TO: The Honorable Mele Carroll, Chair
House Committee on Human Services

The Honorable Della Au Belatti, Chair
House Committee on Health

FROM: Patricia McManaman, Director

SUBJECT: **H.B. 2294- RELATING TO THE NURSING FACILITY SUSTAINABILITY
PROGRAM**

Hearing: February 7, 2014; 10:30 a.m.
Conference Room 329, State Capitol

PURPOSE: The purpose of the bill is to continue the Nursing Facility Sustainability Program, established by Act 156, Session Laws of Hawaii 2012, as amended by Act 142, Session Laws of Hawaii 2013, by extending the sunset date of Act 156, Session Laws of Hawaii 2012, updating the referral dates in the statute, and appropriating funding out of the Nursing Facility Sustainability Program Special Fund for fiscal year 2014-2015.

DEPARTMENT'S POSITION: The Department of Human Services strongly supports this Administration measure to extend the Nursing Facility Sustainability Program for another year. Continuing the Nursing Facility Sustainability program will benefit Hawaii residents by having more sustainable nursing facilities and thereby have increased access to necessary long-term care.

Under this program, a fee is levied on non-governmental nursing facilities and uses that revenue to leverage federal funds and increase reimbursement to nursing facilities, with a greater benefit to those providing proportionately more services to Medicaid recipients. These additional moneys will increase the sustainability of nursing facilities in Hawaii to continue as a critical part of the long-term care safety-net.

In fiscal year 2012-2013, the nursing facilities were assessed \$11,535,405 in sustainability fees and received \$21,086,740 in additional reimbursement. In fiscal year 2013-2014 it is anticipated that the nursing facilities will be assessed \$11,436,642 and will receive \$20,906,201 in additional reimbursement.

Additionally, twelve percent of the revenues from the fees collected is to be used by the Department of Human Services (DHS) to increase and improve services for Medicaid program recipients and to provide additional reimbursement to the nursing facilities.

This bill proposes to also exempt the Nursing Facility Sustainability Program Special Fund from the central services fees assessed under section 36-27, HRS. The 2012 Legislature, in conference committee, added an exemption for the Nursing Facility Sustainability Program Special Fund from the departmental administrative expenses assessed under section 36-30, HRS. This ensures that any moneys received in fees are only used to increase the sustainability of nursing facilities in Hawaii and to benefit Medicaid program recipients. The exemption from section 36-27, HRS, for central services expenses, however, was not added at the same time.

Without these two exemptions, the Hospital Sustainability program will have to pay \$500,000 in central services fees under section 36-27 and \$982,000 for departmental administrative services expenses fees under section 36-30. This is a total of \$1,482,000 which

the Department will not be able to use to sustain nursing facilities and improve services to Medicaid recipients.

Thank you for the opportunity to testify on this bill.

President & CEO
Healthcare Association of Hawaii

Re: Testimony in Strong Support
HB 2294 – Relating to the Nursing Facility Sustainability Program

The Healthcare Association of Hawaii (HAH) is a 116 member organization that includes all of the acute care hospitals in Hawaii, the majority of long term care facilities, all the Medicare-certified home health agencies, all hospice programs, as well as other healthcare organizations including durable medical equipment, air and ground ambulance, blood bank and respiratory therapy. In addition to providing quality care to all of Hawaii's residents, our members contribute significantly to Hawaii's economy by employing nearly 20,000 people statewide.

Thank you for this opportunity to testify in strong support of HB 2294, which makes adjustments to the Nursing Facility Sustainability Program and extends its sunset date to June 30, 2015.

The Legislature created this program two years ago by enacting Act 156, SLH 2012. Recognizing that Medicaid payments were below the actual costs of care, this program increases Medicaid payments to nursing facilities. The program does that by assessing a fee on nursing facilities, using the revenue to obtain matching federal Medicaid funds, and returning a majority of the combined amount directly to nursing facilities.

Non-government nursing facilities are assessed an annual fee based on the amount of care they provide. Payment is based on the amount of a nursing facility's Medicaid utilization. As such, the fees and payments are different for every nursing facility.

HB 2294 is the result of a collaborative effort between the DHS and HAH. Nursing facilities constitute a critical element of the health care continuum, and the majority of residents in Hawaii's nursing facilities

Testimony Strongly Supporting House Bill 2294, Relating to the Nursing Facility Sustainability Program by extending the sunset date of the Act to June 30, 2015, updating the referral dates in the statute, and appropriating funds from the Nursing Facility Sustainability Program Special Fund for fiscal year 2014-2015. Exempts the Nursing Facility Sustainability Program Special Fund from the central service assessment.

Alice M. Hall
Acting President and Chief Executive Officer
Hawaii Health Systems Corporation

On behalf of the Hawaii Health Systems Corporation (HHSC) Corporate Board of Directors, thank you for the opportunity to present testimony in strong support of HB 2294 that continues the Nursing Facility Sustainability Program.

Given that health care provider reimbursements are declining at both the federal and state level, it is imperative that health care providers find innovative ways to generate revenues to offset the decline in reimbursements. We believe that the concept of a provider fee on health care items or services provided by nursing facilities is a good financing mechanism that leverages federal funds to increase the reimbursements to nursing facilities from the QUEST and QUEST Expanded Access (QEXA) programs.

As is common in other states that have implemented sustainability fee programs, the public hospitals of the Hawaii Health Systems Corporation are being exempted from the nursing facility sustainability fee. This is being done to maximize both the amount of

federal funds that the private nursing facilities will receive through the nursing facility sustainability fee program and the amount of federal matching funds the public hospitals can receive under the State of Hawaii's Section 1115 waiver. Since the sustainability fee program was put into place, the public hospitals have been able to fully utilize their certified public expenditures to the maximum extent possible for their exclusive benefit as a means of continuing financing for their operating deficits. In this way, the greatest amount of federal funds has been realized and the private nursing facilities and the public hospitals as a whole are receiving greater reimbursements than before the sustainability program was implemented.

Thank you for the opportunity to testify before this committee. We respectfully recommend the Committee's support of this measure.

Re: HB 2294, Relating to the Nursing Facility
Sustainability Program

The Hawaii Long Term Care Association (HLTCA) strongly supports HB 2294, which extends the Nursing Facility Sustainability Program. You are all well-familiar with the substantial financial and services challenges that face our State medicaid system. Long term care facilities, in particular, have been falling into increasingly dire straits just as the leading edge of the Baby Boomer Generation has begun to turn 65. As such, this program offers much-needed support to our troubled senior care infrastructure at the most critical of times.

Very simply, this program uses provider fees to draw down essential additional federal funds to cope with budget shortfalls, rising healthcare costs and ever-expanding medicaid rolls. This has resulted in increased reimbursements to nursing facilities, thus reducing the losses they were incurring, preserving access to care for the medicaid population and helping to ensure sustainability for our long term care system.

Between the HLTCA and the Healthcare Association of Hawaii, we represent all the skilled nursing facility beds in the State of Hawaii. As such, like we did in 2012 and 2013, we present to you a united front in support of this legislation.

Part of HLTCA's mission statement says: *How we provide for Hawaii's kupuna, chronically ill and convalescent disabled is a measure of the respect and compassion we have for them . . . a reflection of our dignity as a society.*

Enabling the nursing facility sustainability program to continue indeed reflects our dignity as a society. It says that we will not let the system fail, because we will not fail our kupuna. Thank you.

**Testimony to the House Committee on Human Services and Committee on
Health**

**Friday, February 7, 2014 at 10:30 A.M.
Conference Room 329, State Capitol**

**RE: HOUSE BILL 2294 RELATING TO THE NURSING FACILITY
SUSTAINABILITY PROGRAM**

Chairs Carroll and Belatti, Vice Chairs Kobayashi and Morikawa, and Members of the
Committees:

The Chamber of Commerce of Hawaii ("The Chamber") **supports** HB 2294 Relating to
the Nursing Facility Sustainability Program.

The Chamber is the largest business organization in Hawaii, representing over 1,000
businesses. Approximately 80% of our members are small businesses with less than 20
employees. As the "Voice of Business" in Hawaii, the organization works on behalf of members
and the entire business community to improve the state's economic climate and to foster positive
action on issues of common concern.

This bill helps the state and Hawaii hospitals utilize this program to leverage much
needed federal dollars for nursing facilities. A sustainable hospital network and health care
industry is vital to the health of our employees, business and our overall quality of life.

Thank you for the opportunity to testify.
