
A BILL FOR AN ACT

RELATING TO THE STATE BUDGET.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 PART I. GENERAL PROVISIONS

2 SECTION 1. SHORT TITLE. This Act shall be known and may
3 be cited as the General Appropriations Act of 2013.

4 SECTION 2. In accordance with Sections 37-92(b) and
5 37-92(h) of the Hawaii Revised Statutes, it has been determined
6 that the appropriations contained in this Act will cause the
7 general fund appropriation ceiling of the executive branch to be
8 exceeded in fiscal year 2013-2014 by \$198,473,883 or 3.3%. In
9 fiscal year 2014-2015, the general fund appropriation ceiling of
10 the executive branch will not be exceeded. The reasons for

15 reimbursable bond funds is deemed appropriate for the project.

16 SECTION 31. All general obligation bond funds used for a
17 public undertaking, improvement, or system designated by the
18 letter (D) shall have the bond principal and interest reimbursed
19 from the special fund in which the net revenue, or net user tax

21 improvement or system, are deposited or credited. Bonds issued
22 for irrigation and housing projects shall be reimbursed as
23 provided by section 174-21 and chapter 201H, Hawaii Revised

9 SECTION 32. In the event that the authorized
10 appropriations specified for a capital improvement project
11 listed in this Act are insufficient and where the source of
12 funding is designated as special funds, general obligation bond
13 fund with debt service cost to be paid from special funds,
14 revenue bond funds, or revolving funds, the governor may make
15 supplemental allotments from the special fund or revolving fund
16 responsible for cash or debt service payments for the projects,
17 or transfer unrequired balances from other unlapsed projects in
18 this Act or prior appropriation acts which authorized the use of
19 special funds, general obligation bond fund with debt service
20 costs to be paid from special funds, revenue bond funds, or
21 revolving funds; provided that such supplemental allotments
22 shall not be used to increase the scope of the project; and
23 provided further that such supplemental allotments shall not

1 impair the ability of the fund to meet the purposes for which it
2 was established.

3 SECTION 33. In the event that the authorized
4 appropriations specified for a capital improvement project
5 listed in this Act are insufficient and where the source of
6 funding is designated as airport passenger facility charge
7 funds, the governor may make supplemental allotments from the
8 airport revenue fund or airport revenue bond funds, or transfer
9 unrequired balances from other unlapsed projects in this Act or
10 prior appropriation acts that authorized the use of airport
11 passenger facility charge funds; provided further that such
12 supplemental allotments shall not be used to increase the scope
13 of the project; provided further that such supplemental
14 allotments shall not impair the ability of the fund to meet the
15 purposes for which it was established; and provided further that
16 the governor, at the governor's discretion, is authorized to
17 increase the passenger facility charge fund authorization
18 ceiling for the program to accommodate the expenditure of such
19 funds.

20 SECTION 34. The governor may supplement funds for any cost
21 element for a capital improvement project authorized under this
22 Act by transferring such sums as may be needed from the funds
23 appropriated for other cost elements of the same project by this
24 Act or any other prior or future act which has not lapsed;

1 provided that the total expenditure of funds for all cost
2 elements shall not exceed the total appropriations for that
3 project.

4 SECTION 35. After the objectives and purposes of
5 appropriations made in this Act from the general obligation bond
6 fund for capital improvement projects have been met, unrequired
7 balances, except those from university of Hawaii projects, shall
8 be transferred to the project adjustment fund appropriated in
9 part II and described in part IV of this Act, and shall be
10 considered a supplementary appropriation thereto; provided that
11 all other unrequired allotment balances, unrequired
12 appropriation balances, and unrequired encumbrance balances
13 shall lapse as of June 30, 2016, as provided in section 41 of
14 this Act.

15 SECTION 36. In the event that authorized appropriations
16 specified for capital improvement projects listed in this Act or
17 in any other act currently authorized by the legislature are
18 insufficient, and where the source of funding for the project is
19 designated as the general obligation bond fund, the governor may
20 make supplemental allotments from the project adjustment fund
21 appropriated in part II and described in part IV of this Act to
22 supplement any currently authorized capital investment cost
23 elements; provided further that such supplemental allotments

1 from the project adjustment fund shall not be used to increase
2 the scope of the project.

