number for security purposes.
