Aloha Chairs Evans and Hanohano, Vice Chairs Lowen and Cullen, and members of the Water & Land and Ocean, Marine Resources & Hawaiian Affairs Committees:

As you know, as part of the Honolulu Harbor Master Plan for the Kapalama Container Terminal, the Harbors Division of the State of Hawaii Department of Transportation is developing a new overseas container terminal in Honolulu Harbor and as a result, PSI is being forced by the State to move out of Pier 41 by February 2014.

Ship repair is a critical industry in our Maritime dependent state and this capability insures the safe and timely operation of ships and barges supplying the Hawaiian islands. PSI performs a vital function in Honolulu Harbor that benefits the entire State and provides work for our membership.

PSI is working with Harbors Division to relocate to Pier 24/25. However, as this relocation will be expensive, disruptive and with only 11 months remaining, we urge your committees to pass HCR101/HR78 requesting Harbors Division to PROMPTLY negotiate a new lease specific and unique for a ship repair facility for Piers 24/25 without delay or consideration of unresolved issues concerning Pier 41.

By Peter Ganaban, Business Manager-Secretary/Treasurer, Hawaii Laborers'

To the Joint Committee on Water and Land; and Committee on Ocean Marine
Resources and Hawaiian Affairs

Monday, March 25, 2013, 8:45 a.m.

State Capitol, Room 325

Chair Evans and Vice Chair Lowen; Chair Hanohano and Vice Chair Cullen;
members of the committee:

The Hawaii Laborers' Union is a member of the Hawaii Maritime Port Council
because we are very concerned about the status of the maritime industry; we
support this vital sector of Hawaii's economy.

The construction industry is directly affected by the availability, frequency of
inter- island shipping, efficiency and cost of shipping. The construction industry is
substantially dependent upon the shipping of construction material and
equipment between the islands. Therefore, it is imperative that the barges and
ships be operational through timely repair and maintenance.

We believe that it would be beneficial to the State, the maritime industry, the
construction industry as well as all other Hawaii businesses that rely upon inter-
island shipping, to reduce or eliminate any disruption to the repair and
maintenance of barges and ships.

We sincerely ask that the committee approve HCR 101. Thank you for the
opportunity to submit this testimony.

As the Assistant Business Manager of Boilermakers Local 627, I represent over 80 members that work for Pacific Shipyards International (PSI). PSI and Boilermakers Local 627 are in a joint partnership to stress safety, training, production, consistency of good workmanship, and a brotherhood for these fairly paid employees. Some of these members have been working in this or other shipyards their entire life, and retire with dignity due to a well administered pension program.

PSI will need to have a well configured harbor area to move into that will perpetuate the ideals that I referred to above. They will need a timely transition in order to minimize the problems that can occur while moving such a large operation while maintaining safety and production.

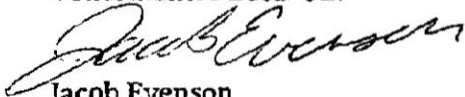

There may be issues at Pier 41 for months, possibly years after the move in order to have it ready for the new plans. This can only place an undue burden on the owners and management of PSI if they aren't already moved to their new location and conducting normal business in the most expedient manner.

We urge you to pass this resolution so the Harbors Division will make every effort to expedite the negotiation process for the new location at Piers 24 and 25. The issues that will remain at Pier 41 can be dealt with much easier when PSI is once again doing normal business and not dealing with negotiations and the moving process. It will work better for all concerned parties to negotiate the terms for the new location as soon as possible.

Thank you for your consideration,

PSI performs a vital function in Honolulu Harbor that benefits the entire State and provides well-paying industrial and technical job opportunities for Hawaii's people.

PSI is working with Harbors Division to relocate to Pier 24/25. However, as this relocation will be expensive, disruptive and with only 11 months remaining, we urge your committees to pass HCR101/HR78 requesting Harbors Division to PROMPTLY negotiate a new lease specific and unique for a ship repair facility for Piers 24/25 without delay or consideration of unresolved issues concerning Pier 41.

Mahalo for this consideration of this resolution and for the opportunity to submit our supporting testimony.

Sincerely,

Sandy Mersberg

Comments: Aloha Chairs and Vice Chairs, My name is Victor Gautier, Chief Operating Officer of Ship Maintenance, LLC, a locally owned company with more than 100 employees serving the US Navy since 2003. I would like to thank you for the opportunity to submit testimony in very STRONG SUPPORT of HCR101/HR78. As one of Pacific Shipyards' customers, it is very important that a new lease be negotiated as soon as possible. It will be hard to maintain the level of efficiency and effectiveness for our operations if Pacific Shipyards does not have a smooth transition into a new location by stated date of February 2014. I understand that PSI is trying to relocate to Pier 24/25, but this relocation will be expensive and will be very disruptive to operational flow of a lot of businesses including ours if a location for their operations will not be resolved. We urge your committees to pass HCR101/HR78 so that Pacific Shipyards will be able to move forward with their relocation efforts. Mahalo for this consideration of this resolution and for the opportunity to submit our supporting testimony.
