**Comments:**

This bill is a big infringement on my personal freedom of speech! Have you legislators every heard of the 1st Amendment?

SB 2104 at first seems to be about cyber bullies, and if passed it will be added to current laws on the books regarding actual real harassment:

Provides that the making of an electronic communication, as defined in section 711-1111(2), Hawaii Revised Statutes, that is directed at a specific person and causes that person emotional distress and serves no legitimate purpose, together with the required specific intent, is harassment.

Well this means that I couldn't editorialize or opinionize on the internet or at MolokaiAdvertiserNews.com about specific people such as Barack NOT-Natural Born Citizen-Obama Usurper in Chief, or his buddy Governor Aberblabbercommie, Linda Superferry Lingle, DLNR's Sam BrainwashedAgainstSeawalls Lemmo, a long list of jackass judges and anal attorneys, banksters and untouchable JewsWhoControlMajorMedia, or any other SPECIFIC persons or people.

Laws like this are another bad example of legislation that is clearly ultra vires, i.e., unConstitutional. As this bill is drafted, it must NOT be passed because it infringes on the personal rights to free speech, 1st Amendment rights, of all sovereign United States Citizens, rights that are clearly stated in our Bill of Rights and thereby are Constitutionally protected from crooks in every level of government office.

And, by the way, gut this bill and replace its text with a bill to establish Bill of Rights Day December 15 annually in Hawaii. Maybe that will help legislators learn about the Constitution for the United States of America, the Supreme Law of the Land so they stop violating our rights with treasonous legislative proposals. You pass a Muslim Day bill, but for past ten years you refuse to pass a Bill of Rights Day bill? How you figga?

PS: Barack Obama was NOT born in Hawaii, so stop calling him a local boy as he is a fraud Usurper Criminal at Large, and DOH, and Aberblabbercommie are complicit with Obama.

**Comments:**

Unfortunately the report title is "Harassment; Electronic Communication," but most people are trying to disguise this as some sort of "Cyber Bullying" bill.  
I'm in opposition of this proposed bill:

I myself see the bill as it's written as a big infringement on folks personal freedoms and especially the freedom to free speech!

The Description of SB 2104 reads as follows and it would be attached to current laws on the books regarding actual real harassment:

Provides that the making of an electronic communication, as defined in section 711-1111(2), Hawaii Revised Statutes, that is directed at a specific person and causes that person emotional distress and serves no legitimate purpose, together with the required specific intent, is harassment.

Well this means that I couldn't specifically blog about folks such as President Obama, Governor Abercrombie, Mayor Kenoi, our County Council or any other SPECIFIC persons or people.

It's a very slippery slope when the government tells people what they can and can not write and laws enacted like this are another bad example of legislation that wasn't thought about before it went to the legislature.

I'm totally against cyber bullying and cyber harassment, however, as this bill is drafted... it infringes on our personal rights to free speech.
