Aloha Chair Souki, Vice Chair Ichiyama and Members of the Committee:

The Property Casualty Insurers Association of America (PCI) supports SCR 97 SD1, which requests the Insurance Commissioner to convene a working group to explore the creation of a web services-based database program to track uninsured motorists.

PCI supports this approach as a prudent step to analyzing the overall condition of the state's needs before adopting a system to address and to reduce the number of uninsured motorists in Hawaii.

For these reasons, PCI respectfully requests that the committee advance the current version of this concurrent resolution.
