**Subject:** Testimony in favor of HB1106 Relating to Property Nuisance by Carol and Gaylord Wilcox

To the Members of the Committee on Water and Land,

We respectfully urge the members of WAL to reconsider the move to defer this measure, and rather to move HB1106 out of committee. HB1106 would help address a real and growing problem in east Honolulu, and one that is apt to spread to other neighborhoods, and would give the state additional authority to restrain property owners from damaging other properties, creating property nuisance, and jeopardizing public and private safety. This is a creative attempt to address a long festering problem and we urge the House to pass it out.

Thank you for opportunity to testify  
Sincerely  
Gaylord and Carol Wilcox  
Honolulu, Hawaii 96816