3 SECTION 37. After the objectives and the purposes of
4 appropriations made in this Act for capital investment purposes
5 from the state educational facilities improvement special fund
6 have been met, any unrequired balances shall be transferred to
7 the special funded project adjustment fund for state educational
8 facilities appropriated in part II and described further in
9 part IV, and shall be considered a supplementary appropriation
10 thereto.

11 SECTION 38. In the event that currently authorized
12 appropriations specified for capital investment purposes listed
13 in this Act or in any other act currently authorized by the
14 legislature are insufficient, and where the source of funding
15 for the project is designated as the state educational
16 facilities improvement special fund, the governor may make
17 supplemental allotments from the special funded project
18 adjustment fund for state educational facilities; provided
19 further that the supplemental allotments from the special funded
20 project adjustment fund for state educational facilities shall
21 not be used to increase the scope of the project and may only be
22 made to supplement currently authorized capital investment
23 project cost elements.

1 SECTION 39. After the objectives and purposes of
2 appropriations made in this Act from the general obligation bond
3 fund for capital improvement projects for the university of
4 Hawaii have been met, unrequired balances shall be transferred
5 to the university of Hawaii project adjustment fund appropriated
6 in part II and described in part IV of this Act, and shall be
7 considered a supplementary appropriation thereto.

8 SECTION 40. In the event that authorized appropriations
9 specified for university of Hawaii capital improvement projects
10 listed in this Act or in any other act currently authorized by
11 the legislature are insufficient, and where the source of
12 funding for the project is designated as the general obligation
13 bond fund, the governor may make supplemental allotments from
14 the university of Hawaii project adjustment fund appropriated in
15 part II and described in part IV of this Act to supplement any
16 currently authorized capital investment cost elements; provided
17 further that such supplemental allotments from the project
18 adjustment fund shall not be used to increase the scope of the
19 project.

20 SECTION 41. Any provision of this Act to the contrary
21 notwithstanding, the appropriations made for capital improvement
22 projects authorized under this Act shall not lapse at the end of
23 the fiscal biennium for which the appropriation is made;
24 provided that all appropriations made to be expended in fiscal

1 biennium 2013-2015 which are unencumbered as of June 30, 2016
2 shall lapse as of that date; provided further that this lapsing
3 date shall not apply to: (a) appropriations for projects
4 described in section 15 of this Act where the means of funding
5 is designated to be the state educational facilities improvement
6 special fund, where such appropriations have been authorized for
7 more than three years for the construction or acquisition of
8 public school facilities; and (b) non-general fund
9 appropriations for projects described in section 14 of this Act
10 where such appropriations have been deemed necessary to qualify
11 for federal aid financing and reimbursement and are unencumbered
12 as of June 30, 2020 shall lapse as of that date.

13 SECTION 42. Where it has been determined that changed
14 conditions, such as a reduction in the particular population
15 being served, permit the reduction in the scope of a capital
16 improvement project described in this Act, the governor may
17 authorize such reduction of project scope.

18 SECTION 43. In releasing funds for capital improvement
19 projects, the governor shall consider legislative intent and the
20 objectives of the user agency and its programs; the scope and
21 level of the user agency's intended service; and the means,
22 efficiency, and economics by which the project will meet the
23 objectives of the user agency and the State; provided further
24 that agencies responsible for construction shall take into

1 consideration legislative intent, the objectives of the user
2 agency and its programs, and the scope and level of the user
3 agency's intended service and construct the improvement to meet
4 the objectives of the user agency in the most efficient and
5 economical manner possible.

6 SECTION 44. With the approval of the governor, designated
7 expending agencies for capital improvement projects authorized
8 in this Act may delegate to other state or county agencies the
9 implementation of projects when it is determined advantageous to
10 do so by both the original expending agency and the agency to
11 which expending authority is to be delegated.

