SB 2182 RELATING TO THE CENTER FOR NURSING

Chair Yamane, Vice Chair Morikawa and members of the House Committee on Health, thank you for this opportunity to provide testimony in strong support of this bill, SB 2182 which amends Act 198, Session Laws of Hawai'i 2003, as amended by section 2 of Act 173, Session Laws of Hawai'i 2008. **This measure is the companion bill to HB 2023 which was passed out unamended by this Committee.**

This change would make permanent the assessment and deposit of the Hawai'i State Center for Nursing ("HSCFN") fees into the compliance resolution fund and distribution of those funds to the credit of the HSCFN special fund.

The Legislature in its wisdom established the HSCFN in 2003. Since then the HSCFN has provided education, service, and research through collaborative leadership. It has proactively addressed the Institute of Medicine's recommendations (and similar recommendations of the Hawai'i Workforce Development Council)¹. It has forged solutions through respect, diversity, and the collective strength of all stakeholders. The HSCFN has become the hub of nursing information and research that ultimately will benefit the people of Hawai'i.

The HSCFN should be perpetuated as it has become a leader in workforce planning, nursing research, and professional practice in the State. Stakeholders recognize the HSCFN as the source of reliable information on existing and emerging trends in nursing. Thinking strategically, acting collaboratively, and seeking synergistic solutions have become the hallmarks of the HSCFN.

The repeal of the Center for Nursing fees would in essence cause the demise of the HSCFN as the fee is its main source of funding. Therefore, the UH Mānoa Nursing strongly recommends passage of SB 2182.

We appreciate your continuing support of nursing and healthcare in Hawai'i. Thank you for the opportunity to testify.

¹ See attached: HSCFN Work to Date in Addressing the Institute of Medicine's Recommendations

Hawai'i State Center for Nursing

Hawai'i State Center for Nursing (HSCFN) Work to Date in Addressing the Institute of Medicine's (IOM) Recommendations

January 2012

Recommendation 1: Remove scope-of-practice barriers.

The HSCFN has researched barriers which prevent Advanced Practice Registered Nurses (APRNs) from practicing to the full extent of their education and training. The HSCFN established the APRN Committee which has identified 36 barriers in Federal and State laws to date. The Committee continues to survey APRNs in various practice settings to identify additional barriers to practice. (Information is available upon request.) The Committee has found significant delay in State agencies' implementation of new laws passed by the Legislature which were intended to break down some of these barriers.

Recommendation 2: Expand opportunities for nurses to lead and diffuse collaborative improvement efforts.

The HSCFN established the Nursing Education and Practice Collaborative which is comprised of representatives from key sectors of nursing in the State of Hawai'i with a shared mission and vested interest to attract, educate, and maintain a qualified nursing workforce. This mission presents an opportunity for collaboration with private and public employers, health care organizations, and nursing associations committed to:

- expanding nursing education and practice in the State of Hawai'i to ensure a stable and competent nursing workforce; and
- generate innovative and sustainable solutions for assuring a stable and highly competent nursing workforce across the continuum of healthcare delivery.

Recommendation 3: Implement nurse residency programs.

HSCFN has taken actions to support nurses' completion of a transition-to-practice program (nurse residency) after they have completed a pre-licensure or advanced practice degree program or when they are transitioning into new clinical practice areas. In collaboration with Castle Medical Center, Hawai'i Pacific Health, Hawai'i Health Systems Corporation, Kaiser Medical Center, The Queen's Medical Center, Chaminade University, Hawai'i Pacific University and the University of Hawai'i System, the HSCFN will be implementing a Registered Nurse Residency Program.

At the end of the program, the graduate nurses will:

- transition from entry level nurses to competent professional nurses; develop effective decision making skills related to clinical judgment and performance;
- be able to provide clinical leadership at the point of care;
- strengthen their commitment to nursing as a professional career choice;
- be able to incorporate research-based evidence into their practices; and
- formulate individual career development plans.

Recommendation 4: Increase the proportion of nurses with a baccalaureate degree to 80 percent by 2020.

Academic nurse leaders from the University of Hawai'i are working together in a shared bachelor of science (BS) program that will increase the proportion of new graduate nurses with a baccalaureate degree. To increase the percentage of BS prepared nurses from 50 to 80 percent statewide by 2020, private and public funders, and employers must create incentives for degree completion by experienced associate degree RNs to continue their progression to the bachelor or master's degree. The HSCFN can facilitate this activity and monitor progress in creating a statewide nursing workforce prepared to meet the demands of diverse populations across the lifespan.

