Comments: McCandless Ranch strongly supports HCR96. It is imperative for FWS to work closely with the state and private landowners as equal stakeholders when making difficult conservation decisions such as the designation of critical habitat.

Comments: I strongly support HCR 96 HD 1 with one addition. I request that the following whereas from the original resolution be re-inserted: WHEREAS, an environmental impact statement should be considered before the proposed Critical Habitat Designation is finalized. Such a massive designation with huge economic impacts should require an environment impact statement, just like any other project of this magnitude.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.
