

1 security and ability to achieve adequate levels of agricultural
2 self-sufficiency. Self-sufficiency is critical to Hawaii's food
3 security and its ability to respond effectively in the event of
4 natural disasters or disruptions in transportation.

5 The closure of local dairies and poultry farms also means
6 that children and adults throughout the State will no longer
7 have the option of selecting fresh, locally produced milk and
8 eggs. Consumers have often expressed interest in obtaining
9 locally produced milk but, unfortunately, the dairies do not
10 produce enough milk to meet consumer demand. The public has
11 expressed a similar interest in island-fresh beef, pork, sheep,
12 lamb, chicken, eggs, and seafood.

13 Locally produced fresh beef, milk, pork, lamb, chicken,
14 eggs, and seafood provide essential nutrition to consumers.
15 Transport times from offshore farms to Hawaii consumers create a
16 greater risk of food spoilage and resultant food-borne illnesses
17 due to the highly perishable nature of these products. Without
18 these local agricultural businesses, all beef, milk, pork, lamb,
19 chicken, and eggs would have to be imported into the State,
20 requiring up to ten days of shipping before being sold to
21 consumers. This increased shipping time reduces the expected
22 shelf life of fresh milk and eggs in particular.

1 The purpose of this part is to provide funds to allow
2 qualified beef cattle, dairy, hog, poultry, goat, sheep, lamb,
3 fish, and crustacean producers to apply for and receive a
4 reimbursement for a percentage of each farm's feed expenses and
5 to provide funds to allow qualified feed developers to receive
6 reimbursement for a percentage of the farm's feed development
7 expenses. With financial support, the livestock industry will
8 be able to continue to make investments in modern equipment,
9 expand and improve herds and flocks, and develop new markets and
10 products. This financial support will serve a public purpose by
11 enabling the livestock industry to stabilize its operations,
12 thereby contributing to food security and increasing the
13 competitiveness of the local livestock industry with mainland
14 suppliers.

15 SECTION 2. Chapter 155D, Hawaii Revised Statutes, is
16 amended by adding a new section to be appropriately designated
17 and to read as follows:
