**In consideration of
SENATE BILL 1167
RELATING TO LIMITED LIABILITY FOR MOUNTAIN CLIMBING, ROCK
CLIMBING, RAPPELLING, AND BOULDERING ON GOVERNMENT LAND**

The Department of Land and Natural Resources (Department) is in strong support of Senate Bill 1167, an Administration proposal which clarifies that no public entity or public employee shall be liable to any person for injury or damage sustained on government land when engaged in mountain climbing, rock climbing, rappelling, and bouldering.

There has been an increasing trend in public recreation throughout the United States and Hawaii to pursue the activity of bouldering, rock climbing, rappelling and related activity that requires special skills, equipment and specific geologic features with unique qualities. In addition, the advent of indoor climbing gyms and mobile climbing walls, where the recreationalists can practice on engineered walls in a secure environment with ancillary safety equipment, has led to an increased desire to then test skills in an exterior, unmanaged environment subject to variation and additional exposure to environmental hazards. Due to the Internet, the proliferation of information on this activity and the method by which the public gains information on climbing opportunities located in remote unmanaged areas to practice these skills is rapidly increasing.

While Hawaii lacks the unique geology on a wide scale basis to support or encourage this recreational activity – there are isolated outcroppings of specific features throughout the State that are alluring for rock climbing. This activity may occur on both public and private land. As the Department has jurisdiction of approximately two million acres of land and staff have no

programs or training on the activity nor are knowledgeable of all possible statewide locations and current ancillary use, regulating or managing this activity is untenable. However, as it has been occurring virtually for decades in various locations and with a growing degree of participation, rather than attempt to regulate or prohibit and subsequently enforce against the activity, absent any expertise on the subject, providing government with liability relief associated with its use is a prudent measure.

While Chapter 520, Hawaii Revised Statutes (HRS), was originally promulgated to provide liability relief to private landowners who allow recreational activity to occur on private land, several states have subsequently included public land into their respective recreational use statutes. This shift to include public land is due to the proliferation of outdoor recreational activity on unimproved government lands throughout the United States. Hawaii has also experienced a rapid increase in the public desire to engage in outdoor recreation activity in unmanaged areas, particularly as opportunities on private lands have been restricted. While the State has a duty to manage areas where the public is invited to recreate, the Department has determined that by providing for liability protection via the provision of Chapter 520, HRS, that are specifically directed to this unique unmanaged activity, there should be no unwarranted concerns that this protection will enable government to reduce its management function in authorized areas for public recreation.

This bill seeks to limit the liability of government agencies that may have geologic features that the public finds suitable for recreational activity, and the Department strongly recommends the passage of this Administration measure.

**TESTIMONY OF
THE DEPARTMENT OF THE ATTORNEY GENERAL
TWENTY-SEVENTH LEGISLATURE, 2013**

ON THE FOLLOWING MEASURE:

S.B. NO. 1168, RELATING TO LIMITED LIABILITY FOR MOUNTAIN CLIMBING, ROCK CLIMBING, RAPPELLING, AND BOULDERING ON GOVERNMENT LAND.

BEFORE THE:

SENATE COMMITTEES ON WATER AND LAND AND ON JUDICIARY AND LABOR

DATE: Tuesday, February 5, 2013 **TIME:** 1:15 p.m.
LOCATION: State Capitol, Room 225
TESTIFIER(S): David M. Louie, Attorney General, or
Caron Inagaki, Deputy Attorney General

Chairs Solomon and Hee and Members of the Committees:

The Department of the Attorney General supports this bill with amendments.

This bill amends chapter 662, Hawaii Revised Statutes, to clarify that no public entity or public employee shall be liable to any person for injuries sustained on government land when engaged in mountain climbing, rock climbing, rappelling, and bouldering.

The State of Hawaii Department of Land and Natural Resources has jurisdiction over approximately two million acres of land, a significant portion of which is not developed or maintained and remains in its pristine state. The mountain and rock climbing areas are often in remote areas, sometimes only available for access through private property. It would not be possible, feasible, or, indeed, desirable, for the State to erect fences, post signs, or limit access to all of the potential remote and unmanaged areas that members of the public may use to engage in climbing activities.

Because of the dangers inherent in climbing activities, injuries and accidents are inevitable and the State will continually be open to lawsuits. Without this bill, the only option following an accident or injury may often be to permanently close off the area and prevent any access by the public because there is no way for the State to eliminate all risk of injury. This is clearly not what anyone wants. Moreover, members of the public will likely continue to access the area regardless of whether the area is closed off.

There is a community of enthusiasts that engage in mountain and rock climbing and other related activities. These activities are becoming increasingly popular, and the more challenging

the climb, the more attractive it likely becomes to climbing enthusiasts. However, as evidenced by the testimony of the climbing community, they are willing to assume the risk of any dangers inherent in these activities.

The solution is not to close off sites, prohibit access, and impose fines when the public access a prohibited area, but there may not be much choice if the State can be sued for every injury that occurs as a result of these climbing activities. Rather, this bill limits the State's unfettered liability for injuries and accidents that it cannot control or prevent and relies on the willing members of the climbing community to exercise personal responsibility and to assume the risk of what they know to be an inherently dangerous activity.

However, the House Committee on Water and Land has recommended the passage of H.B. No. 625, H.D. 1, which would meet the same goals of S.B. No. 1167, S.B. No. 1168 and S.B. No. 1286 in one bill. Therefore, we request that this bill be amended to contain the same language of H.B. No. 625, H.D. 1.

**TESTIMONY OF ROBERT TOYOFUKU ON BEHALF OF THE HAWAII
ASSOCIATION FOR JUSTICE (HAJ) IN OPPOSITION TO S.B. NO. 1168**

Date: Tuesday, February 5, 2013

Time: 1:15 o'clock pm.

To: Chairperson Malama Solomon and Chairman Clayton Hee and Members of the
Senate Committee on Water and Land and the Senate Committee on Judiciary and Labor:

My name is Bob Toyofuku and I am presenting this testimony on behalf of the
Hawaii Association for Justice (HAJ) in OPPOSITION to S.B. No. 1168, Relating to
Limited Liability For Mountain Climbing, Rock Climbing, Rappelling, and Bouldering
on Government Land.