12 SECTION 45. Where county capital improvement projects are
13 partially or totally funded by state grants as authorized in
14 this Act or any other act of the legislature, this fact should
15 be appropriately acknowledged during construction and upon
16 completion of these projects.

17 SECTION 46. The governor may authorize the expenditure of
18 funds for capital improvement projects not previously authorized
19 in this Act to cope with the effects of natural disasters or
20 unforeseen emergencies, when the effects of the natural
21 disasters or unforeseen emergencies create an urgent need to
22 pursue a course of action that is in the best interest of the
23 State; provided further that no funds shall be expended without
24 a formal declaration of a natural disaster or emergency by the

1 governor; and provided further that the governor shall use the
2 project adjustment fund authorized in part II and described in
3 part IV to accomplish the purposes of this section.

4 SECTION 47. Notwithstanding any provision in part III of
5 this Act, the governor is authorized to transfer savings or
6 unrequired balances as may be available from the appropriated
7 funds of any program in this Act to supplement the appropriation
8 for any other program in this Act to cope with the effects of
9 natural disasters or other unforeseen emergencies; provided that
10 the effects of such natural disasters or emergencies create an
11 urgent need to pursue a course of action which is in the best
12 interest of the State; provided further that the use of such
13 funds does not conflict with general law; and provided further
14 that no funds shall be expended without a formal declaration of
15 a natural disaster or emergency by the governor.

16 SECTION 48. No appropriation authorized in this Act for
17 expenditure by a political subdivision of this State shall be
18 considered to be a mandate to undertake new programs or to
19 increase the level of services under existing programs of that
20 political subdivision. If any appropriation authorized in this
21 Act constitutes such a mandate within the provisions of
22 section 5 of article VIII of the Hawaii State Constitution, such
23 authorization shall be void and, in the case of capital
24 improvement appropriations designated to be financed from the

1 general obligation bond fund, the total general obligation bonds
2 authorized for such projects shall be correspondingly decreased.

3 SECTION 49. Whenever the expending agency to which an
4 appropriation is made is changed due to legislation enacted
5 during any session of the legislature which affects the
6 appropriations made by this Act, the governor shall transfer the
7 necessary funds and positions to the proper expending agency as
8 provided by law.

9 SECTION 50. In the event the State should assume the
10 direct operation of any non-governmental agency receiving state
11 funds under the provisions of this Act, all such funds shall
12 constitute a credit to the State against the costs of acquiring
13 all or any portion of the property, real, personal, or mixed, of
14 such non-governmental agency. This credit shall be applicable
15 regardless of when such acquisition takes place.

16 SECTION 51. Any provision of this Act to the contrary
17 notwithstanding, the federal fund or other federal fund
18 appropriations made for operating costs authorized under this
19 Act shall not lapse at the end of the fiscal year for which the
20 appropriation is made; provided that all federal fund or other
21 federal fund appropriations made to be expended in fiscal
22 year 2013-2014 which are unencumbered as of June 30, 2016 shall
23 lapse as of that date and fiscal year 2014-2015 which are
24 unencumbered as of June 30, 2017 shall lapse as of that date.

1 SECTION 52. In the event that unanticipated federal
2 funding cutbacks diminish or curtail essential, federally-funded
3 state programs, the governor may utilize savings as determined
4 to be available from other state programs for the purpose of
5 maintaining such programs until the next legislative session.

6 SECTION 53. The governor may approve the expenditure of
7 all federal funds which are in excess of levels authorized by
8 the legislature; provided further that the governor may allow
9 for an increase in the appropriate federal fund authorization
10 ceiling for the program to accommodate the expenditure of such
11 funds.

12 SECTION 54. Where an agency is authorized to secure funds
13 or other property from private organizations or individuals to
14 be expended or utilized in connection with any authorized
15 program, the agency, with the governor's approval, may enter
16 into such undertaking, provided that the provisions of the
17 undertaking comply with applicable state constitutional and
18 statutory requirements.