Recommendation 5: Double the number of nurses with a doctorate by 2020.

Hawai'i doctoral graduates are increasing with 8 students each year receiving their PhD from UH Mānoa. The University of Hawai'i nursing programs at Mānoa and Hilo will launch the Doctor of Nursing Practice program in fall 2012 with projected enrollment of 24 and 10 students respectively. Faculty recruitment is hampered by the low salary provided to educators. A combination of increasing the high demand faculty salary threshold and tuition forgiveness programs are needed to increase recruitment and retention.

Recommendation 6: Ensure that nurses engage in lifelong learning.

In accordance with SCR 167, 2009 SLH, the HSCFN established the Continuing Education Joint Advisory Committee (CEJAC) made up of the Hawai'i schools of nursing, health care organizations, the Board of Nursing, and professional associations to collaborate in an effort to ensure that nurses, nursing students and faculty continue their education and engage in lifelong learning to gain the competencies needed to provide care for diverse populations across the lifespan.

In accordance with the IOM recommendations ("Redesigning Continuing Education in the Health Profession"), the CEJAC developed the Hawai'i Continuing Competence Program. The individual nurse in collaboration with the BON, nursing educators, employers and the nursing profession would have the responsibility to demonstrate continued competence by completing a confidential self-assessment of the nurse's

practice; create a plan to maintain competence within the area of practice; choose from multiple learning options/methods/ and attest to completion of the process at the time of license renewal.

The second part of the Program will include an evaluation to assess the effectiveness of the process on nurse competency. The National Board of State Boards of Nursing is in the process of developing such a tool, and the specifics of the tool are pending. CEJAC members include the American Organization of Nurse Executives, Department of Commerce & Consumer Affairs, Filipino Nurses Organization, Hawai'i Association of Professional Nurses, Hawai'i Community College, Hawai'i Health Systems Corporation, Hawai'i Long Term Care Association, Hawai'i Medical Center, Hawai'i Association of Nurse Anesthetists, Hawai'i Association of Nurse Practitioners, Hawai'i Association of Nurse Professionals, Hawai'i Nurses Association, Hawai'i Pacific Health, Hawai'i Pacific University, Healthcare Association of Hawai'i, Kaiser Permanente Hawai'i, Kapi'olani Community College, Kauai Community College, Kuakini Health System, Maui Community College, Philippine Nurses Association, State of Hawai'i Board of Nursing (BON), The Queen's Medical Center, University of Hawai'i at Hilo, University of Hawai'i at Mānoa, and the University of Phoenix.

Recommendation 7: Prepare and enable nurses to lead change to advance health.

The HSCFN established the Hawai'i Nurse Internship and the Nurse Residency Programs to assist novice nurses transition into successful practice. This is accomplished by developing nurse educators, managers, and staff RN preceptors in each organization to work with new graduates and enable them to teach, coach, mentor, lead, and evaluate new nurses. Nurse residency programs are designed to increase job satisfaction and reinforce professional commitment to the nursing profession, contributing to the long-range goal of alleviating the nursing shortage. Data from organizations with these programs report significant increase in RN retention.

Recommendation 8: Build an infrastructure for the collection and analysis of interprofessional health care workforce data.

The HSCFN and the UH Mānoa School of Nursing and Dental Hygiene have collaborated with the Hawai'i Workforce Development Council, the Hawai'i Board of Nursing, the State departments of Health, Human Services, Commerce & Consumer Affairs and Labor to ensure that the data are timely and publicly accessible. Five annual surveys were conducted to track the types of nursing programs offered, enrollment capacity, number of graduates, student and faculty demographics, and current issues affecting education capacity. Three biennial census surveys of registered nurses licensed by the Hawai'i Board of Nursing were conducted to identify and trend RNs geographic distribution, age, employment status, intention to stay in current employment and in the profession. A census survey of licensed practical nurses (LPN) licensed by the State of Hawai'i Board of Nursing was conducted to identify and trend PNs geographic distribution, age, employment status, intention to stay in current employment and in the profession.

**PRESENTATION OF THE
BOARD OF NURSING**

TO THE HOUSE COMMITTEE ON
HEALTH

TWENTY-SIXTH LEGISLATURE
Regular Session of 2012

Tuesday, March 13, 2012
9:00 a.m.