The purpose of this bill is to provide public entities with absolute immunity from
any injury to person or property on government land when engaged in those activities
listed in the bill.

The justification sheet attached to this bill implies that government would be
liable even where an injury occurred on unimproved land in remote unmanaged areas
owned by government. Public, like private, landowners are liable only when they have a
duty to any third person who may be injured. That duty is to follow a standard of care
that a reasonable person must use under the circumstances to prevent harm to others.
This is the essence of the concept of negligence in tort law. In other words, the public
and private landowner must not act in a negligent manner. There is no legal obligation
that a landowner protects against every risk or be liable for every injury.

HAJ has always maintained that proponents of an immunity bill should at least
provide the legislature with the data that clearly indicates the number and type of lawsuits

that have been filed against public landowners of unimproved lands for personal injuries or property damage that have occurred on such unimproved land, any resulting judgment against the government, and the circumstances under which the government landowner was found to be negligent. The state already has substantial protection from liability in connection with natural conditions on unimproved lands under Act 82. We have always maintained that the legislature should have all of the facts and data before a major shift in public policy is made. This bill is not in the public interest and would be creating bad public policy.

Thank you for the opportunity to testify on this bill. HAJ respectfully requests that this bill be held in committee.

Protect America's Climbing

RE: Access Fund Testimony in Support of SB 1168

Dear WTL/JDL Committee,

I, R.D. Pascoe Policy Director for the Access Fund, am writing in support of Senate Bill 1168. The Access Fund is the only national advocacy organization whose mission keeps climbing areas open and conserves the climbing environment. A 501(c)3 non-profit supporting and representing over 2.3 million climbers nationwide in all forms of climbing—rock climbing, ice climbing, mountaineering, and bouldering—Access Fund is the largest US climbing organization with over 11,000 members and affiliates. We currently hold memorandums of understanding with the Bureau of Land Management, National Park Service, and Forest Service to help define rules for how climbing will be managed on federal land.¹ Many of our members regularly climb in Hawaii. For more information about the Access Fund, visit www.accessfund.org.

TESTIMONY

Liability associated with allowing rock climbing can be a concern for public land managers across the country. Major federal agencies such as the Bureau of Land Management, United States Forest Service, and the National Park Service typically allow climbing and have the resources to defend suites brought by recreationalists hurt while using public lands. However, some states, cities, and small municipalities lack the resource to feel comfortable allowing rock climbing (or other recreational activities that involve some level of inherent risk) without a strong recreational use statute or similar legislation. Several states specifically include rock climbing in their recreational use statute which provides protection for public and private land owners for injuries considered part of the recreational activity. These statutes are typically written as a nonexclusive list. Colorado, Tennessee, Alabama, Vermont, Virginia, Washington, New Hampshire, and Wisconsin specifically list rock climbing in their recreational use statute.

Last year climbing was banned on all lands managed by the Hawaii Department of Land and Natural Resources (DLNR) after a girl was injured while at a cliff known as the Mokuleia Wall. Despite numerous attempts by the local climbing community and the Access Fund to provide alternatives to banning climbing completely, including offering assistance with climbing management and securing additional liability insurance, DLNR refuses to lift the climbing ban until legislation providing immunity is passed. In opposition to SB 1168's companion bill HB 937, Bob Toyofuku of the Hawaii Association of Justice submitted testimony against providing

immunity for rock climbing by claiming more information regarding the number and nature of suits is needed and that the state already enjoys ample immunity. Fortunately, we know of no suits brought against the state of Hawaii for claims arising out of a rock climbing injury. Further, in the twenty years that climbing has been allowed on DNLR lands, no serious injuries have been documented. It is the perceived risk that caused DNLR to ban climbing, not specific cases or examples.

SB 1168 simply provides immunity for the governmental entities against injuries arising out of rock climbing. This is a reasonable solution to help alleviate some of DNLR's concerns and re-open public lands to the legitimate use of rock climbing. Hawaiian governmental entities enjoy the similar protection against skateboarding and water sports and passing SB 1168 will not change the law, just clarify that suits brought against the state arising out of rock climbing are barred.

Please feel free to utilize the Access Fund as a resource as SB 1168 moves forward.

Best Regards,

R.D. Pascoe
Policy Director
Access Fund

February 5, 2013

To: Committee on Water and Land and Judiciary

From: Debora Halbert, Individual

Hearing: February 6th at 1:15 PM

RE: SB 1167 and SB 1168

Dear Water and Land and Judiciary Committee members,

I am writing as a member of Oahu's 500+ climbing community in support of the passage of SB 1167 and SB 1168, which limits liability for state and country employees for rock climbing, mountaineering, bouldering, and rappelling on state lands.

At the bottom of this letter is a petition with signatures from just over 400 individuals sent to the Governor and to the DLNR requesting this legislation be introduced. Furthermore, attached is a petition with over 1200 signatures requesting that the DLNR open up access to climbing again. In both cases, those who signed the petition did so with an understanding *that the state should not be held liable for the recreational activities of those who engage in rock climbing and assume the risk for their own well-being.*

Sadly, such legislation is needed because despite virtually no climbing injuries in the 22 years residents and visitors have climbed at Mokuleia and other areas on Oahu, the *fear* of litigation is sufficient for the state to close access to our mountains rather than face potential lawsuits. We feel that the \$15 million dollars awarded to the family of a woman who fell to her death while hiking on Kauai is an example of a flawed state system that does not limit liability for individuals who voluntarily undertake hazardous recreational activities such as hiking and climbing. This settlement is indicative of a state-policy process that is out of step with contemporary uses of our natural resources for recreational use and is now so outdated as to be in desperate need of revision. That limited state liability generally has not yet been integrated into the recreational use statute requires climbers to seek a specific waiver for climbing related activities.

We support the logic DLNR has included as justification for this legislation and as climbers we understand that we assume risk for our welfare when engaging in hazardous recreational activity. Across the nation, rock climbers rarely if ever sue for injuries sustained by rock climbing or mountaineering. However, given that not all people who try rock climbing are avid climbers such as ourselves, we also recognize the state's need to explicitly limit liability. Thus, we are in full support of this legislation and support the DLNR's efforts to avoid unnecessary regulation of unencumbered state lands.

