

STATE OF HAWAII  
DEPARTMENT OF EDUCATION  
P.O. BOX 2360  
HONOLULU, HAWAII 96804

**Date:** 04/01/2014

**Committee:** House Human Services

**Department:** Education

**Person Testifying:** Kathryn S. Matayoshi, Superintendent of Education

**Title of Resolution:** HCR 43/HR 25 REQUESTING THE DEPARTMENT OF EDUCATION AND DEPARTMENT OF HUMAN SERVICES TO ASSIST WITH INCREASING VOTER REGISTRATION AMONG YOUNG ADULTS.

**Purpose of Resolution:** Requests the Department of Education and Department of Human Services to assist with increasing voter registration among young adults.

**Department's Position:**

The Department of Education (Department) supports HCR 43 and HR 25 and the requests that relate specifically to the Department.

Thank you for the opportunity to testify on this measure.

SCOTT T. NAGO  
CHIEF ELECTION OFFICER

TESTIMONY OF THE  
CHIEF ELECTION OFFICER, OFFICE OF ELECTIONS  
TO THE HOUSE COMMITTEE ON HUMAN SERVICES  
ON HOUSE RESOLUTION NO. 25

REQUESTING THE DEPARTMENT OF EDUCATION AND DEPARTMENT OF  
HUMAN SERVICES TO ASSIST WITH INCREASING VOTER REGISTRATION  
AMONG YOUNG ADULTS

April 1, 2014

Chair Carroll and members of the House Committee on Human Services, thank you for the opportunity to testify in support of House Resolution No. 25. The purpose of this resolution is to request the Department of Education to provide public school seniors with voter registration information prior to graduation and to similarly request the Department of Human Services to provide such information to young adults in the young adult voluntary foster care program.

In the past, we have distributed voter registration forms to both the Department of Education and the Department of Human Services. The return rate on these forms have been rather limited, despite the efforts of these departments to distribute these forms. However, we believe that it is still worthwhile to continue to make voter registration forms available to these young adults.

In regard to the Department of Human Services, it distributes voter registration forms on an ongoing basis to any applicant for public assistance. The voter registration forms are coded with a unique department code that permits us to tabulate how many forms are returned for reporting purposes to the federal government under the National Voter Registration Act.

The most recent reporting time period was from the close of registration for the November 2010 General Election until the close of registration for the

November 2012 General Election (i.e. a two year voter registration period). A total of 502 voter registration forms were received during that time period. We are unable to determine of those how many may have been submitted by the young adult voluntary foster care program, as the forms are coded specifically for the Department of Human Services and not individual programs, as noted previously.

As it relates to the Department of Education, we have been operating the Young Voter Registration Program (YVRP) over the last several years. Slight modifications have occurred over the years, but essentially participation is voluntary, with some years the Superintendent co-signing with the Chief Election Officer a memorandum to the principals asking for participation, in other years the Hawaii State Student Council would take the lead, and last year the Office of Elections directly solicited participation from the high schools.

YVRP relies on the voluntary participation of the 45 public high schools. Each public high school that chooses to participate is provided a unique code on their voter registration forms to permit us to track how many are returned. The program is run during the spring semester and is focused on high school seniors.

In 2012, the Office of Elections worked directly with Susan Saito, Advisor to the Hawaii State Student Council to implement the 2011-2012 YVRP. They used the program as their service learning project for the year. A total of 43 high schools indicated an intent to participate. As such, forms were distributed to those schools. Of those 43 schools, 9 returned a total of 967 completed registration forms.

In 2013, the Office of Elections attempted to work again with Ms. Saito, but it was informed that she had retired. As for working with the new advisor to the Hawaii State Council we were informed that they had decided to go with a different service learning project. Given this, a letter was sent out to the Superintendent informing her that the Office of Elections would be contacting the high schools directly to determine their interest in participating in YVRP. A subsequent letter was sent to the principals requesting them to appoint a liaison for the Office of Elections to work with, should they choose to participate. A total of 24 high schools indicated an intent to participate and forms were distributed to those schools. Of those 24 schools, 8 returned a total of 209 forms.

For 2014, the Chief Election Officer and the Superintendent have sent out a joint memorandum to all principals asking them to participate in this program. The deadline for these schools to tell us who their YVRP liaison is and the number for voter registration forms they need is March 28, 2014. As this is an

Testimony on HR No. 25  
April 1, 2014  
Page 3

election year, we expect that the return rate on the forms will be similar to what occurred in 2012.

We believe that the present House Resolution is useful in that it will result in the Department of Human Services and Department of Education revisiting their present voter registration programs with the Office of Elections, to see if there are better ways to firmly incorporate voter registration into the operations of these departments.

Thank you for the opportunity to testify in support of House Resolution No. 25.

To: Senator Suzanne Chun Oakland, Chair  
And members of the Committee on Human Services

**Testimony in Support of HR 25/HCR 43 Requesting the Department of Education and Department of Human Services to Assist in Increasing Voter Registration Among Young Adults**

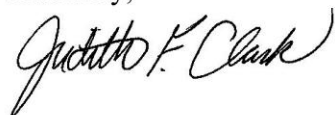

Hawaii Youth Services Network (HYSN), a statewide coalition of youth-serving organizations, supports HR 25/HCR 43 Requesting the Department of Education and Department of Human Services to Assist in Increasing Voter Registration Among Young Adults

Hawaii has one of the lowest voter turnout rates in the country. In the past few elections, only about 40% of the state's registered voters have participated in the primary election. And that's only about 36% of all the people in Hawaii who are eligible to vote, registered or not. We do better in the general election, but turnout has still been in the 50 percent range in non-presidential years and a bit above 60 percent in presidential election year.

Providing high school students and youth in foster care with encouragement and assistance with voter registration, in settings where they feel comfortable, will help young people form the habit of voting and increase their participation in the election process.

Thank you for this opportunity to testify.

Sincerely,

Judith F. Clark, MPH  
Executive Director
