Comments: Hawaii's watersheds provide most of our potable water. On Oahu, over 90% of our drinking water is ground water from aquifers. And yet only about 10% of our watersheds is fenced and actively managed. We need to do better than that. If this bill is passed and funded, we can double the amount of watershed protection. Please move this bill forward. Mahalo.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.
