17

18 WHEREAS, in Zakouma National Park, in southern Chad, an
19 African game park, an estimated 4,350 elephants were reported in

22

23 WHEREAS, it is recorded that family clusters of elephants
24 are being slaughtered by automatic weapons in Africa; and

31 rhinoceroses cannot withstand this slaughter; and

1

5 1989; and
6

11 and
12

13 WHEREAS, according to one study by Care for the Wild
14 International, despite the international and national bans, one-
15 third of ivory products sold in the United States have illegal
16 origins; and
17

18 WHEREAS, compliance with the Convention on International
19 Trade in Endangered Species of Wild Fauna and Flora as it
20 relates to the ban on the sale of ivory products in the State
21 will contribute to protecting African elephants and rhinoceroses
22 from extinction; now, therefore,
