Comments: OPPOSE We are an island home. Water is our life. We are part of the ecosystem that supports all living things. It's even more imperative that we intelligently manage our finite and vulnerable resources rather than giving the store away with no oversight and due process. The culture of giving exemptions to legal processes and oversight in the name of expediency needs to stop. The emphasis should be on the project managers to be organized enough to plan ahead. Working with these important guidelines and checks-and-balances should be part of due process. Reference: Amends chapter 266, Hawaii Revised Statutes, to exempt the Department of Transportation, Harbors Division, from the permit and site plan approval requirements relating to submerged lands within the conservation district. Effective July 1, 2050. (SB1207 HD1)

Comments: We DO NOT WANT the public process to be avoided by the commercial interests that exploit the health of the land. Allow the public to be inconvenienced for the sake of the natural environment. We can and need to shift our habits. I oppose this bill.

Comments: These bills just keep getting crazier and crazier. We don't want this place to look like Dubai! As a resident and citizen, I strongly oppose. Slow down the development.

Comments: This is MORE of 'PLDC' public, environmental exemption attempts. Unacceptable. Environmental, cultural, and public review NEEDS to be upheld, and respected. We do not need MORE Pollution, just to make profits and collect revenue.