While climbing is not entirely risk-free, climbing is at least as safe as other State-approved outdoor activities such as surfing, kiteboarding, or paragliding. Indeed, our climbing areas have been voluntarily maintained and we have self-imposed safety measures not seen in any other climbing area in the world. Certainly, minor accidents do happen, yet when compared to the accidental death and injury rate occurring in the oceans almost daily, there is no significant threat from rock climbing in Hawaii. Hawaii does have the second highest drowning rate in the nation and yet the beaches remain open to water activities. It is unclear why a different approach would be taken with a far less dangerous activity in the mountains. Imagine the uproar of the surfing community if the State closed Sunset Beach and Pipeline - Oahu's climbers feel no less passionately about access to Mokuleia and our other Northshore climbing sites. The unilateral closure of all of our Oahu climbing sites has been devastating to our climbing community.

We understand we live in a litigious world where everyone is afraid of lawsuits. However, we also live in a world where people seek to explore, push their physical limits, and live outside the boundaries of personal safety. The State's solution should not be to close public lands to public access because of a fear of liability or injury. The laws and policies in Hawaii should be framed in such a way that assumed risk is clearly emphasized and the State's job ought to be to ensure the basic maintenance of our public trails and park systems.

Since the early 1990s, Oahu's climbing community has carefully stewarded our few climbing sites, emplaced world-renown safety measures at these sites, coordinated with the local fire department and external experts on review of our safety measures, and coordinated with DLNR regarding our activities while seeking approval. Climbers in Hawaii and around the world are an avid and dedicated community – it is as much a lifestyle as it is a sport. To be in the mountains and to climb is more than a physical exercise - it is a spiritual awakening to the flow of mind and body. To be deprived of access does direct and personal harm to those of us who depend upon climbing to free our minds and bodies amid the wonder that is our natural world.

We urge you to pass this legislation, along with the other bills introduced to achieve these goals and make the state safer from overly litigious residents and visitors who should understand that they assume risk for their personal safety when leaving the confines of their homes.

Sincerely,

Debora Halbert

To: Governor Abercrombie, William Aila, DLNR , and Russell Y. Tsuji

Subject: **Re-Open Access for Climbers to Climb on State Lands**

Letter: Greetings,

Re-Open Access for Climbers to Climb on State Lands

As advocates for all forms of outdoor recreation, Oahu's 500+ climbers are writing to put full support behind legislation recently brought to you by the DLNR that would waive State liability for recreational activities on State land, including rock climbing, mountaineering, bouldering, and rappelling. Such legislation is needed because despite virtually no injuries in the 22 years residents and visitors have climbed at Mokuleia and other areas on Oahu, a single injury in June of 2012 has motivated the DLNR to essentially ban all climbing, impose harsh financial and criminal penalties, and confiscate community-owned safety equipment that had been donated and in-place at our climbing areas for community use.

We hope very much to see such legislation introduced in the next session so that we can resume climbing, which to us is as important as surfing is to surfers. We wish to extend our full support to help get this legislation passed. Over 1,000 people have already signed a petition requesting that the DLNR reopen the area and we believe we can generate even greater support in favor of these bills.

While we have not seen the text of the draft legislation, we have been apprised of its general themes. As we understand it, there are two measures. The first is a general change to the recreational use statute that would provide the state with a waiver for liability from injuries on State land. It was introduced as HB 2464 in the previous session, but did not make it out of the judiciary committee. The same is true for the Senate companion bill. The second is regarding Section 662 and is intended to specifically waive liability for rock climbing and associated sports. We are fully in support of a specific limit on liability for rock climbing in Hawaii, something that would be consistent with how 45 other States approach this recreational activity.

While we await the passage of this legislation, we would also encourage you to request that the DLNR immediately reopen Mokuleia and other popular climbing sites located in the mountains above and accessed through Kaena State Park. The

Access Fund, a national rock climbing advocacy group, has offered to enter into a management agreement for these climbing sites with the DLNR that would provide some liability insurance coverage for the DLNR while we work out the legislative issues. The goal of this offer is to allow the areas to be re-opened immediately while the climbing community and the DLNR work out a viable and long-term plan. So far, the DLNR has been unwilling to even discuss this possibility with us, but we would hope you could convince them to do so.

Furthermore, instead of banning climbing outright, we seek your support in convincing the DLNR to remove the monetary and criminal penalties for climbing. We feel that the warning signs at the bottom of the trail informing hikers and climbers of the dangers of possible rock fall are sufficient to absolve the State from liability similar to DLNR's use of Chapter 82 in placing warning signage in other State locales. It makes no sense that the State would criminalizing outdoor adventurers because they enjoy the natural environment. It is our understanding that current rules regarding the provision to recreational users with fair warning are sufficient.

While climbing is not entirely risk-free, climbing is at least as safe as other State-approved outdoor activities such as surfing, kiteboarding, or paragliding. Indeed, our climbing areas have been voluntarily maintained and we have self-imposed safety measures not seen in any other climbing area in the world. Certainly, minor accidents do happen, yet when compared to the accidental death and injury rate occurring in the oceans almost daily, there is no significant threat from rock climbing in Hawaii. Hawaii does have the second highest drowning rate in the nation and yet the beaches remain open to water activities. It is unclear why a different approach would be taken with a far less dangerous activity in the mountains. Imagine the uproar of the surfing community if the State closed Sunset Beach and Pipeline - Oahu's climbers feel no less passionately about access to Mokuleia and our other Northshore climbing sites. The unilateral closure of all of our Oahu climbing sites has been devastating to our climbing community.

We understand we live in a litigious world where everyone is afraid of lawsuits. However, we also live in a world where people seek to explore, push their physical limits, and live outside the boundaries of personal safety. The State's solution should not be to close public lands to public access because of a fear of liability or injury. The laws and policies in Hawaii should be framed in such a way that assumed risk is clearly emphasized and the State's job ought to be to ensure the basic maintenance of our public trails and park systems.

