

EXECUTIVE OFFICE ON EARLY LEARNING
HONOLULU

GG WEISENFELD
DIRECTOR

Testimony in **Support** of
S.B. 2975 S.D. 1, Relating to Early Learning
By GG Weisenfeld, Director

House Committee on Finance
March 31, 2014
2:00 p.m., Room 308

Chair Luke, Vice-Chair Nishimoto, Vice-Chair Johanson, and Members of the Committee:

Good afternoon. I am GG Weisenfeld, Director of the Executive Office on Early Learning (EOEL). EOEL is in support of Senate Bill 2975, Senate Draft 1.

The purpose of this bill is to appropriate funds for the Executive Office on Early Learning to enter into contracts with third party providers for family-child interaction learning programs.

EOEL requests that \$1 million be appropriated for this purpose, to be used in FY2015 for the 2014-2015 school year. This will provide approximately an additional 400 four-year-old children with access to a prekindergarten program.

Family-child interaction learning programs are an important part of the early learning system that EOEL is charged with developing pursuant to Act 178, Session Laws of Hawaii 2012.

To prepare as many four-year-olds for kindergarten as possible, it is important to use and expand the already-existing mixed-delivery system. EOEL's approach is to support such a mixed-delivery system, which includes private, community-based preschools; Head Start programs; family child care homes; special education prekindergarten classrooms; family-child interaction learning programs; and DOE-EOEL prekindergarten programs.

All of these options are funded through a variety of funding streams, including federal, parent (which make up the highest percentage), private foundation (such as Kamehameha Schools), special education, and state funds.

This session, EOEL is seeking funds for the school year beginning August 2014 for:

- Family-child interaction learning programs (\$1 million for 400 children*); and
- The DOE-EOEL Prekindergarten Program (\$4,470,208 for 640 children*).

*Free- and reduced-price meal eligible – a family of four could qualify if its income is at or below \$50,117.

More than five organizations provide family-child interaction learning programs -- such as INPEACE's Keiki Steps and Partners in Development Foundation's Tutu & Me programs -- at sites across the state. These organizations reach several thousand children.

This bill appropriates funds to contract with FCIL providers, which is an important part of the effort to reach more four-year-olds in the 2014-2015 school year.

Each component of our budget request for the FCIL program is linked to building a quality prekindergarten program. Prekindergarten experiences must be of high quality to make a difference in outcomes for children. To ensure high quality is implemented, we have identified five key elements that must be incorporated within the program:

- **Ongoing professional development.** Research has shown that the most successful method for creating high-quality teachers is systematic, ongoing professional development. That is why we will contract for services (\$90,000) that will coordinate targeted professional development workshops for the participating administrators and teachers on topics such as child development, use of individual child formative assessments, effective family engagement techniques, and curriculum. For teachers to participate in the required monthly workshops, travel for neighbor island staff to participate in biannual seminars (\$8,000) has been included. Programs will also be asked to justify how they will mentor their teachers.
- **Focus on Child Outcomes.** To ensure children are learning and progressing in their growth and development, the curriculum implemented in the program must be aligned with the Hawaii Early Learning and Development Standards (HELDS). HELDS are research-based standards that identify the expectations of knowledge and behavior for children from birth through kindergarten entry. They are a set of expected knowledge and behaviors categorized into five "domains" or areas based on the National Education Goals Panel framework: Physical Well-being, Health, and Motor Development; Social and Emotional Development; Approaches to Learning; Cognition and General Knowledge; and Language and Literacy. To measure a child's progress in these domains, the teachers will be required to conduct ongoing formative assessments on each child (\$4,000).
- **Program Assessment.** To evaluate the quality of teacher-child interactions, EOEL would use one of several tools available to provide direct feedback to the teachers. The

indicators that would be collected biannually include: the climate of the environment and emotional support provided to the students; site organization including the use of materials and behavior management; and instructional support that is occurring, such as concept development and language modeling (\$8,000).

- **Environment.** To establish a high-quality program, an appropriate environment must be created. Sites would need consumable materials for the children to use, such as writing materials and paper (\$40,000).

Thank you for the opportunity to provide testimony on this bill. I am happy to answer any questions you may have.

Chamber of Commerce HAWAII

The Voice of Business

**Testimony to the House Committee on Finance
Monday, March 31, 2014 at 2:00 P.M.
Conference Room 308, State Capitol**

RE: SENATE BILL 2975 SD1 RELATING TO EARLY LEARNING

Chair Luke, Vice Chairs Nishimoto and Johanson, and Members of the Committee:

The Chamber of Commerce of Hawaii ("The Chamber") **supports** SB 2975 SD1, which makes an appropriation for the executive office on early learning to enter into contracts with third party providers for family-child interaction learning programs.