**TESTIMONY ON SENATE BILL NO. 2182, RELATING TO THE CENTER FOR
NURSING.**

TO THE HONORABLE RYAN I. YAMANE, CHAIR,
AND MEMBERS OF THE COMMITTEE:

My name is Lee Ann Teshima, Executive Officer for the Board of Nursing ("Board"). I appreciate the opportunity to testify on Senate Bill No. 2182, Relating to the Center for Nursing. The Board supports this bill which proposes to delete the repeal date for the assessment and deposit of the Center for Nursing fees into the compliance resolution fund. The Board has no preference between this bill and its companion, House Bill No. 2023.

Thank you for the opportunity to testify in support of Senate Bill No. 2182.

**Testimony Supporting Senate Bill 2182, Relating to Center of Nursing.
Makes permanent the assessment and deposit of center for nursing fees into the
compliance resolution fund and distribution of those funds to the credit of the
center for nursing special fund.**

Bruce S. Anderson, Ph.D.
President and Chief Executive Officer
Hawaii Health Systems Corporation

On behalf of the Hawaii Health Systems Corporation (HHSC), thank you for the opportunity to present testimony in support of SB 2182 that makes permanent the assessment and deposit of center for nursing fees into the compliance resolution fund and distribution of those funds to the credit of the center for nursing special fund.

Since its inception, the Hawaii State Center for Nursing has provided invaluable support to nurses statewide through advocacy, training, grants and as a resource center. Without the commitment of the Center, there would not be a statewide training program for newly graduated nurses. The nurse residency program which the Center brought to Hawaii will have a significant impact upon our hospitals and communities. Through the continuum of their academic program which the Center has established in University of Hawaii nursing programs to new graduate employees at our hospitals, tomorrow's nurses will be a highly skilled workforce due to the programs established by the Center.

The future of quality health care in Hawaii is dependent on continued efforts by the Center and its programs. We strongly support continuation of designating fees to the nursing special fund.

Thank you for the opportunity to testify before this committee. We would respectfully urge the Committee's support of this measure.

HOUSE COMMITTEE ON HEALTH
Rep. Ryan Yamane, Chair

Conference Room 329
March 13, 2012 at 9:00 a.m.

Supporting SB 2182: Relating to the Center for Nursing

The Healthcare Association of Hawaii advocates for its member organizations that span the entire spectrum of health care, including all acute care hospitals, as well as long term care facilities, home care agencies, and hospices. In addition to providing quality care to all of Hawaii's residents, our members contribute significantly to Hawaii's economy by employing over 40,000 people. Thank you for this opportunity to testify in support of SB 2182, which makes permanent the current means of financing the Center for Nursing.

The Center for Nursing was established by the Legislature in 2003 to (1) Collect and analyze data and prepare and disseminate written reports and recommendations regarding the status and trends of the nursing workforce; and (2) Conduct research on best nursing practices resulting in quality outcomes. The mission of the Center for Nursing is to ensure that Hawaii has the nursing resources necessary to meet the health care needs of its people. The various activities of the Center for Nursing have proven to be effective in developing an adequate supply of skilled professionals. Furthermore, the importance of the Center for Nursing is expected to grow as Hawaii's population ages and the demand for nurses increases.

The Center for Nursing receives operational funds from \$40 assessed on new or renewed nurse licenses. This method of funding has proven to be reliable and satisfactory, and should be continued. This bill will do that by repealing the existing sunset for this funding method.

For the foregoing reasons the Healthcare Association of Hawaii supports SB 2182.

Written Testimony Presented to the
House Committee on Health

Karen Schmaltz, RN, BScN, MS
Manager, Education & Training
Castle Medical Center

SB 2182 RELATING TO THE CENTER FOR NURSING

Chair Yamane, Vice Chair Morikawa, and members of the House Committee on Health, thank you for this opportunity to provide testimony in strong support of this bill, HB 2023 which amends Act 198, Session Laws of Hawaii 2003, as amended by section 2 of Act 173, Session Laws of Hawaii 2008. **This measure is the companion bill to HB 2023 which was heard and passed unamended by this Committee.**

This change would make permanent the assessment and deposit of the Hawaii State Center for Nursing ("HSCFN") fees into the compliance resolution fund and distribution of those funds to the credit of the HSCFN special fund.

Through the establishment of the HSCFN, the resulting programs, education and collaboration have had a direct positive effect on the efficient provision of safe patient care, the development of our future nurses, the growth and development of the state's registered nurses, and has allowed us to become one of the nation's leaders in the health reform efforts through the establishment of the Future of Nursing Action Coalition for the State of Hawaii. The HSCFN has become the core of nursing information and as a result has provided nurses with a voice and direction in our quest to improve the health of the people of Hawaii.