Since the early 1990s, Oahu's climbing community has carefully stewarded our few climbing sites, emplaced world-renown safety measures at these sites, coordinated with the local fire department and external experts on review of our safety measures, and coordinated with DLNR regarding our activities while

seeking approval. Climbers in Hawaii and around the world are an avid and dedicated community – it is as much a lifestyle as it is a sport. To be in the mountains and to climb is more than a physical exercise - it is a spiritual awakening to the flow of mind and body. To be deprived of access does direct and personal harm to those of us who depend upon climbing to free our minds and bodies amid the wonder that is our natural world.

We urge you to introduce the legislation, direct DLNR to open climbing again with the insurance policy offered by the Access Fund, and also to invite climbers to play a role in developing management plans for recreational use.

We would like very much to meet with you to discuss these issues in more detail.

Sincerely,

The Oahu Climbing Community

To: Office of the Chairperson, William J. Aila Jr, DLNR, Guy H. Kaulukukui, Deputy to the Chair, DLNR, Daniel S. Quinn, Administrator, DLNR, and Barry Cheung, DLNR

Subject: **Re-Open Access to Climbing at Mokuleia**

Letter: Greetings,

I just signed the following petition addressed to: Hawaii Department of Land and Natural Resources.

Open Access to Climbing on Oahu

In June of 2012 the DLNR closed the most significant climbing area on Oahu in reaction to an accident. Given that Mokuleia is virtually the only climbing area of quality on the Island, is relied upon by local and visiting climbers alike, is maintained voluntarily and has had few accidents in its 20 year existence, the reaction of the DLNR is excessive and should be rescinded. We are asking that the DLNR restore access to Mokuleia to climbers. Climbers in turn seek to be involved in the rule making procedures that will ensure long term access to public lands for hiking and climbing well into the future.

Sincerely,

Signatures

I am writing as a long-term climber and avid hiker who had climbed from one to four times a month at Mokuleia for the last two years, until its closure. The state's actions directly impact my life and well being in Hawaii. Up until last summer, climbing had been a central component of my life here on Oahu, being my primary source of weekend enjoyment and exercise. The climbing community on Oahu has deeply enriched my experience here, as do all the hikes into the mountains that are possible. As a result, I am deeply affected by the closures and write to express how important it is that the area remain open for climbing and that any future rules protect access to the climbing and hiking trails on the Islands. In fact, I believe this should be an opportunity for the state to more fully support its trail systems, which are a part of the eco-tourism that many come to Hawaii to experience and that are enjoyed by those of us who live here.

As a climber, I understand that rock climbing is overall a safe sport, and that like all outdoor activities, there are inherent risks involved as well. A respect for nature, and understanding and use of proper gear and protection equipment help to mitigate those risks. Please take the time to look nationally, or internationally at the rates of injuries, you will see that there are few if any lawsuits by climbers regarding injuries suffered while climbing. Furthermore, the state of Hawaii sent a geologist to examine the Mokuleia rock climbing area in the year 2000 and subsequently gave its approval that the area was safe for public use.

I believe that closing the area was an overreaction and a mistake.

Given how important climbing as a sport and lifestyle is to me, I am deeply disappointed with the way the state has chosen to react to this incident. I request that the following be done.

First, open all climbing at Ka'ena Point back up to climbers as soon as possible. The state has been provided with adequate documentation from local climbers (and the Access Fund) regarding the management of climbing sites across the nation. By following these models, a long-term, sustainable solution is easily obtainable.

Second, pass legislation that will provide liability protection for the county and state, and allow access to public lands for those seeking recreational use (climbing, hiking, etc.). HB 550 has a hearing scheduled for Friday, February 1, and two other bills, HB625 and HB586 will serve to provide comprehensive liability. There are several senate bills (Senate Bills 1007, 1008, 1167, 1168, 1285, and 1286) that **need** to be heard as well. I urge you to do whatever is necessary to insure that these bills are not only heard in the Senate, but kept alive, and made into law.

Climbers around the world are an avid and dedicated community – it is as much a lifestyle as it is a sport. To be in the mountains and to climb is more than a physical exercise, it is the opportunity to engage in a community and lifestyle that is larger than one person. **To be deprived of access does me direct and personal harm.** The members of this community

are strongly motivated to secure access to and provide stewardship for the lands we use.

As a community, our hearts ache for the little girl who was injured at Mokuleia. **Closing access to us all is not the appropriate response.** Please rescind the closure and engage the climbing community in a planning process that can enhance yet another type of activity that will draw people to the Islands instead of imposing more restrictive measures that make life all the less enjoyable. Please do not keep this invaluable natural resource from being safely enjoyed by the climbers of Oahu for generations to come.

My name is Duc Ong. I am a high school math teacher at Kaiser High School. As a resident tax-payer and employee of the state, I would like to make the following statement.

As advocates for all forms of outdoor recreation, Oahu's 500+ climbers are writing to put full support behind legislation recently brought to you by the DLNR that would waive State liability for recreational activities on State land, including rock climbing, mountaineering, bouldering, and rappelling. Such legislation is needed because despite virtually no injuries in the 22 years residents and visitors have climbed at Mokuleia and other areas on Oahu, a single injury in June of 2012 has motivated the DLNR to essentially ban all climbing, impose harsh financial and criminal penalties, and confiscate community-owned safety equipment that had been donated and in-place at our climbing areas for community use.

I hope very much to see this bill pass in the next session so that I can resume climbing, which to us is as important as surfing is to surfers. I wish to extend our full support to help get this legislation passed. Over 1,000 people have already signed a petition requesting that the DLNR reopen the area and I believe I can generate even greater support in favor of these bills. I am fully in support of a specific limit on liability for rock climbing in Hawaii, something that would be consistent with how 45 other States approach this recreational activity.

While I await the passage of this legislation, *I would also encourage you to request that the DLNR immediately reopen Mokuleia and other popular climbing sites located in the mountains above and accessed through Kaena State Park.* The Access Fund, a national rock climbing advocacy group, has offered to enter into a management agreement for these climbing sites with the DLNR that would provide some liability insurance coverage for the DLNR while I work out the legislative issues. The goal of this offer is to allow the areas to be re-opened immediately while the climbing community and the DLNR work out a viable and long-term plan. So far, the DLNR has been unwilling to even discuss this possibility with us, but I would hope you could convince them to do so.

