
A BILL FOR AN ACT

RELATING TO PROCUREMENT.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The convenience of modern society has provided
2 people with a variety of inexpensive food choices but it has
3 eliminated our connection to and understanding of where food
4 comes from, resulting in less healthful eating and a distancing
5 from natural food sources.

6 A report made to the twenty-sixth legislature in response
7 to Senate Concurrent Resolution No. 121, S.D. 1, H.D. 1, regular
8 session of 2009, through the collaboration of private, public,
9 and nonprofit entities, pointed to the problems of food
10 insecurity and growing obesity rates that the State of Hawaii is
11 facing. One in every three children born in the year 2000 is
12 expected to develop diabetes and the 2003 food security task
13 force report found that over nineteen per cent of Hawaii
14 residents live in food insecure households. Food insecurity is
15 defined in that report as "whenever the availability of
16 nutritionally adequate and safe foods or the ability to acquire
17 acceptable foods in socially acceptable ways is limited or
18 uncertain". Supporting local agriculture through initiatives

1 like a farm-to-school program can serve to combat both of these
2 problems.

3 Increasing the consumption of locally grown foods will
4 ensure that fresh, high quality produce is available for healthy
5 meals in schools, hospitals, and correctional facilities
6 throughout the State. The increased revenue for local farmers
7 will reverse the trend of farmers struggling to break even, and
8 will place agriculture at the forefront as a driving economic
9 force providing job creation and food security for our State.
10 Furthermore, the availability of local produce will ensure our
11 children eat the highest quality food that will nourish their
12 bodies, enhance their educational experience, and cultivate
13 long-term healthy habits.

14 The purpose of this Act is to amend section 103D-102,
15 Hawaii Revised Statutes, to ease the process required for
16 governmental bodies to acquire local agricultural commodities.

17 SECTION 2. Section 103D-102, Hawaii Revised Statutes, is
18 amended by amending subsection (b) to read as follows:

19 "(b) Notwithstanding subsection (a), this chapter shall
20 not apply to contracts by governmental bodies:

HB769

JUSTIFICATION SHEET

DEPARTMENT: Agriculture

TITLE: A BILL FOR AN ACT RELATING TO PROCUREMENT.

PURPOSE: To exempt the purchase of fresh meats and produce and animals and plants by any governmental body from the Hawaii Public Procurement Code.

MEANS: Amend section 103D-102(b) and repeal section 103D-104.5, Hawaii Revised Statutes (HRS).

JUSTIFICATION: Act 175, Session Laws of Hawaii 2009, added section 103D-104.5, HRS, which explicitly subjects the purchase of fresh meat and produce and animals and plants to the Procurement Code. Purchase of fresh meat and produce and animals and plants by governmental agencies has been problematic with agencies having to issue solicitations for these volatile items due to market pricing and availability. This requirement to competitively procure these items has not proven an efficient process for agencies.

Exempting these purchases from the Procurement Code will allow agencies to more efficiently purchase these items that are highly perishable, vary in availability, quality, and quantity, and to acquire these items from best available sources on an as needed basis.

Impact on the public: Expediting the processes to obtain needed goods will allow for more procurement of local agricultural commodities. This will provide a more healthful option as local products will have had less time from farm to market and increase our level of food security.

Impact on the department and other agencies: This bill will simplify and expedite the processes to obtain the required goods in a
