

Honolulu, Hawaii

APR 01 2013

RE: S.C.R. No. 104
S.D. 1

Honorable Donna Mercado Kim
President of the Senate
Twenty-Seventh State Legislature
Regular Session of 2013
State of Hawaii

Madam:

Your Committee on Water and Land, to which was referred
S.C.R. No. 104 entitled:

"SENATE CONCURRENT RESOLUTION URGING THE DEPARTMENT OF LAND
AND NATURAL RESOURCES AND THE NATIONAL OCEANIC AND
ATMOSPHERIC ADMINISTRATION TO RECOGNIZE THE INCREASING THREAT
THAT OCEAN VESSELS PRESENT TO HUMPBACK WHALES WITHIN THE
HAWAIIAN ISLANDS HUMPBACK WHALE NATIONAL MARINE SANCTUARY
THROUGH STRONGER SAFETY, PENALTY, MONITORING, AND REPORTING
REQUIREMENTS, "

begs leave to report as follows:

The purpose and intent of this measure is to urge the
Department of Land and Natural Resources and the National Oceanic
and Atmospheric Administration to recognize the increasing threat
that ocean vessels present to humpback whales within the Hawaiian
Islands Humpback Whale National Marine Sanctuary through stronger
safety, penalty, monitoring, and reporting requirements.

Your Committee received testimony in support of this measure
from the Department of Land and Natural Resources, Hawaiian
Islands Humpback Whale National Marine Sanctuary, The Humane
Society of the United States, Ocean Tourism Coalition,
Conservation Council for Hawaii, Outrigger Hotels, and three
individuals. Your Committee received testimony in opposition to
this measure from the Maui Dive Shop, Maui Trailer Boat Club, and
one individual. Your Committee received comments on this measure
from one individual.

The Kumulipo, the native Hawaiian chant of creation, states: "Hanau ka palaoa noho I kai" – born is the whale living in the ocean. The humpback whale, koholā, holds a sacred place within native Hawaiian history as illustrated by its inclusion in the Kumulipo. The humpback whale is also prevalent in ancient Hawaiian petroglyphs and legends that further illustrate the humpback whale's cultural and historical importance to Hawaiians. Over sixty percent of the North Pacific humpback whales that begin their migration in the Gulf of Alaska find their way to Hawaii's waters. The humpback whale is nationally protected by the Federal Endangered Species Act and Marine Mammal Protection Act.

In 1992, recognizing the importance of the Hawaiian Islands to the preservation of humpback whales, the United States Congress created the Hawaiian Islands Humpback Whale National Marine Sanctuary to be overseen by the National Oceanic and Atmospheric Administration (NOAA).

In 1998, the State of Hawaii entered into a Compact Agreement with NOAA for the coordinated management of the Hawaiian Islands Humpback Whale National Marine Sanctuary in order to combine resources and share expertise on the protection of the humpback whale.

In spite of the apparent efforts of the Department of Land and Natural Resources and NOAA, there still has been no formalized permanent plan of protection against vessel strikes.

Your Committee has amended this measure by:

- (1) Deleting the language requesting the Department of Land and Natural Resources and NOAA to recognize the increasing threat that ocean vessels present to humpback whales within the Hawaiian Islands Humpback Whale National Marine Sanctuary and to work toward stronger safety, penalty, monitoring, and reporting requirements;
- (2) Inserting language urging the Department of Land and Natural Resources and NOAA to collaborate to form a permanent plan to protect humpback whales from vessel strikes within the Hawaiian Islands Humpback Whale National Marine Sanctuary;
- (3) Inserting language requesting the Department of Land and Natural Resources, with the assistance of NOAA, to

report to the Legislature, no later than twenty days prior to the convening of the Regular Session of 2014, a plan for the Hawaiian Islands Humpback Whale National Marine Sanctuary to address the threat from whale-vessel contacts;

- (4) Inserting language requesting the Department of Land and Natural Resources to report annually, beginning June 1, 2014, to the Legislature on confirmed whale-vessel contacts within the Hawaiian Islands Humpback Whale National Marine Sanctuary in the immediately preceding twelve months;
- (5) Clarifying the language of the whereas clauses to accurately reflect the past and ongoing activities to protect humpback whales, on the recommendation of the Department of Land and Natural Resources; and
- (6) Amending the title of the measure accordingly.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 104, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 104, S.D. 1.

Respectfully submitted on
behalf of the members of the
Committee on Water and Land,

MALAMA SOLOMON, Chair

The Senate
 Twenty-Seventh Legislature
 State of Hawai'i