Furthermore, instead of banning climbing outright, I seek your support in convincing the DLNR to remove the monetary and criminal penalties for climbing. I feel that the warning signs at the bottom of the trail informing hikers and climbers of the dangers of possible rock fall are sufficient to absolve the State from liability similar to DLNR's use of Chapter 82 in placing warning signage in other State locales. It makes no sense that the State would criminalize outdoor adventurers because they enjoy the natural environment. It is our understanding that current rules regarding the provision to recreational users with fair warning are sufficient.

While climbing is not entirely risk-free, climbing is at least as safe as other State-approved outdoor activities such as surfing, kiteboarding, or paragliding. Indeed, our climbing areas have been voluntarily maintained and I have self-imposed safety measures not seen in any other climbing area in the world. Certainly, minor accidents do happen, yet when compared to the accidental death and injury rate occurring in the oceans almost daily, there is no significant threat from rock climbing in Hawaii. Hawaii does have the second highest drowning rate in the nation and yet the beaches remain open to water activities. It is unclear why a different approach would be taken with a far less dangerous activity in the mountains. Imagine the uproar of the surfing community if the State closed Sunset Beach and Pipeline - Oahu's climbers feel no less

passionately about access to Mokuleia and our other Northshore climbing sites. The unilateral closure of all of our Oahu climbing sites has been devastating to our climbing community.

I understand I live in a litigious world where everyone is afraid of lawsuits. However, I also live in a world where people seek to explore, push their physical limits, and live outside the boundaries of personal safety. The State's solution should not be to close public lands to public access because of a fear of liability or injury. The laws and policies in Hawaii should be framed in such a way that assumed risk is clearly emphasized and the State's job ought to be to ensure the basic maintenance of our public trails and park systems.

Since the early 1990s, Oahu's climbing community has carefully stewarded our few climbing sites, emplaced world-renown safety measures at these sites, coordinated with the local fire department and external experts on review of our safety measures, and coordinated with DLNR regarding our activities while seeking approval. Climbers in Hawaii and around the world are an avid and dedicated community – it is as much a lifestyle as it is a sport. To be in the mountains and to climb is more than a physical exercise - it is a spiritual awakening to the flow of mind and body. To be deprived of access does direct and personal harm to those of us who depend upon climbing to free our minds and bodies amid the wonder that is our natural world.

I urge you to pass the legislation, direct DLNR to open climbing again with the insurance policy offered by the Access Fund, and also to invite climbers to play a role in developing management plans for recreational use.

Sincerely,

Duc Ong

Hearing: February 5th, 2013, 1:15 PM Conference Room 225

RE: SB1167 & SB1168

Dear Committee on Water and Land,

As an avid rock climber and outdoor adventurer, **I STRONGLY SUPPORT the passage of SB1007 and SB1008**, which limits liability for state and country employees for rock climbing, mountaineering, bouldering, and rappelling on state lands.

Such legislation is needed because despite virtually no injuries in the 22 years residents and visitors have climbed at Mokuleia and other areas on Oahu, a single injury in June of 2012 has led the DLNR to ban all climbing on the North Shore, impose harsh financial and criminal penalties, and confiscate community-owned safety equipment that had been donated and in-place at our climbing areas for community use. As a climber, I understand that we assume risk for our welfare when engaging in hazardous recreational activity. Across the nation, rock climbers rarely if ever sue for injuries sustained by rock climbing or mountaineering. However, given that not all people who try rock climbing are avid climbers, I also recognize the state's need to explicitly limit liability. Thus, I am in full support of this legislation and the DLNR's efforts to avoid unnecessary regulation of unencumbered state lands.

Many people think of rock climbing as a sport that encourages reckless behavior in the mountains that leads to very frequent injury and death. This is a huge misconception propagated by hollywood that almost exclusively shows rock climbers "free soloing" (that is, climbing without a rope or safety equipment) in movies and television (see "Vertical Limit", "Cliffhanger" etc). The truth is, a vast majority of climbers are extremely obsessed with safety. If you look up "rock climbing gear" on an internet search, you will find a plethora of very specific equipment with extremely high safety tolerance. Climbers know the importance of this equipment and spend nearly as much of their free time endeavoring to better understand it as they do actually climbing.

Beyond individual safety gear, climbers look out for each other. They always climb in pairs so the person on the ground can manage the rope for the person climbing (also known as belaying). Climbers will also check each other's equipment before **each** climb so as not to become complacent and assume everything is worn correctly. Likewise, the climbing community collectively volunteers hundreds of hours each year to keep climbing areas safe (by installing unobtrusive protection into the cliff), clean (by packing out trash and organizing clean up days at areas that receive high traffic such as trailheads and beachside cliffs) and enjoyable for everyone.

While climbing is not risk-free, climbing is at least as safe as other State-approved outdoor activities such as surfing, kiteboarding, or paragliding. Indeed, our climbing areas have been voluntarily maintained and we have self-imposed safety measures not seen in any other climbing area in the world. Certainly, accidents do happen, yet when compared to the accidental death and injury rate occurring in the oceans almost daily, there is no significant threat from rock climbing in Hawaii. Hawaii has the second highest drowning rate in the nation and yet the beaches remain open to water activities. It is unclear why a different approach would be taken with a far less dangerous activity in the mountains. Imagine the uproar of the surfing community if the State closed Sunset Beach and Pipeline - Oahu's climbers feel no less passionately about access to Mokuleia and our other Northshore climbing sites. The unilateral closure of all of our Oahu climbing sites has been devastating to our climbing community.

Since the early 1990s, Oahu's climbing community has carefully stewarded our few climbing sites, emplaced world-renowned safety measures at these sites, coordinated with the local fire department and external experts on review of our safety measures, and coordinated with DLNR regarding our activities while seeking approval. Climbers in Hawaii and around the world are an avid and dedicated community – it is as much a lifestyle as it is a sport.

I urge you to pass this legislation, along with the other bills introduced to achieve these goals and make the state safer from overly litigious residents and visitors who should understand that they assume risk for their personal safety when leaving the confines of their homes.

