HB903

Submitted on: 3/19/2013

Testimony for ENE/HTH on Mar 19, 2013 15:15PM in Conference Room 225

Submitted By	Organization	Testifier Position	Present at Hearing
B.A. McClintock	Individual	Support	No

Comments: This bill is important because it would enable DOH to address the largest source of water pollution in Hawaii--storm runoff. Farms are a principal source of runoff pollution (soil, fertilizer, and pesticides). Runoff pollutes streams, groundwater, the ocean and coral reefs. Small farmers (under 10 acres) will not be affected by this bill. They make up 64% of our farms. Please support this important bill.
