

MAR 13 2013

SENATE RESOLUTION

URGING CONSIDERATION OF MEDICAID EXPANSION AS A VIABLE SOLUTION
TO PROVIDE INSURANCE COVERAGE FOR HAWAII RESIDENTS WITH
INCOME BETWEEN ONE HUNDRED THIRTY-THREE PERCENT AND TWO
HUNDRED PERCENT OF THE FEDERAL POVERTY LEVEL.

1 WHEREAS, the Patient Protection and Affordable Care Act
2 (Public Law 111-148) was enacted by the United States Congress
3 on March 30, 2010, together with the Health Care and Education
4 Reconciliation Act of 2010 (Public Law 111-152); and
5

6 WHEREAS, on July 1, 2012, individuals in Hawaii earning
7 more than one hundred thirty-three percent of the federal
8 poverty level were dropped from Medicaid coverage and left
9 without health insurance; and
10

11 WHEREAS, individuals and families with incomes between one
12 hundred thirty-three percent and two hundred percent of the
13 federal poverty level, also known as the "gap group," are
14 working poor and unlikely to afford the purchase of health
15 insurance through the Hawaii Health Connector; and
16

17 WHEREAS, the health care needs of the gap group and low-
18 income earners in Hawaii are more complex than higher wage
19 earners and often require multiple support systems more aligned
20 with a Medicaid benefit package than a commercial insurance
21 benefit package; and
22

23 WHEREAS, patients in the gap group often seek care at
24 community health centers that provide fully integrated health
25 care homes that include the array of preventive, medical,
26 primary, dental, behavioral, social, and enabling services that
27 are needed to attain favorable outcomes for patients with
28 complex and interrelated medical and social challenges; and
29

30 WHEREAS, the Compacts of Free Association population, which
31 the federal government has not supported under the Medicaid
32 program, has very few individuals in the gap group and therefore
33 will not represent an added cost to the state general fund; and
34
