Comments:

- This legislation will violate the most important provision of the State sign law...the prohibition against any sign which advertises or publicizes an activity not conducted on the premises on which the sign is maintained. This is THE backbone of Hawai'i 72 year prohibition against billboards. It is what sets Hawaii and three other states apart from the rest of the nation where highways and urban landscapes are cluttered with billboards that are posted wherever space is available for a price. If passed it could be the beginning of the end of generations of thoughtful, protective legislation designed to keep our city's and our state among the most beautiful places on Earth.

- Do not let the narrow interests of a special few put at risk one of the most enduring and important laws in our islands.

- This legislation is not a slippery slope...it is a direct assault on the beauty of our islands. If passed it will have consequences far greater than those that already can be anticipated and cannot be tolerated. If passed, other special interests will almost certainly ask for permission to display their signs in a similar manner.

- Stop this nonsense. It is not what the people of Hawaii want. It clearly overcorrects what is at best, a minor problem that easily be corrected with far less threatening and dangerous alternatives.

- Planned community associations can easily publicize their meetings and events through existing means, including those used every day by every other entity in the State of Hawaii, mail, email, posters in appropriate places, telephone, radio, appropriately distributed flyers, sign waivers, etc.

- No group, no business, no organization, no government agency, no individual...no one at all in the State of Hawaii is allowed to post signs on public property that can be seen from a public sidewalk or roadway. No one special interest should be granted the right to engage in activities that are illegal to all others.

- Please vote NO or hold this ill-advised legislation.

Comments:

There is no reason to change a law for an organization such as a community association when there are so many alternatives to use and that exist such as email, posters in appropriate places, telephone, radio, etc. Please don't start changing our Hawaii State sign laws. We should be proud that Hawaii is one of 3 states that care about the use of signage and keeps Hawaii as beautiful as it is.

I'm also a member of Kihei Community Association and I'm notified of a upcoming meetings by email which works great for me and many others. Also the Maui News usually has a article of upcoming communtiy events too.

Thank you for your time.

Comments:
Please, no signs. Laws should not be changed to suit those with the most money.
Mahalo.

Comments:

Please vote NO on this legislation! Hawaii is one of the only places in the country which is not covered with billboards and other ugly signage. Please keep it this way!! There are plenty of other ways for community associations to keep their members up to date - they don't need to post publicly visible signs.

Thank you,
Tina Wirth