The repeal of the Center fees would in essence cause the demise of the HSCFN as the fee is its main source of funding. As a Registered Nurse licensed in the State of Hawaii, I strongly support the passage of SB 2182.

Thank you for the opportunity to testify.

Representative Ryan I. Yamane, Chair
Representative Dee Morikawa, Vice Chair
HOUSE COMMITTEE ON HEALTH

March 13, 2012 – 9:00 a.m.
State Capitol, Conference Room 329

In Support of S.B. 2182, Relating to the Center for Nursing

Chair Yamane, Vice Chair Morikawa, and Members of the Committee,

My name is Cindy Kamikawa, Vice President, Nursing, Trauma, ED and Chief Nursing Officer of The Queen's Medical Center (QMC), testifying in **strong support** for S.B. 2182, Relating to the Center for Nursing, which amends Act 198, Session Laws of Hawaii 2003, as amended by section 2 of Act 173, Session Laws of Hawaii 2008. This change would make permanent the assessment and deposit of the Hawaii State Center for Nursing ("HSCFN") fees into the compliance resolution fund and distribution of those funds to the credit of the HSCFN special fund.

The Center has provided education, service, and research through collaborative leadership. It has addressed recommendations related to the nursing workforce; including the implementation of a nurse residency program. The Center has become a resource for nursing information and research that ultimately will benefit the people of Hawai'i.

The HSCFN should continue to be a leader in workforce planning, nursing research, and professional practice in the State. Stakeholders recognize the HSCFN as the source of reliable information on existing and emerging trends in nursing. The repeal of the Center fees would, in essence, cause the demise of the HSCFN as the fees are its main source of funding.

Therefore, I strongly recommend passage of S.B. 2182 and appreciate your continued support of nursing and healthcare in Hawai'i.

Thank you for the opportunity to provide testimony in **strong support** for this measure.

The Twenty-Sixth Legislature, State of Hawaii
House of Representatives
Committee on Health

Testimony by
Hawaii Government Employees Association
March 13, 2012

S.B. 2182 – RELATING TO THE
CENTER FOR NURSING

The Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO supports the purpose and intent of S.B. 2182, which makes permanent the assessment of the Center for Nursing fees into the compliance resolution fund and the distribution of those funds to the credit of the Center for Nursing special fund.

The HGEA supported the formation of the Hawaii State Center for Nursing (Center for Nursing) in 2003 and believes in its core functions which are to: 1) collect and analyze data, prepare and disseminate written reports and recommendations regarding current and future status and trends of the nursing workforce; 2) conduct research on best practices and quality outcomes; 3) develop a plan for implementing strategies to recruit and retain nurses; and 4) research, analyze and report data related to the retention of nursing workforce.

The Center for Nursing provides valuable objective data and programs designed to address the nursing shortage that will materialize over the next 5-10 years. Hawaii is experiencing a short-term surge in the nursing workforce, but is a temporary situation. A highly educated and competent nursing workforce is essential to the healthcare of Hawaii, and the Center is a valuable resource in accomplishing that objective. Therefore, we support making permanent the assessment and deposit of the Center for Nursing fees into the compliance resolution fund and the distribution of those funds to the credit of Center for Nursing special fund.

We appreciate the opportunity to testify in support of S.B. 2182.

Respectfully submitted,

Leiomalama E. Desha
Deputy Executive Director

American Organization of Nurse Executives, Hawai'i Chapter

RE: Testimony in SUPPORT OF SB 2182, RELATING TO THE CENTER FOR NURSING.

Good morning, Chair Yamane, Vice- Chair Morikawa and members of the Committee. On behalf of the Hawaii Chapter, American Organization of Nurse Executives ("AONE"), thank you for the opportunity to submit testimony in **support** of SB 2182, relating to the Center for Nursing.

This measure makes permanent the assessment and deposit of center for nursing fees into the compliance resolution fund and distribution of those funds to the credit of the center for nursing special fund. We believe that this measure is important to the continued provision of quality nursing care in the state of Hawaii.

AONE Hawaii is a non-profit professional organization serving more than 100 member Nurse Executives throughout Hawaii and is an affiliate of AONE National, which has over 7,000 members nationwide. Our mission is to be the principle membership organization that represents and promotes the profession of Nurse Executives in the State of Hawaii.