19 SECTION 55. Except as otherwise provided by general law,
20 negotiations for the purchase of land by state agencies shall be
21 subject to the approval of the governor and the department of
22 land and natural resources, or other appropriate agency;
23 provided further that private lands may be acquired for the
24 purpose of exchange for federal lands when the department of

1 land and natural resources and the governor determine that such
2 acquisition and exchange are necessary for the completion of any
3 project specifically authorized by this Act.

4 SECTION 56. Except as otherwise provided, or except as
5 prohibited by specific grant conditions, all federal or
6 non-general fund reimbursements received by state programs shall
7 be returned to the general fund or fund of originating expenses.

8 SECTION 57. Unless otherwise provided in this Act, the
9 governor is authorized to transfer operating funds between
10 appropriations within the same fund, within an expending agency,
11 for operating purposes.

12 SECTION 58. Except as otherwise provided in this Act, each
13 department or agency is authorized to transfer positions within
14 its respective authorized position ceiling for the purpose of
15 maximizing the utilization of personnel resources and staff
16 productivity; provided further that all such actions shall be
17 with the prior approval of the governor and shall be consistent
18 with appropriations provided in this Act and with provisions of
19 part II of chapter 37 of the Hawaii Revised Statutes.

20 SECTION 59. Any law or provision to the contrary
21 notwithstanding, in expending funds for social welfare programs,
22 education programs, and other programs and agencies having
23 appropriations which are based on population and workload data
24 as specified in the executive budget document, only so much as

1 is necessary to provide the level of services intended by the
2 legislature shall be expended. Affected agencies shall reduce
3 expenditures below appropriations under procedures prescribed by
4 the department of budget and finance in the event actual
5 population and workload trends are less than the figures
6 projected.

7 SECTION 60. With the approval of the governor, agencies
8 that use appropriations authorized in part II of this Act for
9 audit services may delegate that responsibility and transfer
10 funds to the internal post audit program (AGS 104), when it is
11 determined by such agencies that it is advantageous to do so.

12 SECTION 61. With the approval of the governor, expending
13 agencies that use appropriations authorized in part II of this
14 Act for planning, land acquisition, design, construction, and
15 equipment for repair and alterations may delegate responsibility
16 and transfer funds to the construction program (AGS 221) for the
17 implementation of the repair and alterations, when it is
18 determined by the agencies that it is advantageous to do so.

19 SECTION 62. Agencies with appropriations authorized in
20 part II of this Act for risk management costs shall transfer
21 funds authorized for that purpose to risk management (AGS 203)
22 for the administration and implementation of state risk
23 management costs and expenses, except as otherwise provided by
24 law.

1 SECTION 63. With the approval of the governor, the Hawaii
2 health systems corporation in the department of health may
3 transfer to the department of human services funds appropriated
4 to the Hawaii health systems corporation for the care and
5 treatment of patients, whenever the department of human services
6 can utilize such funds to match federal funds which may be
7 available to help finance the cost of outpatient, acute
8 hospital, or long-term care of indigents or medical indigents in
9 designated critical access hospitals.

10 SECTION 64. With the approval of the governor, the
11 department of health may transfer to the department of human
12 services funds appropriated to the department of health for the
13 care and treatment of patients, whenever the department of human
14 services can utilize such funds to match federal funds to
15 finance the cost of outpatient, hospital, or skilled nursing
16 home care of indigents or medical indigents.

17 SECTION 65. The department of human services is authorized
18 to enter into agreements with the department of health to
19 furnish outpatient, hospital, and skilled nursing home care of
20 indigents or medical indigents and to pay the department of
21 health for such care; provided that with the approval of the
22 director of finance, the department of health may deposit part
23 of such receipts into the appropriations from which transfers
24 were made as provided elsewhere in this Act.

1 SECTION 66. Provided that of the appropriation for each

17 allocation for the respective fiscal year.

18 SECTION 73. Provided that in the event that the amount of

1 implementation of such acquisitions when it is determined by all
2 involved agencies that it is advantageous to do so.