The Chamber is the largest business organization in Hawaii, representing over 1,000 businesses. Approximately 80% of our members are small businesses with less than 20 employees. As the "Voice of Business" in Hawaii, the organization works on behalf of members and the entire business community to improve the state's economic climate and to foster positive action on issues of common concern.

The Chamber believes that this measure must be in place to provide services to children before they enter kindergarten. Providing family child interaction learning programs as part of a mixed delivery early learning system is critical in ensuring school readiness of Hawaii's children prior to entering kindergarten.

Also, the Chamber strongly believes that focusing on early childhood is critical because brain development takes place by age five. We believe it's imperative to begin investing early in a child's life, when the brain is in this state of tremendous growth potential. In 2008, the Hawaii Economic Benefits Study of early education for Hawai'i showed that for every \$1 Hawai'i invests in a quality four-year early learning program, the state will receive a return of \$4.20. This is not only about return of investment but in providing for our employees and their children.

Thank you for the opportunity to testify.

KAMEHAMEHA SCHOOLS®

House of Representatives
Twenty-Seventh Legislature 2014
State of Hawai'i

TO: Honorable Sylvia Luke, Chair
Honorable Scott Nishimoto, Vice Chair
Honorable Aaron Johanson, Vice Chair
Members of the Committee on Finance

DATE: March 31, 2014
TIME: 2:00 p.m.
PLACE: Conference Room 308
Hawai'i State Capitol

FROM: Kamehameha Schools

RE: SENATE BILL 2975, SD1 RELATING TO EARLY LEARNING

Chair Takumi, Vice Chair Ohno, and members of the Committee,

Thank you for this opportunity to testify on SB 2975, SD1 relating to early learning. Kamehameha Schools offers comments in support of appropriating funds for the executive office on early learning to enter into contracts with third party providers for family child interaction learning programs as part of a mixed-delivery early learning system to ensure school readiness of Hawaii's children prior to entering kindergarten. This measure reflects the importance and value of a dual choice system as being cost effective for serving low income families. We have been committed to advancing early learning across the state and have served in a leadership role with the state's Early Learning Advisory Board which unequivocally supports family child interaction learning programs.

Bernice Pauahi Bishop, whose mission is to improve the capability and well-being of Native Hawaiian children through education. We serve K-12 students through campus programs on O'ahu, Hawai'i and Maui, and three-and-four-year-olds at preschool sites statewide. In 2004, the Early Childhood Education division also began serving keiki from birth to three years old, as part of its Hi'ilani Early Childhood Collaborative program. We also provide scholarships to keiki attending other preschools and provide funding for child-family interaction programs that have filled a great need in rural communities.

Since its inception more than 20 years ago, the Kamehameha Schools Early Childhood Education Division has provided more than 11,000 keiki with their first preschool experience. Early childhood education and parental support is the cornerstone of the Education Strategic Plan adopted in 2005, which seeks to foster long-term intergenerational change in the way Native Hawaiian families approach learning. Research demonstrates that early education is a key factor in lifelong success for all children, and we strongly urge the legislature to promote, enhance and support the efforts of the State of Hawai'i to appropriately address the needs of Hawaii's pre-kindergarten children.

Conference Room 308

TESTIMONY TO
THE HOUSE COMMITTEE
ON FINANCE

RE: SB 2975 SD1 – Relating to Early Learning

Chair Luke, Vice Chairs Nishimoto and Johanson, and members of the Committee:

My name is Robert Witt, Executive Director of the Hawaii Association of Independent Schools (HAIS), which represents 99 private and independent schools in Hawaii and educates over 33,000 students statewide.

HAIS is in strong support of SB 2975 SD1, which would allow the office of early learning to enter into contracts with Family Child Interaction Learning (FCIL) programs. Hawaii is one of only ten states that does not have an established statewide early learning program, which means that we are missing a very crucial window of opportunity in the neural brain development of our young children.

SB 2975 SD1 will allow the Office of Early Learning to proceed with the development of a comprehensive early childhood system using public-private partnerships to build upon an already-existing high-quality early learning infrastructure. Due to limited resources and funds, it is imperative that the public and private sectors collaborate on this effort to ensure that all children have an equal opportunity for access to a quality early childhood education.

There is no one-size-fits-all mode of delivery for that education, thus it will be important to have the support of a variety of different modes for education that a mixed-delivery system would provide in order to reach the majority of the preschool-age population. FCIL programs provide an alternative for those who do not prefer formal schooling in group child care centers and public preschools or family child care homes. FCILs also engage the families in the education of their young children, an integral part of a successful and effective early education experience.