Sincerely,

To: Committee Members

From: Eva Bosch RN, Individual Rock Climber

Hearing: February 5, 2013, 1:15pm Conference Room 225

RE: SB1168

Dear Committee Members,

As an avid rock climber and outdoor adventurer, I am writing this letter in support of the passage of SB1168, which limits liability of rock climbing, mountain climbing, bouldering and rappelling for our state. I had climbed weekly at Mokuleia for the last five years, until its closure. The state's actions directly impact my life and well being in Hawaii. I work as an RN in the neonatal intensive care unit and am a homeowner in Hawaii, however I would consider moving out of state if Mokuleia continues to be closed. My entire family climbs regularly and internationally, and it is an essential part of our lives. It is central component of my life here on Oahu. The climbing community on Oahu has deeply enriched my experience here, as do all the hikes into the mountains that are possible. As a result, I am deeply affected by the closure and write to express how important it is that the area remains open for climbing and that any future rules protect access to the climbing and hiking trails on the Islands.

I believe that it is important for outdoor enthusiasts to understand the risks nature present and not hold the state accountable for activities they choose to engage in. A trail that is maintained regularly may still fail. Rocks and dirt move as does the ocean. The state should not be responsible for paying out settlements to people that choose to venture outdoors. Our state just paid a 15.4 million dollar settlement to the families of two hikers that have died on a Kauai trail. Unfortunately this is not an isolated incident. The money that the state pays out eventually filters back to the taxpayers. I believe the lawyers group in opposition of amending chapter HB520 at the last session on January 28th, has a fair bit of interest in keeping it written as is due to monetary incentives. In a post published on Bostwick&Peterson, LLP it reads, "oftentimes warning and closures happen too late – after someone has been seriously injured or dies while hiking an unsafe trail. If you or a loved one has been injured – or if you have lost a loved one in a hiking accident - it is important to seek the advice of an experienced Hawaii personal injury attorney right away."

Such legislation is needed because despite virtually no injuries in the 22 years residents and visitors have climbed at Mokuleia and other areas on Oahu, a single injury in June of 2012 has led the DLNR to ban all climbing on the North Shore, impose harsh financial and criminal penalties, and confiscate community-owned safety equipment that had been donated and in-place at our climbing areas for community use. As a climber, I understand that we assume risk for our welfare when engaging in hazardous recreational activity. Across the nation, rock climbers

rarely if ever sue for injuries sustained by rock climbing or mountaineering. However, given that not all people who try rock climbing are avid climbers, I also recognize the state's need to explicitly limit liability. Thus, I am in full support of this legislation and the DLNR's efforts to avoid unnecessary regulation of unencumbered state lands.

While climbing is not risk-free, climbing is at least as safe as other State-approved outdoor activities such as surfing, kiteboarding, or paragliding. Indeed, our climbing areas have been voluntarily maintained and we have self-imposed safety measures not seen in any other climbing area in the world. Certainly, accidents do happen, yet when compared to the accidental death and injury rate occurring in the oceans almost daily, there is no significant threat from rock climbing in Hawaii. Hawaii has the second highest drowning rate in the nation and yet the beaches remain open to water activities. It is unclear why a different approach would be taken with a far less dangerous activity in the mountains. Imagine the uproar of the surfing community if the State closed Sunset Beach and Pipeline - Oahu's climbers feel no less passionately about access to Mokuleia and our other Northshore climbing sites. The unilateral closure of all of our Oahu climbing sites has been devastating to our climbing community.

Since the early 1990s, Oahu's climbing community has carefully stewarded our few climbing sites, emplaced world-renown safety measures at these sites, coordinated with the local fire department and external experts on review of our safety measures, and coordinated with DLNR regarding our activities while seeking approval. Subject: Strong Support SB1167 and SB1168
Date: Monday, February 04, 2013 9:49:15 AM

Aloha, Senator Solomon and committee members.

I STRONGLY SUPPORT SB1167 and SB1168.

I was the State Representative for Kaena last year when a child on a YMCA outing was struck by a falling rock. Since that unfortunate incident, the state has strictly prohibited all rock climbing activities in the area. Month after month, I was told by DLNR that rules were being developed and that a public meeting would be scheduled on the North Shore to gather feedback. This process did not occur, presumably because of legal considerations.

Once upon a time, children fell off see-saws and nobody thought about suing. Rock climbers understand the risks of what they are doing. The state should not be liable every time somebody engages in an activity that has obvious risk of injury. These measures restore some common sense.

Please pass SB1167 and SB1168

Respectfully,

Gil Riviere

Comments: I support SB1168. As a rock climber who has climbed in Hawaii, I know that the climbing community there has always put safety first. We know and understand the risks, and we also accept the responsibilities. Closing down rock climbing areas will not solve any liability issues. This bill would allow the State to limit liability, and thus re-open the land for recreational activities. Please understand that if you do not pass these bills, not only will you be harming an ever-growing population of outdoor enthusiasts on the island, you would also be discouraging visitors who go to Hawaii to enjoy the hikes and climbing areas. Personally, if these bills are not passed, it is likely I will instead vacation in other states where I can enjoy the mountains.

Please note that testimony submitted less than 24 hours prior to the hearing, improperly identified, or directed to the incorrect office, may not be posted online or distributed to the committee prior to the convening of the public hearing.

Do not reply to this email. This inbox is not monitored. For assistance please email webmaster@capitol.hawaii.gov

February 1, 2013

I, John C. Miller of Honolulu Hawaii for the last 10+ years am in support of this bill. I have been an avid hiker for many years and a recent rock climber until the closure of the climbing routes. I can't imagine Hawaii without trails to run on, walls to climb or mountains to hike. Please pass this bill today and end the long delays the climbing community here in Oahu have had to endure. I feel the state's delays in acting on this sooner have been unfair to the climbing community and the businesses, employees and families that rely on the income from the sports.

Sincerely,

A handwritten signature in cursive script that reads "John C. Miller". The ink is black and the signature is fluid and legible.

John C. Miller

7115 Kukii Street, Honolulu, HI 96825

Testimony in Support of SB1168
Hearing Date: February 5, 2013

Thank you Chair Solomon, Chair Hee and members of the committees on Water and Land and Judiciary and Labor for scheduling the hearing of this bill.

I am in **strong support of SB1168** "Relating to Limited Liability for Mountain Climbing, Rock Climbing, Rappelling, and Bouldering on Government Land." Unfortunately, the State is frequently cited for accidents and/or injuries that occur on government land. This has historically led to closures and restricted access to areas that were once open for recreational use. By freeing the State from liability, this piece of legislation can help mitigate future closures and arguably foster a better relationship between the State and members of the climbing community.

