Comments:

If the Humaine Society truly want to make strides in helping the state of animal health and sales, they would work WITH the community and local businesses instead of against. Simply creating laws against retailers seems like low hanging fruit, or a band aid solution.

Comments:

Please pass this bill. None of the bills Inga Gibson has introduced this session are frivolous. They are all necessary. This bill is necessary for the protection of the animals and the consumer so that more humane, just practices are required. Especially important to stop the unregulated breeding and sale of these innocent beings that flood the market resulting in not good homes and the death of a lot of deserving beings in shelters. Please use your power as it is the only power as the law that can help them in this and other animal protection laws. I checked my email too late and missed information and testifying on other crucial animals bills earlier this week regretably. Please vote the mercy you'd want if you were in their place. Thank you.
