SB593 SD2 HD1 CD1

RELATING TO AGRICULTURE
ACT 200 (13)

Aloha
SIGNED
Neil Abercrombie

NEIL ABERCROMBIE
Governor, State of Hawaii

A BILL FOR AN ACT

RELATING TO AGRICULTURE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The cost of feed for livestock production in
2 Hawaii can constitute up to seventy per cent of total production
3 costs, whereas feed costs for mainland producers amount to
4 nearly fifty per cent of total production costs. In 2007, there
5 were five dairies and six egg farms of significant size in
6 Hawaii, with combined gross annual revenues of \$26,400,000.
7 Currently, there are only two dairies and four egg farms of
8 significant size, with combined gross annual revenues of
9 \$16,250,000. Since 2007, two dairies and four egg farms have
10 gone out of business, primarily due to the rising cost of feed
11 for livestock animals and the resulting increases in production
12 costs. Since October 2010, the cost of poultry feed alone has
13 increased approximately \$60 per ton and is expected to rise even
14 further.

15 Currently, one dairy and the four remaining egg farms are
16 threatened by closure. The closures heighten the State's
17 dependence on imported foods and threaten the State's food
18 security and ability to achieve adequate levels of agricultural

1 self-sufficiency. Self-sufficiency is critical to Hawaii's food
2 security and its ability to respond effectively in the event of
3 natural disasters or disruptions in transportation.

4 The closure of local dairies and poultry farms also means
5 that children and adults throughout the State will no longer
6 have the option of selecting fresh, locally produced milk and
7 eggs. Consumers have often expressed interest in obtaining
8 locally produced milk but, unfortunately, the dairies do not
9 produce enough milk to meet consumer demand. The public has
10 expressed a similar interest in island-fresh beef, pork, sheep,
11 lamb, chicken, eggs, and seafood.

12 Locally produced fresh beef, milk, pork, lamb, chicken,
13 eggs, and seafood provide essential nutrition to consumers.
14 Transport times from offshore farms to Hawaii consumers create a
15 greater risk of food spoilage and resultant food-borne illnesses
16 due to the highly perishable nature of these products. Without
17 these local agricultural businesses, all beef, milk, pork, lamb,
18 chicken, and eggs would have to be imported into the State,
19 requiring up to ten days of shipping before being sold to
20 consumers. This increased shipping time reduces the expected
21 shelf life of fresh milk and eggs in particular.

1 The purpose of this Act is to provide funds to allow
 2 qualified beef cattle, dairy, hog, poultry, goat, sheep, fish,
 3 and crustacean farms to apply for and receive a reimbursement
 4 for a percentage of each farm's feed expenses. With financial
 5 support, the livestock industry will be able to continue to make
 6 investments in modern equipment, expand and improve herds and
 7 flocks, and develop new markets and products. This financial
 8 support will serve a public purpose by enabling the livestock
 9 industry to stabilize its operations, thereby contributing to
 10 food security and increasing the competitiveness of the local
 11 livestock industry with mainland suppliers.

12 SECTION 2. Section 155D-1, Hawaii Revised Statutes, is
 13 amended by amending the definitions of "milk" and "qualified
 14 producer" to read as follows:

15 ""Milk" means the lacteal secretion, practically free from
 16 colostrums, obtained by the milking of healthy cows or goats
 17 normally produced or marketed through the channels of the fluid
 18 milk trade[-] or for further processing into milk products.

19 "Qualified producer" means any person that at the time of
 20 application for and disbursement of funds under this chapter is
 21 in the business of producing:

- 1 (1) Milk from a herd, located in Hawaii, of not less than
- 2 ~~[three hundred fifty]~~ ten cows ~~[7]~~ or twenty-five
- 3 lactating milking goats;
- 4 (2) Poultry products from a flock, raised and located in
- 5 Hawaii, of not less than ~~[three thousand]~~ thirty