Thank you for the opportunity to testify in strong support of this measure.

Hawai'i State Capitol, Room 308

SB 2975, SD1– appropriating funds for family child interaction learning programs

Aloha Chair Takumi, Vice Chair Ohno, and members of the committee. Hawai'i Association for the Education of Young Children (HAEYC) supports the intent of SB 2975, SD1.

HAEYC requests that a definition of family child interaction learning (FCIL) programs be provided, as well as accountability for the funding and quality of programs that are funded.

FCIL programs are DHS license-exempt, as an adult is with the child for the time that they are at the program. Programs typically have adult/child(ren) come twice a week, for at least two hours. FCIL programs usually serve children from birth to kindergarten entry. The extent to which FCIL programs assess child development and share child development information with families varies. HAEYC supports quality across the FCIL programs.

HAEYC acknowledges the vision and courage it takes for legislators to enact laws that will come to full fruition after they leave office. Investing in early childhood development and education will be a lasting legacy.

Thank you for this opportunity to testify.

March 29, 2014

TO: Chair Sylvia Luke
Vice-Chair Scott Nishimoto
Members of the House Committee on Finance

FROM: Deborah Zysman
Executive Director
Good Beginnings Alliance

RE: **Support for SB2975 SD1: RELATING TO EARLY LEARNING.**

The Good Beginnings Alliance **supports SB2975 SD1**, which appropriates funding for the Executive Office on Early Learning (EOEL) to enter into contracts with third party providers for family child interaction learning (FCIL) programs. The Good Beginnings Alliance (GBA) is a policy and advocacy organization focused on ensuring that Hawaii's young children are healthy, safe, and ready for school. We continue to be in strong support of FCILs as a proven early learning method and critical to creating an effective mixed-delivery early learning system in our state.

FCILs emphasize the importance of family in the learning process for children ranging from birth through kindergarten. In 2006, GBA was fortunate to participate in a facilitated effort, led by 'ELEU, the Native Hawaiian Early Learning Consortium, to review and outline the benefits of FCILs as a culturally and educationally relevant early learning system. This report helped describe the strength and purpose of FCILs by explaining and illustrating their curriculum, standards, assessment criteria, family interaction methods, environmental issues, and outcomes.

One need only look at the exceptional services that 'ELEU and others provide communities around our state to understand the important niche that FCILs fill. SB2975 SD1, if funded, would allow EOEL to work in tandem with our FCIL programs around the state to ensure that Hawaii's early learning system is inclusive and diverse enough to serve a variety of communities with varying needs.

GBA strongly supports SB2975 SD1 and appreciates this opportunity to testify.

Sincerely,

A handwritten signature in black ink, appearing to read "Deborah Zysman", with a stylized flourish at the end.

HEARING: **Monday, March 31, 2014 at 2:00 p.m. in Conf. Rm. 308**

Testimony in Support of SB2975 SD1, Relating to Early Learning.

Thank you for the opportunity to provide testimony **in support** of SB2975, which appropriates funding for the Executive Office on Early Learning (EOEL) to enter into contracts with third party providers for family child interaction learning (FCIL) programs. PHOCUSED is a statewide coalition of health, housing, and human services organizations committed to strengthening policies and programs that benefit the marginalized and underserved in Hawaii. We strongly support FCILs as an effective and proven early learning method.

FCIL programs play a critical role in our state by providing a culturally-relevant educational environment for children ranging from birth through preschool. FCILs not only help to prepare Hawaii's keiki with the social and emotional development they need to be ready for kindergarten, but these programs also emphasize the critical importance of family in the early learning process.

This bill will enable EOEL to work together with FCIL programs to provide increased access and more affordable options for families throughout Hawaii, especially for those families who reside in our most high-need communities.

Once again, PHOCUSED supports SB2975 to provide a strong foundation for all of Hawaii's keiki. We appreciate the opportunity to provide testimony on this important issue.

Representative Aaron Johanson, Vice Chair

March 31, 2014

Dear Chair Luke, Vice Chairs Nishimoto and Johanson, and Committee Members:

This testimony is submitted in support for SB2975 SD1, allowing the Executive Office of Early Learning to enter into contracts with third party providers offering child family interaction early learning programs, and the financial support for these programs.

The Hui for Excellence in Education (HE'E) is a diverse coalition of over 40 parent and community organizations dedicated to improving student achievement by increasing family and community engagement and partnerships in our schools. Our member list is attached.

The Coalition supports the State's plan of offering a variety of early learning and education options for our children. We like the child family interaction programs, specifically because they are focused on engaging parents and families with their children in these critical early years. Some families may not want to enroll their children in a traditional pre-school program. Child family interaction programs offer an alternative to help parents/caregivers build their capacity to support their children, and give them the tools to guiding their children when they enter the K-12 system.

