
A BILL FOR AN ACT

RELATING TO PUBLIC SCHOOL LANDS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that one of the major
2 educational dilemmas of our time is rooted in an existing system
3 that traps information-age students in agricultural-age schools.
4 While the flow of information and ideas is increasingly fluid,
5 students are confined to the physical structures and mindsets of
6 an earlier time and place. Building, repairing, and
7 retrofitting public schools to meet the challenges of the
8 twenty-first century and beyond will not be easy, and the costs
9 will be considerable. However, quality school infrastructure
10 facilitates an environment that will prepare children to achieve
11 and succeed in a highly competitive economy.

12 The infrastructure of the twenty-first century school must
13 be energy efficient and wired with the latest technology.
14 Classroom size must be flexible because the program, not the
15 space, should determine the number of students per class. The
16 school campus must be designed from its inception with student
17 achievement in mind to maximize available land and student
18 safety, and to offer the community multiple uses of existing

1 structures. Most of Hawaii's school campuses fall short in
2 these areas.

3 The legislature further finds that twenty-first century
4 schools are also those that include a full complement of the
5 people, programs, and places that support a wide range of
6 personal learning styles and instructional modalities. Schools
7 are often separated from personal and family service programs in
8 urban and rural communities. One way to address this situation
9 is to think about schools as the center of a community that can
10 support all aspects of living and learning. The creation of
11 school-centered communities will provide greater access to
12 centrally located physical, cultural, social, economic,
13 organizational, and educational programs and services that are
14 within walking distance of children and families.

15 The considerable amount of underused public school lands on
16 the State's two hundred fifty-seven school campuses is an
17 untapped resource that would provide infrastructure that could
18 make classrooms, campuses, and communities suitable for the
19 twenty-first century. By way of illustration, a preliminary
20 review by a real estate expert indicates that ten parcels that
21 have unused lands are valued at \$120,000,000 under existing
22 surrounding uses. These lands could be developed solely for the

1 benefit of Hawaii's public school children. The beneficiaries
2 would be the children of Hawaii.

3 The purpose of this Act is to optimize the use of public
4 school lands to generate opportunities to improve public school
5 facilities and infrastructure to meet the challenges of the
6 twenty-first century and to improve the overall quality of
7 education in Hawaii. In particular, this Act establishes a
8 three-year pilot project to generate revenue from uses for
9 public purposes, such as workforce housing, to build and
10 retrofit twenty-first century schools and create more school-
11 centered communities. The pilot project will lay important
12 groundwork for a statewide approach and plan to optimize public
13 school lands and modernize public school facilities. This Act
14 also establishes the school facilities special fund within
15 chapter 302A, Hawaii Revised Statutes, into which shall be
16 deposited all proceeds generated from the lease of public school
17 lands. Moneys in the school facilities special fund will be
18 used to build or upgrade twenty-first century school facilities.

19 SECTION 2. Chapter 302A, Hawaii Revised Statutes, is
20 amended by adding two new sections to be appropriately
21 designated and to read as follows:

1 "§302A-A Pilot program for lease of lands under the
2 control of the department. (a) There shall be established,
3 within the office of the lieutenant governor, a pilot program
4 for the lease of lands and facilities under the authority of the
5 department of education. The lieutenant governor, in
6 consultation with the department of education, the board of
7 education, and any other appropriate agency, shall serve as the
8 facilitator of the pilot program.

9 (b) Notwithstanding sections 171-13 and 302A-1151, or any
10 other law to the contrary, the department, as directed by the
11 lieutenant governor, may lease public school land on terms it
12 deems appropriate; provided that:

13 (1) The board shall have the authority to identify and
14 select up to two existing sites for participation in
15 the pilot program; provided further that during the
16 identification and selection process, the board shall
17 be subject to chapter 92 and shall foster school and
18 community engagement;

19 (2) The department may lease public school land for the
20 existing sites identified and selected by the board
21 pursuant to paragraph (1) under leases for a term of
22 not more than fifty-five years per lease to lessees

1 who shall be required to modify, construct, or utilize
2 facilities to meet public purposes, including but not
3 limited to workforce rental housing units, in
4 accordance with specific request for proposal or
5 request for information guidelines; and

6 (3) Each lease stipulates that the lessee may retain any
7 revenue generated from the facilities; provided that:

8 (A) The lessee shall be obligated to maintain and
9 operate the facilities for a public purpose for
10 the length of the lease;

11 (B) The lessee shall be subject to payment to the
12 county of all applicable property tax on the
13 value of any improvements;

14 (C) A leasehold premium may be charged to the lessee
15 for the right to use the land based on a
16 competitive bid process;

17 (D) Upon the expiration of the lease, the facilities
18 shall revert to the department; and

19 (E) All revenues and proceeds derived under this
20 section shall be deposited in the school
21 facilities special fund established under section
22 302A-B.

1 §302A-B School facilities special fund. (a) There is
2 established a school facilities special fund into which shall be
3 deposited all proceeds from the leases, permits, interest income
4 generated from public school lands, and other revenue generated
5 from the non-permanent disposition of public school lands under
6 section 302A-A.

7 (b) The school facilities special fund shall be
8 administered by the department. Except as otherwise provided,
9 all moneys in the school facilities special fund shall be used
10 exclusively for the new construction and upgrade of twenty-first
11 century school facilities, as well as the repair and maintenance
12 of existing school facilities."

13 SECTION 3. Section 171C-17, Hawaii Revised Statutes, is
14 amended by amending subsection (a) to read as follows:

15 "(a) There is established the Hawaii public land
16 development revolving fund, to which shall be credited any state
17 appropriations to the fund, any sums collected as a result of
18 bonds issued pursuant to this chapter, any revenues generated
19 from the facilities, except as provided in ~~[sections]~~ section
20 171C-17.5 [and 171C-21], or other moneys made available to the
21 fund, to be expended as directed by the corporation."
