Dear Senator Rosalyn Baker,

I wish to continue as a member on the State Pest Control Board. I feel that my experiences in the pest control industry will help in making informative decisions. I can give the non- industry members of the board valuable information in making better decisions in regards to matters that may affect the public and the pest control industry. As a member of the pest control board, we have to make sure that the applicants are qualified to be licensed in our industry and the situations that may affect the general public are addressed. I have been in the pest control industry from the mid-seventies and have been an owner or part owner of a termite control company for over thirty two years. I have experience in the wood treatment industry and all sectors of the termite and pest control industry.

As a member of the Hawaii Pest Control Association, I have held the office of the President, Vice-President, Secretary and Treasurer at one time or another. I am currently a director of our organization, chairman of the Legislative committee and member of the education committee. I also served on the Pesticide Advisory Committee for eight years in the 90's. Additional to this, working on my family's fruit and vegetable farm as I grew up thru college, I feel I have a wide field of experience in the use of pesticides.

I see this opportunity as a way of giving back to our industry and as a public service to my State. Thank you for considering me to continue serving on the State Pest Control Board.

Mahalo,
