Comments:

This Resolution requesting the development of a "strategic plan to optimize the use of state public library facilities" sounds like it may be a good idea to pursue.

I'm sure the libraries would be very glad to have additional sources of funding to meet their needs.

Of course, specific guidelines would be needed to address the need for sufficient staffing, rental charges, designation of who would authorize rental requests (hopefully it would be the branch librarians), making sure the library's own programs are not preempted by an event just because it was bringing in money, and other such considerations.

Thank you.