3 SECTION 75. Notwithstanding any provision in part III of
4 this Act, the governor is authorized to transfer savings or

Report Title:

State Budget

Description:

Appropriates funds for the operating and capital improvement budget of the Executive Branch for fiscal years 2013-2014 and 2014-2015.

The summary description of legislation appearing on this page is for informational purposes only and is not legislation or evidence of legislative intent.

JUSTIFICATION SHEET

DEPARTMENT: Budget and Finance

TITLE: RELATING TO THE STATE BUDGET.

PURPOSE: To provide operating and capital improvement appropriations and authorizations for Executive Branch agencies and programs in Fiscal Biennium (FB) 2013-15.

MEANS: Enact a General Appropriations Act for the Executive Branch effective during FB 2013-15.

JUSTIFICATION: The General Appropriations Act provides authorizations necessary to fund operations and capital improvement programs of the executive agencies of State government for the fiscal biennium beginning July 1, 2013 and ending June 30, 2015.

Pursuant to provisions of Section 8, Article VII of the Constitution of the State of Hawaii and Sections 37-69 and 37-71, HRS, this measure reflects the executive budget as proposed to the Legislature by the Governor in December 2012.

Appropriations

Total operating budget requests for the Executive Branch as reflected in BUF-32(13) amount to \$11,757.9 million in FY 2013-14 and \$12,080.7 million in FY 2014-15, for a total of \$23,838.6 million over FB 2013-15. Funding is recommended from the following sources:

General Funds	\$12,389.8 million
Special Funds	5,819.0 million
All Federal Funds	4,538.2 million
All Other Funds	<u>1,091.6 million</u>
Total	\$23,838.6 million

Proposed general fund appropriations for operations in the biennium include \$6,101.3 million for FY 2013-14 and \$6,288.4 million for FY 2013-15.

The recommended capital improvements budget for the Executive Branch amounts to \$1,707.4 million in FY 2013-14 and \$906.2 million in FY 2014-15, for a total of \$2,613.6 million over the biennium. Funding for capital projects is from the following sources:

Special Funds	\$ 168.1 million
General Obligation Bonds	1,323.6 million
Revenue Bonds	685.0 million
All Federal Funds	387.2 million
All Other Funds	<u>49.6 million</u>
Total*	\$2,613.6 million

* - Total differs due to rounding.

In addition to the requests included in this measure, other proposals will be submitted to provide specific appropriations for certain requirements in the biennium (e.g., claims against the State).

General Fund Expenditure Ceiling

By law, general fund appropriations must comply with the expenditure ceiling requirements that are set forth in Section 9, Article VII of the Hawaii State Constitution and Section 37-92, HRS.

At the aggregate level, including all branches of government, total proposed appropriations from the General Fund are within the expenditure ceilings for both FY 2013-14 and FY 2014-15.

For the Executive Branch, total proposed appropriations from the General Fund (which include the Executive Budget for FB 2013-15

and other specific appropriation measures to be submitted) exceed the appropriation ceiling by \$198.5 million (or 3.3%) in FY 2013-14 and are within the appropriation ceiling in FY 2014-15. The reasons for these excesses are increases in education, Medicaid, debt service and fringe benefit costs.

Debt Limit

Section 13, Article VII of the Hawaii State Constitution, places a debt limit on G.O. bonds that may be issued by the State. The limit requires total debt service (principal and interest payments) not to exceed 18.5% of average general fund revenues.

It has been determined that the total amount of principal and interest calculated on: a) all bonds issued and outstanding; b) all bonds authorized and unissued; and c) all bonds proposed in the executive budget, including State guaranties, will not cause the debt limit to be exceeded at the time of each bond issuance.

Impact on the public: All State government functions and services provided by the Executive Branch to the public require funding via this measure.

Impact on the department: This measure provides guidance to the administering agency (Budget & Finance) in allocating resources to the various State agencies.

Impact on other agencies: This measure provides funding that is necessary for agencies to operate programs and provide services.

PPBS PROGRAM
DESIGNATION:

Not applicable.

OTHER AFFECTED

AGENCIES:

All State agencies of the Executive Branch.

EFFECTIVE DATE:

July 1, 2013.
