Subject: SB 1506: Childhood Obesity

To: Senator David Ige, Chair
Senator Michelle Kidani, V. Chair

From: Walton K.T. Shim, MD, FACS, FAAP

As a pediatric surgeon I am in contact with many morbidly obese children particularly among the ethnic minorities of Hawaiian, Samoan, and Pacific Islander ancestries. It is a plight of lower economic status and affects an estimated 20,000 children who are morbidly obese in Hawaii. They need medical care to prevent and control heart, lung, kidney, and liver disease and hypertension, and to keep them from becoming obese adults with increased mortality.

SB 1506 will help accomplish this goal- I support it.
