Aloha Chair Baker, Chair Fukunaga and Members of the Committees:

The Property Casualty Insurers Association of American (PCI) is supports SCR 97, which requests the Insurance Division to convene a working group to explore the creation of a web services-based database program to track uninsured motorists.

PCI supports this approach as a prudent step to analyzing the overall condition of the state's needs before adopting a system to address and to reduce the number of uninsured motorists in Hawaii.

For these reasons, PCI respectfully requests that the committees to advance the current version of this concurrent resolution.
