TWENTY-SEVENTH LEGISLATURE, 2013
STATE OF HAWAII

ACT 203

S.B. NO. 586
S.D. 1
H.D. 2
C.D. 1

A BILL FOR AN ACT

RELATING TO AGRICULTURAL BUILDING PERMITS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that compliance with
2 existing building codes and permitting processes negatively
3 impacts the State's agriculture and aquaculture industries by
4 adding significant time and costs to farming and ranching
5 enterprises for such fundamental activities as constructing or
6 installing greenhouses, shade houses, storage containers,
7 indigenous Hawaiian hale, and many other agricultural and
8 aquacultural buildings and structures, which, by their nature or
9 location, pose little risk to life or property. In contrast to
10 building codes in many other states, county building codes in
11 Hawaii generally do not distinguish between low-risk
12 agricultural structures and residential or commercial buildings.
13 Ultimately, this results in excessive costs for code compliance
14 for farmers and ranchers. While Act 114, Session Laws of Hawaii
15 2012, may help to reduce the cost and time spent applying for
16 building permits for specified nonresidential agricultural and
17 aquacultural buildings and structures and their appurtenances,
18 Act 114 did not offer relief from county building code

1 requirements, which in turn have prevented Hawaii's farms from
2 realizing their full potential to meet the State's food
3 sustainability goals.

4 The purpose of this Act is to encourage and support the
5 Governor's "New Day" initiative for diversified agriculture and
6 agricultural self-sufficiency in the State by providing, under
7 certain circumstances, an exemption from building code
8 requirements and expanding existing building permit exemptions
9 for nonresidential buildings or structures on farms and ranches
10 located outside the urban district.

11 SECTION 2. Section 46-88, Hawaii Revised Statutes, is
12 amended to read as follows:
