

HB 398, HD1, SD1

Measure Title: RELATING TO HUMAN SERVICES.

Report Title: Sudden Infant Death Syndrome; Sudden Unexpected Infant Death; Safe Sleep Policy; Task Force

Description: Requires child care facilities, family child care homes, group child care centers, group child care homes, and infant and toddler child care centers that care for children less than one year of age to develop, maintain, and implement safe sleep policies as adopted by the Department of Human Services, to prevent sudden unexpected infant deaths and sudden infant death syndrome. Establishes a task force to address issues of home and community-based facilities during the transition of services from the department of human services to the department of health. (SD1)

HB 0398, HD 1, SD1, Relating to Human Services

**Comments of Loretta J. Fuddy, A.C.S.W., M.P.H.
Director of Health**

March 28, 2013

1 **Department's Position:** Comments on Part II only.

2 **Fiscal Implications:** Up to \$25,000 in operational costs for Part II only.

3 **Purpose and Justification:** The Senate Draft 1 added Part II to HB398 HD1 to establish a task force to
4 address transitional issues of certain health care programs as they prepare to transfer from the
5 Department of Human Services to the Department of Health on July 1, 2014.

6
7 Act 93, SLH 2012 transfers DHS programs relating to home and community-based case management,
8 community care foster family homes, and adult day care to DOH, and since enactment the agencies have
9 regularly met to resolve transitional issues and keep the provider network informed. Because of this
10 progress, DOH recommends deferring Part II pending clarification of the following:

- 11 • **Scope** – HB398 SD1 includes providers already regulated by DOH previous to Act 93, SLH
12 2012 such as adult residential care homes while others specified in the same Act such as adult
13 foster homes are excluded. The mix of business models, federal, state, and county regulations,
14 geographical and other social disparities, and agenda of stakeholders groups will make
15 coordination and clarification of issues overly complex.

Promoting Lifelong Health and Wellness

- 1 • Intent – DOH and DHS have established rule-making authority to regulate home and
2 community-based facilities that requires a public hearing process per Chapter 91. As a matter of
3 practice, DOH does and will consult with providers and client advocates to assure the right
4 balance of interests.
 - 5 ○ It should be noted that there are no client or patient representatives on the task force.
 - 6 ○ Neighbor Island representation is also not specified, and likely discouraged due to lack of
7 reimbursement for expenses or an appropriation.
- 8 • Technical – We believe the intent of the Section 3, subsection (a)(4) is to include "Caregivers of
9 persons with developmental or intellectual disabilities," as opposed to "Developmental and
10 intellectually disabled caregivers;" as currently drafted.

11
12 In the event that this Committee wishes to act on HB398 SD1, we respectfully request deletion of Part II
13 in favor of a resolution clarifying the scope, intent, and technical issues discussed above and one which
14 "allows" or "encourages" the department to meet with key leadership of stakeholders who are caregivers
15 or facility operators to define the key issues and focus attention on those issues. An appropriation
16 amount is requested if Part II remains in the bill to support the complex implementation of the task
17 force.

18
19 Thank you for the opportunity to provide comments.

MEMORANDUM

TO: The Honorable Rosalyn H. Baker, Chair
Senate Committee on Commerce and Consumer Protection

FROM: Patricia McManaman, Director

SUBJECT: **H.B. 398, H.D. 1, S.D. 1 - RELATING TO HUMAN SERVICES**

Hearing: Thursday, March 28, 2013; 9:30 a.m.
Conference Room 229, State Capitol

PURPOSE: The purpose of H.B. 398, H.D. 1, S.D. 1, is to: Part I - require child care facilities, family child care homes, group child care centers, group child care homes, and infant and toddler child care centers that care for children less than one year of age to develop, maintain, and implement safe sleep policies as adopted by the Department of Human Services, to prevent sudden unexpected infant deaths and sudden infant death syndrome; Part II – establish a task force to address the issues of home and community-based facilities during the transition of services from the Department of Human Services to the Department of Health (DOH).

DEPARTMENT'S POSITION: The Department of Human Services (DHS) supports the intent of Part I of this bill which seeks to prevent the tragic deaths associated with sudden unexpected infant deaths and sudden infant death syndrome.

The DHS respectfully requests a further amendment to this bill as follows:

"All child care facilities, which include family child care homes, group child care centers, and group child care homes, as those terms are defined in section 346-151, and infant and toddler child care centers, that are registered or licensed by the department to provide care for children one year of age or younger shall [~~develop, maintain, and implement~~] implement and maintain a written safe sleep policy in accordance with any rules adopted by the department. The purpose of the safe sleep policy shall be to maintain a safe sleep environment that prevents the occurrence of sudden infant death syndrome and sudden unexpected infant deaths in children one year of age or younger."

The DHS fully supports this amending language which will allow the DHS to accommodate any changes to best practice and standards of care by rules. This is critical as the body of knowledge related to sleep related deaths continues to grow as researchers continue to seek answers to sudden unexplained infant deaths.

The DHS has grave concerns regarding Part II of this bill which was added in the S.D. 1 of this bill. The DHS is concerned that the addition of Part II may affect the passage of H.B. 398 which is an important measure originally intended to further ensure the health and safety of children through a safe sleep policy for licensed child care providers.

The DHS also offers the following comments regarding Part II of this bill "for a task force to address issues facing home and community-based facilities during the transition from the DHS to the DOH." Act 93, Session Laws of Hawaii 2012, transfers from the DHS to the DOH, only the home and community-based case management, community care foster family homes; and the adult day care programs. Adult residential care homes, adult foster homes and developmental and intellectually disabled caregivers are already part of the DOH and were not affected by the transfer. The DHS and the DOH have been working collaboratively to effectuate a seamless transfer of the Act 93

programs and have engaged the community in issues relating to the transfer. We respectfully recommend that in lieu of a task force, the DHS and DOH be encouraged to continue the dialogue with the community and the providers.

Thank you for the opportunity to provide comments on this bill.

Re: In strong support of

Hearing: Committee on Commerce and Consumer Protection
March 28, 2013
Conference Room 229, State Capitol

Chair Baker, Vice Chair Galuteria, Members of the Committee:

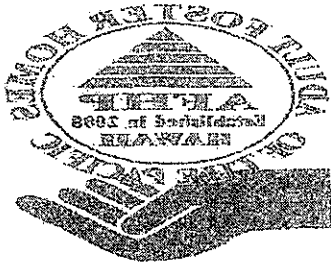

I am writing to express support for HB398, *which would require child care providers to develop, maintain and implement safe sleep policies for infants.*

For over 70 years, the March of Dimes has been a leader in maternal and child health. Our mission is to *improve the health of women of childbearing age, infants, and children by preventing birth defects, premature birth, and infant mortality.* March of Dimes is in the midst of a long-term Prematurity Campaign to increase public awareness of the problems of prematurity and to decrease the rate of premature birth worldwide

Sudden Infant Death Syndrome (SIDS) is the leading cause of death in babies between one month and one year old, and is most common among babies between two and four months old. Premature babies are at increased risk for SIDS. A study published in the January 2013 *Journal of Perinatology* found that extremely premature infants had a significantly higher risk of dying from SIDS than full term infants.

The American Academy of Pediatrics (AAP) reports that one in five SIDS deaths occurs while an infant is in the care of someone other than a parent. Many of these deaths happen when babies who are accustomed to sleeping on their backs at home are placed on their tummies for sleep by another caregiver. At the March of Dimes NICU Family Support Program at Kapiolani Medical Center for Women & Children, we provide families with infants in the Neonatal Intensive Care Unit the AAP's *Parent's Guide to Safe Sleep* that emphasizes "Tummy to Play and Back to Sleep." The guide also recommends that parents talk to their baby's caregivers about reducing the risk of SIDS through safe sleep.

House Bill 398 would ensure that all registered or licensed child care providers would have the policies in place to maintain safe sleep environments for infants in Hawaii. March of Dimes urges the Committee on Commerce and Consumer Protection to pass HB 398.

HB398-Relating to Human Services

Hearing on March 28, 2013 at 9:30AM
Conference Room 229

Report Title: Sudden Infant Death Syndrome; Sudden Unexpected Infant Death;
Safe Sleep Policy; Task Force

I strongly support the intent of HB398 HD1 SD1.

My name is Myriam Tabaniag, a Registered Nurse. I am presently managing two care homes in Kaneohe, Hawaii. Before working with the frail elderly, I was a Neonatal Intensive Care Unit nurse. My employments include 10 years of working and managing a Level I and II Newborn nurseries in a 150 beds and 600 beds hospitals in Virginia and 4.5 years at Kapiolani Medical Center for Women and Children in their Intermediate or Step-down Unit and the Neonatal Intensive Care Unit (NICU).

I know how devastating sudden and unexpected infant deaths can do to families and even to health care professionals taking care of these infants who are unfortunate victims of near SIDs and Sudden Infant Death Syndromes.

I strongly agree of the intent of the measure because I know very well that Sudden Infant Death Syndrome remains an unpredictable, unpreventable, and largely inexplicable tragedy.

Chairs, Vice Chair and members of the Human Services and Health Committees:

I also strongly support the formation of a task force – to assist in a smooth transition of community based human services facilities and/or programs under DHS, which are being transferred to DOH effective July 1, 2014:

*Task force to include members of the Adult Residential care Home Community (4), Community Care foster Family Homes (4), Adult foster Care Homes (2), one rep from the CM agencies (1), one rep. from DHS, one rep. from DOH, and two representative from the legislators. **Members shall serve without compensation.** Effective upon approval, task force to make recommendations to the legislature and DOH on the transition no later than 20 days prior to the convening of the 2014 Legislature. The task force shall cease to exist on June 30, 2014.*

Thank you for allowing me to testify in **strong support of HB398 HD1 SD1.**

My name is Elsa Talavera, and I am in support to HB 529, HD1 and SD1.

In reference to HB 398, I strongly support the creation of "Task Force" to address issues originating from clients & families, caregivers and Case Managers due to the consolidation of DHS and DOH. I humbly ask you that Licensed Case Manager's will be included in the task force. Representation would be one LSW and at least 3 Registered nurses from different agencies. Case Managers plays a significant roles in the management of elderly clients in the Home and Community Based Setting. We provide care coordination, case management, advocacy and to protect the best interest of the clients. Therefore, I recommend that the bill will be amended to include the representation from licensed case management agencies.

I can be reached at 358-8964 if you need more information on this testimony.