Climbers are well aware of the risks they undertake when engaging in these types of activities. The State and any other government entity should not be held responsible for the risks assumed by those who freely choose to recreate outdoors.

There are a number of bills related to rock climbing and liability that were introduced this year, which articulates the need to enact legislation that will prompt solutions rather than create burdens for the State. This bill offers up a solution to a recurring problem. I hope you will listen to mana'o of the climbing community and make the right choice. Please support SB1168.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Katie C. Ersbak', with a long horizontal flourish extending to the right.

Katie C. Ersbak
Senate District 10

I, Keith Okuna, SUPPORT SB1168. Climbing is a fantastic, safe hobby that should be available to anyone who wants to learn it. It is not fair or reasonable to outlaw climbing, and I am in full support of any bill that serves to make climbing legal and accessible.

Sincerely,
Keith Okuna

Comments: SUPPORT SB1167 I'm writing in support of SB1167. This bill is an important step to ensuring access to public lands for recreational use and for protecting the State from unnecessary and unjust litigation. As an avid outdoor enthusiast, rock climber, and concerned citizen I'm appalled our State government has not yet acted on measures to protect our access to the great outdoors and protect us as taxpayers from unethical litigation. We are the people and we deserve access to our public lands without fear of prosecution or litigation. The State is not responsible for protecting its people from every known danger. Restricting access to trails and mountains in an attempt to protect us from all potential and natural threats is asinine. Moreover, the State is incapable of doing so anyway. This bill is an important step to protecting our access to public lands for recreational use and protecting us as citizens from unrighteousness litigation. Mahalo, ~ Kevin Nesnow

To: Committee on Water and Land

From: Kitt Turner

Hearing: February 05, 2013, 1:15 PM Conference Room 225

RE: SB 1168

Dear Committee on Water and Land,

As someone who has experienced the joy of rock climbing for many years, I STRONGLY SUPPORT the passage of SB 1168. This legislation will help reduce the states liability pertaining to rock climbing related injuries sustained on state land. The passage of the legislation will help to reopen safe rock climbing areas for everyone to enjoy.

As an avid climber I understand that I must assume risk for my own welfare when engaging in potentially hazardous recreational activity. The climbing community on Oahu is quite large, and for many of us a way of life. We have unfortunately seen the closure of our most beloved climbing areas due to liability concerns, and it is in best interest of everyone to pass SB 1168.

I urge you to pass this legislation to make the state safer from overly litigious residents and visitors who should understand that they assume risk for their personal safety when leaving the confines of their homes.

Sincerely,

Kitt Turner

This bill is important to allow access to those of us who participate in climbing, bouldering, canyoneering, etc. These are outstanding pioneer markets for eco-tourism and a great low impact way to add value to our natural resources. There are climbers and outdoor enthusiasts all over the world who would support our natural resources if they were allowed to enjoy them.

Additionally, there is a strong history of climbing in Hawaiian culture. The phrase "Kau i uka o Nihoa" or "climbing the cliffs of Nihoa" has long been a term for overcoming adversity. Climbing the cliffs of Nihoa was also one of the trials faced by practitioners of Lua, the Hawaiian fighting art. Climbing on Lanai, climbing author John Long found an altar placed on the top of a spire which was so hard he couldn't climb it, yet Hawaiians had free soloed it carrying enough rock to build the altar!

Climbing has a rich history in Hawaii and we, the climbing community would like to continue that tradition.

Co-Chairs Senator Malama Solomon & Senator Clayton Hee, and the members of the joint WTL (Water and Land) & JDL (Judiciary and Labor) committees.
Tuesday, February 5th WTL/JDL hearing at 1:15 PM in room 225.

Testimony of Michael Bishop (Haleiwa resident and constituent of Senator Hee)
in SUPPORT of SB 1168

First, I would like to thank Co-Chairs Solomon and Hee, and the members of this joint committee for the opportunity to present this testimony. It is a matter of great importance to the very frustrated and disenfranchised, but optimistic rock climbing community of Oahu.

We live in a culture which permits, tolerates, and often even glorifies a wide range of recreational activities, many of which are inherently dangerous. We treasure our big wave surfers, yet we allow them to accept the risks associated with their actions. We would never dream of telling them that a given day is too big to paddle out; or a particular reef is too shallow, too sharp, or too dangerous to surf. Instead, we have established the appropriate legal statutes (such as acts 82, 170, and 190) to protect the state, and the taxpayers, from any claims resulting from such recreation.

Hiking mountain trails and rock climbing, in its various forms, have both continued to become incredibly popular here in Hawaii. We should treasure these hikers and climbers as incredible athletes as well. Instead, out of fear of litigation, our state DLNR has systematically closed down public hiking and climbing areas. Oversight of all the possible locations for these activities isn't even remotely possible – the only feasible option is to allow climbers to take responsibility for their own actions, just as big wave surfers do. This bill will provide the climbing community with the same reasonable opportunities for recreation that surfers currently have.

Mr. Toyofuku will present the case that the state already has protection for these types of activities under act 82, but too much gray area remains. He has spoken out against broad scope liability reduction measures by testifying against hb 625, stating that specific cases require statutory exemptions; such as in the cases of skateparks, beaches, and areas containing unexploded ordinance. However, he also spoke out against hb 937, (the companion to sb 1168) which specifically addressed rock climbing liability, by asserting that the state already has protection in some circumstances. The intent of his testimony appears to be to ensure that the state has NO liability protection in general or specific cases. If the state already has protection, there should be no opposition to clarifying exactly what it is - so that there is no gray area or uncertainty which leads to area closures.

Mr Toyofuku has also mentioned in public testimony (against hb937) that proponents of liability reducing measures should provide you, the legislature, with data on all the lawsuits resulting from such liability. However, here he is missing the point: because the *threat* of lawsuit exists, despite the fact that rock climbing has never resulted in a single lawsuit against the state of Hawaii, the DLNR has closed public lands – specifically, unencumbered state lands accessed using unmaintained trails.

