
HOUSE CONCURRENT RESOLUTION

REQUESTING THE DEPARTMENT OF HEALTH TO DEVELOP STANDARDS FOR THE
TRANSPORT OF ASH GENERATED AT INCINERATION FACILITIES FOR
OFFSITE RECYCLING.

1 WHEREAS, the Honolulu Program of Waste Energy Recovery,
2 commonly known as H-POWER, incinerates municipal solid waste and
3 converts it into electricity that is sold to Hawaiian Electric
4 Company, Inc.; and

5
6 WHEREAS, H-POWER reduces the volume of waste that goes into
7 landfills by ninety per cent; and

8
9 WHEREAS, the main waste product from the operation of H-
10 POWER or any other waste-to-energy facility is ash that is
11 currently placed in landfills; and

12
13 WHEREAS, the ash waste can be transported from the
14 incineration facility to a recycling facility, resulting in
15 almost no landfill use; and

16
17 WHEREAS, to ensure safe transport of ash waste from an
18 incineration facility to a recycling facility, the State should
19 establish a set of standards applicable to transporters of ash;
20 now, therefore,

21
22 BE IT RESOLVED by the House of Representatives of the
23 Twenty-seventh Legislature of the State of Hawaii, Regular
24 Session of 2013, the Senate concurring, that the Director of
25 Health is requested to establish standards applicable to
26 transporters of ash, including fly ash and bottom ash, generated
27 at incineration facilities for offsite recycling; and
28

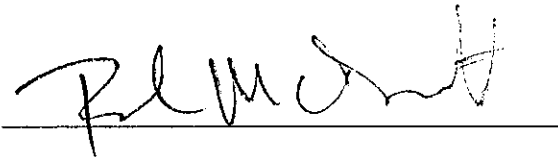

H.C.R. NO. 131

1 BE IT FURTHER RESOLVED that the standards should include:

- 2
- 3 (1) Obtaining a unique identification number;
- 4
- 5 (2) Labeling practices;
- 6
- 7 (3) Requiring use of equipment to prevent ash discharge in
- 8 transit;
- 9
- 10 (4) Requiring remedial action, including cleanup, if ash
- 11 is discharged in transit;
- 12
- 13 (5) Using and maintaining a proper manifest; and
- 14
- 15 (6) Submitting reports and recordkeeping practices; and
- 16

17 BE IT FURTHER RESOLVED that certified copies of this
18 Concurrent Resolution be transmitted to the Director of Health,
19 who in turn is requested to transmit copies to all operators of
20 waste-to-energy facilities operating in the State of Hawaii.
