Reynolds Recycling**

Date: Monday, April 1, 2013, 2:00 p.m. in Conference Room 308

Re: Testimony in support of SB1133, SD2, HD2, Relating to Recycling

Reynolds Recycling is Hawaii's largest redemption center operator, and we support this bill to remove the exemption for dietary supplement beverages, with exceptions.

We receive many questions from consumers who want to recycle, as to why certain containers are deposit or not. We believe that the inclusion of more containers will strengthen the Hawaii Deposit Beverage Container Program, and help to simplify the program. There are many products in containers which would otherwise be considered deposit containers except for the Dietary Supplement exclusion. As the containers themselves are no different than deposit containers it is frequently confusing for customers.

Reynolds supports any measures like this that would help to simplify and strengthen the Hawaii Deposit Beverage Container Program.

As a leader in Hawaii's recycling industry, Reynolds Recycling remains committed to protecting Hawaii's future by recycling today, and in the future. We fully support SB1133, SD2, HD2.

Thank you.

Comments: Aloha Chairperson and Committee Members of the Ways and Means Committee, I support SB 1133 for a full repeal of the PLDC and commend the Senate for its responsiveness to the public concerns for open public process and management of public lands. To facilitate this strong public desire, please amend the bill back to the House version for a better chance that the House will sign off on the bill, and that it won't have to go to conference committee where there is further possibility of complications, sidetracking and the finish line not being crossed. You are close to done and have moved closer to addressing the "trust" stretch that occurred from the process in which the PLDC originated last session. The dialog between the legislature and the public on public lands use and management can be significantly cleansed with the passage of SB 1133 via the least trouble courting and direct method. Mahalo.