Mr. Toyofuku and those who oppose this bill do not have the greater public good in mind. They wish to see a legal climate within which lawsuits against the state are viable; in such a climate, the State DLNR is ostensibly forced to restrict the activities of the public, infringing upon our freedoms.

I am here asking you to protect me; not by protecting my right to sue, but by protecting my right to use

public lands. Please pass Senate Bill 1168, as it is the most straightforward way to allow the DLNR to return access to *deeply treasured* natural resources to the public. Times have changed since the recreational use statutes in Hawaii were created, and they are in desperate need of revision to keep up with the types of outdoor activities which are rapidly proliferating in Hawaii. Thank you for your consideration.

Sincerely,
Michael Bishop
Haleiwa resident and constituent of Senator Clayton Hee

I am writing as a long-term climber and avid hiker who had climbed from one to four times a month at Mokuleia for the last two years, until its closure. The state's actions directly impact my life and well being in Hawaii. Up until last summer, climbing had been a central component of my life here on Oahu, being my primary source of weekend enjoyment and exercise. The climbing community on Oahu has deeply enriched my experience here, as do all the hikes into the mountains that are possible. As a result, I am deeply affected by the closures and write to express how important it is that the area remain open for climbing and that any future rules protect access to the climbing and hiking trails on the Islands. In fact, I believe this should be an opportunity for the state to more fully support its trail systems, which are a part of the eco-tourism that many come to Hawaii to experience and that are enjoyed by those of us who live here.

As a climber, I understand that rock climbing is overall a safe sport, and that like all outdoor activities, there are inherent risks involved as well. A respect for nature, and understanding and use of proper gear and protection equipment help to mitigate those risks. Please take the time to look nationally, or internationally at the rates of injuries, you will see that there are few if any lawsuits by climbers regarding injuries suffered while climbing. Furthermore, the state of Hawaii sent a geologist to examine the Mokuleia rock climbing area in the year 2000 and subsequently gave its approval that the area was safe for public use.

I believe that closing the area was an overreaction and a mistake.

Given how important climbing as a sport and lifestyle is to me, I am deeply disappointed with the way the state has chosen to react to this incident. I request that the following be done.

First, open all climbing at Ka'ena Point back up to climbers as soon as possible. The state has been provided with adequate documentation from local climbers (and the Access Fund) regarding the management of climbing sites across the nation. By following these models, a long-term, sustainable solution is easily obtainable.

Second, pass legislation that will provide liability protection for the county and state, and allow access to public lands for those seeking recreational use (climbing, hiking, etc.). HB 550 has a hearing scheduled for Friday, February 1, and two other bills, HB625 and HB586 will serve to provide comprehensive liability. There are several senate bills (Senate Bills 1007, 1008, 1167, 1168, 1285, and 1286) that **need** to be heard as well. I urge you to do whatever is necessary to insure that these bills are not only heard in the Senate, but kept alive, and made into law.

Climbers around the world are an avid and dedicated community – it is as much a lifestyle as it is a sport. To be in the mountains and to climb is more than a physical exercise, it is the opportunity to engage in a community and lifestyle that is larger than one person. **To be deprived of access does me direct and personal harm.** The members of this community

are strongly motivated to secure access to and provide stewardship for the lands we use.

As a community, our hearts ache for the little girl who was injured at Mokuleia. **Closing access to us all is not the appropriate response.** Please rescind the closure and engage the climbing community in a planning process that can enhance yet another type of activity that will draw people to the Islands instead of imposing more restrictive measures that make life all the less enjoyable. Please do not keep this invaluable natural resource from being safely enjoyed by the climbers of Oahu for generations to come.

I support this bill which limits liability for mountain climbing, rock climbing, rappelling, and bouldering. The 2012 closure of the safest and most developed rock climbing crags in Hawaii has been detrimental to the climbing community. Prohibition does not stop individuals from pursuing what they love to do. Rather, the state's fear of liability is unjustly penalizing these individuals (doctors, professors, students, engineers, licensed professionals, etc.) as criminals for trying to practice on the safest climbing areas on the island. Any reasonable person is aware of the consequences of participating in inherently risky activities. It is inconceivable for the state to be liable for something they do not have the resources to manage. Not only will this bill reduce tax payer dollars on defending actions against the State, but it will allow the public to resume their rights on pursuing spiritual, physical, and mental growth through these activities.

February 4, 2013

To: Committee Members

From: Sayar Kuchenski, Resident Group Leader

Hearing: Feb 5, 2013 1:15 PM Conference Room 225

Sub: SB1168

Dear Committee Members,

I am writing on behalf of over 500 Hawaii residents in SUPPORT of SB1168. In essence, SB1168 provides limited liability mitigation to the State for rock climbing related activities on State land. Residents of Hawaii desperately need SB1168 because the State has systematically closed down large portions of public land for recreational usage in fear of lawsuits arising from injuries sustained on State land from rock climbing activities. Without some form of liability protection, the State will not reopen these areas.

Some may claim that the State already has protection from liability under Act 82. Act 82 does not protect the State from climbing-related injuries for three reasons: it only applies to improved trails (all climbing locations are off unimproved trails,) the State does not recognize vertical climbing as hiking (Act 82 only applies to hiking), and DLNR does not recognize Act 82 as an appropriate form of liability mitigation. Furthermore, AB1168 does not provide complete immunity to the State. It only provides the State with protection against one sport in which they cannot possibly manage or mitigate risk. It does not make any logical sense to hold the State responsible for injuries arising from an activity that they cannot possibly manage or mitigate.

Others may claim that the State has a duty to protect its citizens from danger. The State cannot protect rock climbers from the inherent risks of rock climbing, just as they cannot protect skydivers or surfers

from the risks involved in those activities. Furthermore, the State is not qualified to manage rock climbing. They have openly admitted that they know nothing about climbing. Rock climbing is inherently risky and it is not possible for the State to mitigate all possible risks. Neither the State nor the climbers want each other to be involved with rock climbing.

Do not be lead into the fallacy that this bill is not in the best interest of the public. Another testimony submitter has submitted two petitions with a combined 1,700 signatures on them urging for the passage of this type of liability protection, and the reopening of Oahu's rock climbing areas. As is clear from the abundance of supportive testimony, this bill is in the best interest of the public.

With Deepest Respects,

Sayar Kuchenski
