## A BILL FOR AN ACT

RELATING TO HERBAL THERAPY LICENSING.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1           SECTION 1. The legislature finds that herbal therapists  
2 are persons with knowledge, skills, and experience in the direct  
3 personal health care of individuals based on herbal practices,  
4 including the utilization of herbal formulas to improve health  
5 and wellness. Herbal therapists gain knowledge, skills, and  
6 experience by associating with a recognized practitioner and  
7 instructor, and through accredited university or certificate  
8 programs. The legislature also finds that the practice of  
9 herbal therapy does not replace existing forms of healing but is  
10 intended to be a complementary and alternative source of therapy  
11 to Western medicine.

12           The objectives of herbal therapists are to promote the  
13 practice of herbal therapy in the State to accommodate Hawaii's  
14 growing demand for alternative sources of medicine and to  
15 address residents' deteriorating health. The legislature  
16 further finds that the practice of herbal therapy is a method  
17 for improving the health and wellness of individuals and for  
18 treatment of illness and as such affects the public health,

1 safety, and welfare. Therefore it is in the public interest  
2 that individuals practicing herbal therapy are subject to  
3 meeting certain standards and regulations.

4 The legislature notes that this measure is not intended to  
5 prevent health care professionals who already utilize herbs in  
6 their practice from doing so in the future. Rather, the  
7 legislature finds that representing oneself as a health care  
8 professional and an herbal therapist requires standards. Act  
9 162, Session Laws of Hawaii 1998, as amended, addresses the  
10 practice of traditional Native Hawaiian healers and focuses on  
11 the health needs of the Native Hawaiian population. However,  
12 the purpose of this Act is to establish licensing requirements  
13 for contemporary herbal healers from all ancestries and for the  
14 benefit of the whole population. These licensing requirements  
15 shall apply to any person who practices, offers to practice, or  
16 advertises the practice of herbal therapy, except those covered  
17 under Act 162 (1998). This protects the public and the  
18 practitioners, as well as recognizes the validity of herbal  
19 therapy and the importance of our natural plant resources and  
20 knowledge base.

1 SECTION 2. The Hawaii Revised Statutes is amended by  
2 adding a new chapter to be appropriately designated and to read  
3 as follows:
