2013 LEGISLATIVE SESSION HIGHLIGHTS

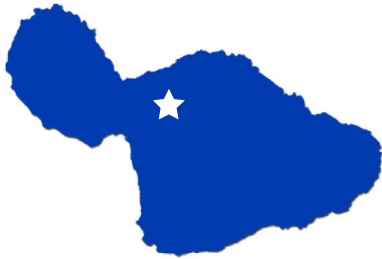

“The agreed upon budget appropriated more than \$172 Million for the Kahului Area” - Maui News

The Legislature approved bills that address the needs of a wide spectrum of the State’s population. The approach this session was to focus on the State’s long term needs such as reducing fiscal liabilities, repaying our reserve funds, promoting economic development, early education, sustainability and improving the quality of life for residents.

The fiscal years 2013-2014 State Budget responds to the pressing needs of Hawaii’s people while carefully scrutinizing expenses and crafting an appropriate budget to ensure that the most significant priorities are met and to lend a structural stability to the State’s financial plan.

Aloha Central Maui!

Thank you for the honor and privilege to serve as your Representative in the Hawaii State Legislature. The House of Representatives used a fresh approach of conducting business under the leadership of Speaker Joe Souki. Increased transparency, fiscal responsibility, and accountability, resulted in good legislation that will positively affect our central Maui community. The Maui delegation worked well together which also resulted in more neighbor island conscious legislation, increased capital improvement projects for Maui, more repair and maintenance funds for our communities, and positive Valley Isle initiatives to help move our economy forward.

As the economic conditions improve, the State Legislature has made significant investments in our keiki, kupuna, small businesses, public work force benefits, and our environment. Taking a holistic approach, the Hawaii State Legislature worked toward moving the communities forward with a fresh vision for the future. Cleaner and more affordable energy in the long term, increased protections of our pristine environment, further reasonable stimulation of our economy, and improving our health care and education systems, will allow us to secure a bright future for Maui and Hawaii as a whole.

I will continue to work very hard for the betterment of our community. If I can be of assistance in any way, or if you would like to share advice, please do not hesitate to contact me at: **(808) 586 - 6210** or

2013 LEGISLATIVE ACCOMPLISHMENTS

Bills that passed the 2013 Hawaii State Legislature

The Maui delegation proved that we were not afraid to take up tough issues this Legislative Session. Together we were able to pass many bold and overdue measures. Many community legislation included those dealing with sustainability and improving state finances. We reaffirmed our commitment to our Kupuna by appropriating funds to support health and quality of life issues. The following is a list of measures, which positively impact our community that passed through the Legislature this session.

Hawaii Growth Initiative

Supports Hawaii's business economy by providing \$6 million in funding to the Hawaii Strategic Development Corporation for the HI Growth Initiative, an investment program designed to develop, stimulate, and support high-growth entrepreneurial businesses in Hawaii and create high-paying jobs. (HB858 CD1)

(SB551 SD2 HD1 CD1)

WOODSON MEETS WITH MAUI SCHOOL OFFICIALS TO IMPROVE EDUCATION

As the 2014 Legislative Session approaches, Representative Justin Woodson is gearing himself toward further improving the local education system and facilities.

It is a new and exciting time. Beginning this year, a fresh approach will begin to further improve our public school education system here in Hawaii. There are few things, if any, that can have more of a positive impact on our future than properly investing in our keiki through the public school system. Current initiatives and new proposed legislation will work towards getting our kids ready for competitive jobs here at home, or anywhere around the world.

Representative Justin Woodson will be working with the Department of Education as a member of the House Finance Committee to better ensure program effectiveness, implementation, and funding. He will also work with the Hawaii State Teacher Association to make sure our educators are properly supported so they can focus on

what is most important; our children and our future.

In recent years construction for **Maui Waena** has completely stopped. Now, by working closely with the Department of Education and Mayor Alan Arakawa, significant progress is now again being made. The final phase is scheduled to begin later this year, so that students can resume learning in better settings.

University of Hawaii Maui

College Chancellor Clyde Sakamoto and

Representative Justin

Woodson are working together

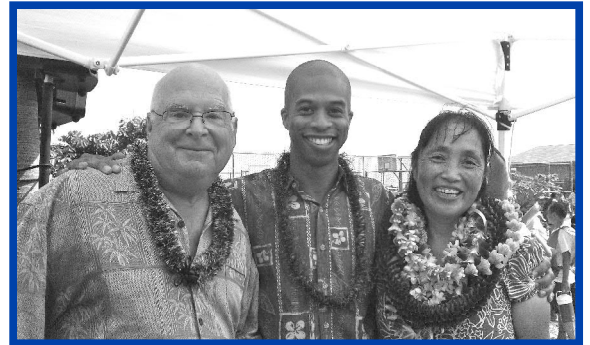

to obtain funding in hopes to expand the Maui Campus. Additional funding will provide for increased operational costs and fulfill the need for more career counselors. Representative Justin Woodson hopes to secure funding for these projects to help give even more people within the community an opportunity to achieve higher education.
