# A BILL FOR AN ACT

RELATING TO FILM AND DIGITAL MEDIA INDUSTRY DEVELOPMENT.

**BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:**

1

**PART I**

2

SECTION 1. The legislature finds that the film industry in Hawaii is an important component of a diversified economy and that its financial impact can be strengthened significantly if existing incentives for the industry are adjusted.

6

There has been a dramatic increase in the number of state and local governments attempting to attract film productions.

8

These jurisdictions have experienced dramatic increases in in-state spending and significant growth in workforce and

10

infrastructure development. In Hawaii, infrastructure

11

developers have shown interest in West Oahu and neighbor islands

12

to develop facilities. More facilities would increase

13

production in Hawaii and would stimulate more direct and

14

indirect tax revenue.

15

The legislature also finds that it is desirable to provide

16

tools to the film industry to encourage similar dramatic growth

17

in Hawaii because the film industry:

- 1           (1) Infuses significant amounts of new money into the  
2           economy, which are dispersed across many communities  
3           and businesses and which benefit a wide array of  
4           residents;
- 5           (2) Creates skilled, high-paying jobs;
- 6           (3) Has a natural dynamic synergy with Hawaii's top  
7           industry, tourism, and is used as a destination  
8           marketing tool for the visitor industry;
- 9           (4) Is a clean, nonpolluting industry that values the  
10          natural beauty of Hawaii and its diverse multicultural  
11          population and wide array of architecture; and
- 12          (5) Has the potential to create jobs in construction and  
13          media industries on Oahu and the neighbor islands.

14          It is necessary to enhance existing tax incentive programs  
15          that use front-end budgeting methods normally used by the film  
16          industry, lower production costs to allow Hawaii to compete with  
17          other film production centers in attracting a greater number of  
18          significant projects to the State, and continue to build the  
19          State's local film industry infrastructure.

20          The purpose of this Act is to encourage the growth of the  
21          film and creative media industries by providing enhanced  
22          incentives for film and creative media production and new

1 incentives for media infrastructure development that will  
2 attract more film and television productions to Hawaii and  
3 develop opportunities for locally developed productions, thereby  
4 generating increased creative media development and tax  
5 revenues.

6 **PART II**

7 SECTION 2. Section 235-17, Hawaii Revised Statutes, is  
8 amended as follows:

9 1. By amending subsection (a) to read:

10 "(a) Any law to the contrary notwithstanding, there shall  
11 be allowed to each taxpayer subject to the taxes imposed by this  
12 chapter, an income tax credit [~~which~~] that shall be deductible  
13 from the taxpayer's net income tax liability, if any, imposed by  
14 this chapter for the taxable year in which the credit is  
15 properly claimed. The amount of the credit shall be:

16 (1) [~~Fifteen~~] \_\_\_\_\_ per cent of the qualified  
17 production costs incurred by a qualified production in  
18 any county of the State with a population of over  
19 seven hundred thousand; or

21 production costs incurred by a qualified production in

1           any county of the State with a population of seven  
2           hundred thousand or less.

3 A qualified production occurring in more than one county may  
4 prorate its expenditures based upon the amounts spent in each  
5 county, if the population bases differ enough to change the  
6 percentage of tax credit.

7           In the case of a partnership, S corporation, estate, or  
8 trust, the tax credit allowable is for qualified production  
9 costs incurred by the entity for the taxable year. The cost  
10 upon which the tax credit is computed shall be determined at the  
11 entity level. Distribution and share of credit shall be  
12 determined by rule.

13           If a deduction is taken under section 179 (with respect to  
14 election to expense depreciable business assets) of the Internal  
15 Revenue Code of 1986, as amended, no tax credit shall be allowed  
16 for those costs for which the deduction is taken.

17           The basis for eligible property for depreciation of  
18 accelerated cost recovery system purposes for state income taxes  
19 shall be reduced by the amount of credit allowable and claimed."

20           2. By amending subsection (j) to read:

21           "(j) Total tax credits claimed per qualified production  
22 shall not exceed [~~\$8,000,000.~~] \$12,000,000."

1 SECTION 3. Act 88, Session Laws of Hawaii 2006, is amended  
2 by amending section 4 to read as follows:

3 "SECTION 4. This Act shall take effect on July 1, 2006;  
4 provided that:

5 (1) Section 2 of this Act shall apply to qualified  
6 production costs incurred on or after July 1, 2006,  
7 and before January 1, [~~2016~~] 2023; and

8 (2) This Act shall be repealed on January 1, [~~2016~~] 2023,  
9 and section 235-17, Hawaii Revised Statutes, shall be  
10 reenacted in the form in which it read on the day  
11 before the effective date of this Act."

12 **PART III**

13 SECTION 4. Chapter 235, Hawaii Revised Statutes, is  
14 amended by adding a new section to be appropriately designated  
15 and to read as follows:

16 "§235- Media infrastructure project tax credit. (a)  
17 In addition to the credits described in section 235-17,  
18 beginning on or after July 1, 2013, and ending prior to January

20 taxes imposed by this chapter, a media infrastructure project  
21 tax credit that shall be deductible from the taxpayer's net  
22 income tax liability, if any, imposed by this chapter for the

1 taxable year in which the credit is properly claimed. The  
2 amount of the credit shall be equal to \_\_\_\_\_ per cent of the  
3 qualified costs incurred for qualified media infrastructure  
4 projects situated in West Oahu or on the most populous island in  
5 a county with a population between 100,000 and 175,000.

6 For the purposes of this section, "net income tax  
7 liability" means net income tax liability reduced by all other  
8 credits allowed under this chapter.

9 In the case of a partnership, S corporation, estate, or  
10 trust, the tax credit allowable is for qualified production  
11 costs incurred by the entity for the taxable year. The cost  
12 upon which the tax credit is computed shall be determined at the  
13 entity level. Distribution and share of credit shall be  
14 determined by rule.

15 The basis for eligible property for depreciation of  
16 accelerated cost recovery system purposes for state income taxes

5       forward to offset net income tax liability in  
6       subsequent tax years for a period not to exceed ten  
7       taxable years or until exhausted, whichever occurs  
8       first. The director of taxation may require the tax

11       provide that only a portion of the tax credit be taken  
12       over the course of two or more years;

13       (3) The total qualified media infrastructure project tax  
14       credit allowed for any state-certified infrastructure  
15       project shall not exceed \$ \_\_\_\_\_ ;

16       (4) If all or a portion of an infrastructure project is a  
17       facility that may be used for other purposes unrelated  
18       to production or post production activities, then the  
19       project shall be approved only if a determination is  
20       made that the multiple-use facility will support and  
21       is necessary to secure production or post production  
22       activity for the production and post production

1 facility and the applicant provides sufficient  
2 contractual assurances that the facility will be used  
3 as a state-of-the-art production or post production  
4 facility, or as a support and component thereof, for  
5 the useful life of the facility; provided that no tax

20 state income tax liability, the tax credits shall  
21 be deemed earned at the time the expenditures are  
22 made; provided that all requirements of this

1                   subsection have been met and the tax credits have  
2                   been certified;

3       (6) For state-certified infrastructure projects, an