Thank you for the opportunity to testify. If we can assist with more information please contact us at (808) 447-1840 or aonehawaii@gmail.com.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Suzanne Filleul', written over a horizontal line.

Written Testimony Presented Before the
House Committee on Health
March 13, 2012, 9 a.m.

by
Gail P. Tiwanak, RN, MBA
Executive Director
Hawaii State Center for Nursing

SB 2182 RELATING TO THE CENTER FOR NURSING

Chair Yamane, Vice Chair Morikawa, and members of the House Committee on Health, thank you for this opportunity to provide testimony in strong support of this bill, HB 2023 which amends Act 198, Session Laws of Hawaii 2003, as amended by section 2 of Act 173, Session Laws of Hawaii 2008. **This measure is the companion bill to HB 2023 which was heard and passed unamended by this Committee.**

This change would make permanent the assessment and deposit of the Hawaii State Center for Nursing ("HSCFN") fees into the compliance resolution fund and distribution of those funds to the credit of the HSCFN special fund.

The Legislature established the HSCFN in 2003. Since then the Center has provided education, service, and research through collaborative leadership. It has proactively addressed the Institute of Medicine's recommendations (and similar recommendations of the Hawai`i Workforce Development Council). It has forged solutions through respect, diversity, and the collective strength of all stakeholders. The Center has become the hub of nursing information and research that ultimately will benefit the people of Hawai`i.

The HSCFN should be perpetuated as it has become a leader in workforce planning, nursing research, and professional practice in the State. Stakeholders recognize the HSCFN as the source of reliable information on existing and emerging trends in nursing. Thinking strategically, acting collaboratively, and seeking synergistic solutions have become the hallmarks of the HSCFN.

The repeal of the Center fees would in essence cause the demise of the HSCFN as the fee is its main source of funding.

Therefore, the Hawaii State Center for Nursing strongly recommends passage of SB 2182. We appreciate your continuing support of nursing and healthcare in Hawai`i. Thank you for the opportunity to testify.

Aloha;

I support continuing indefinitely to fund the Hawaii State Center for Nursing from fees I pay at license renewal.

mahalo!

COMMITTEE ON HEALTH
Tuesday, March 13, 2012
Conference Room 329
9 A.M.

In Support of SB 2182/SSCR 2704
RELATING TO THE CENTER FOR NURSING

Chair Yamane, Vice Chair Morikawa , and members of the Committee on Health, I testify in strong support of SB 2182/SSCR 2704. My name is Amy Stone Murai and I have been a registered nurse for 37 years, an advanced practice registered nurse (APRN) for 35 years, and have been licensed in the State of Hawai'i since 1989. I am a member of the Board of Nursing, but provide this testimony as an individual.

SB 2182/SSCR 2704 supports the continued existence of the Hawai'i State Center for Nursing by establishing a permanent funding source and distribution of **monies collected from the state's licensed nurses** for the sole purpose of fulfilling the Center's Mission: To assure that the State of Hawai'i has the nursing resources necessary to meet the health care needs of its people.

The Center was established by Act 198 in 2003, and funding was continued under Act 173 in 2008. Based on the Legislative mandates, the primary functions of the Center are to:

- Collect and analyze data, prepare and disseminate written reports and recommendations regarding current and future status and trends of the nursing workforce
- Conduct research on best practice and quality outcomes; and
- Develop a plan for implementing strategies to recruit and retain nurses

The Center fulfills its mandate via surveys of nurses licensed in the state and of nursing education programs to monitor capacity. It conducts research to facilitate evidence-based practice (EBP) and standardization of quality measures state-wide. The Center partners with schools of nursing and employers to assure successful transition to practice (RN residency program) and quality leadership (Leadership Institute). It collects, analyzes, and reports transition and retention data on new graduate nurses as well as data on licensed nurses' plans to leave practice/retire. Many currently practicing nurses have put off retirement due to financial losses resulting from the economic downturn. It is critical that an adequate workforce be sustained when those nurses retire en mass when the economy improves. The Hawai'i State Center is the logical and appropriate agency to coordinate with its many community partners to anticipate and ensure a smooth workforce transition. Please allow the Hawai'i State Center for Nursing to fulfill its Mission:

**To assure that the State of Hawai'i has the nursing resources
necessary to meet the health care needs of its people.**

The need for high quality nursing care does not have a sunset date. Thank you for the opportunity to testify in support of SB 2182/SSCR 2704, relating to the Center for Nursing. I thank the committee for their consideration.

Amy Stone Murai, RN, MS, APRN, WHNP-BC