Thank you for the opportunity to testify and for your consideration. Our support of this bill represents a 75% consensus or more of our membership.

Sincerely,

Cheri Nakamura

Re: Senate Bill 2975, SD1 Relating to Early Learning

Dear Chair Luke, Vice-chairs Johanson and Nishimoto and Members of the Committee:

Thank you for the opportunity to testify on SB 2975, SD1 relating to early learning. My name is Robert G. Peters and I am a retired school head of an independent school in Honolulu which has a pre-K program. I am testifying in support of appropriating funds for the executive office on early learning to enter into contracts with third party providers for family child interaction learning programs as part of a mixed-delivery system to ensure school readiness of Hawaii's children prior to kindergarten.

Research demonstrates the critical importance of early education in the life-long success for all children and recognizes that parents are a child's first teachers. As an educator and through my involvement with early learning since the creation of the early learning educational task force in 2006, I have increasingly appreciated programs that integrate parents in the educational process of their children. Not only is family engagement important in setting a child on the right course for school, but programs like the family child interaction learning programs support the education of parents about how they can best teach their own children.

Choice is something we celebrate in Hawaii. The inclusion of family child interaction learning programs as part of the early learning system for our State ensures that choice is offered and that the system is responsive to our citizenry.

I urge the legislature to consider this bill favorably as it approaches addressing the needs of Hawaii's *keiki*.

Sincerely,
Robert G. Peters, EdD

RE: SB 2975 SD1 – Relating to Early Learning

Chair Luke, Vice Chairs Nishimoto and Johanson, and members of the Committee:

My name is Cathy Ogawa and I am a former preschool teacher and preschool director and have been a part of the early learning committee for over 23 years.

I am in strong support of SB 2975 SD1, which would allow the office of early learning to enter into contracts with Family Child Interaction Learning (FCIL) programs. Hawaii is one of only ten states that does not have an established statewide early learning program, which means that we are missing a very crucial window of opportunity in the neural brain development of our young children.

SB 2975 SD1 will allow the Office of Early Learning to proceed with the development of a comprehensive early childhood system using public-private partnerships to build upon an already-existing high-quality early learning infrastructure. Due to limited resources and funds, it is imperative that the public and private sectors collaborate on this effort to ensure that all children have an equal opportunity for access to a quality early childhood education.

I have always taught preschool in formalized settings, but I strongly believe that there is no one-size-fits-all mode of delivery for that education, thus it will be important to have the support of a variety of different modes for education that a mixed-delivery system would provide. FCIL programs provide an alternative for those who do not prefer formal schooling in group child care centers and public preschools or family child care homes. FCILs also engage the families in the education of their young children, an integral part of a successful and effective early education experience.

Because my family was unable to afford preschool in a formal school setting, we participated in playgroups so that I would have opportunities for social interaction with other children my age. To this day those days are cherished memories of my childhood.

Thank you to the House Education Committee for continually demonstrating a dedication to improving the educational opportunities available to all of our children. And, I especially thank you for the opportunity to testify in strong support of this measure.

STATE OF HAWAII
DEPARTMENT OF EDUCATION
P.O. BOX 2360
HONOLULU, HAWAII 96804

LATE

Date: 03/31/2014

Committee: House Finance

Department: Education

Person Testifying: Kathryn S. Matayoshi, Superintendent of Education

Title of Bill: SB 2975,SD1(hscr1049-14) RELATING TO EARLY LEARNING.

Purpose of Bill: Makes an appropriation for the executive office on early learning to enter into contracts with third party providers for family-child interaction learning programs. Effective 7/1/2050. (SD1)

Department's Position:

The Department of Education (Department) supports the substantive content of SB 2975 SD1. The Department recognizes the importance of establishing a quality early learning system to support all children in their journey towards a college- and career-ready future in Hawaii.

STATE OF HAWAII
DEPARTMENT OF HUMAN SERVICES
P. O. Box 339
Honolulu, Hawaii 96809-0339

March 31, 2014

MEMORANDUM

TO: The Honorable Sylvia Luke, Chair
House Committee on Finance

FROM: Patricia McManaman, Director

SUBJECT: **S.B. 2975, S.D. 1 – RELATING TO EARLY LEARNING**

Hearing: Monday, March 31, 2014; 2:00 p.m.
Conference Room 308, State Capitol

PURPOSE: The purpose of S.B. 2975, S.D. 1, is to appropriate funds for the Executive Office on Early Learning to enter into contracts with third party providers for family child interaction learning programs as part of a mixed-delivery early learning system to ensure school readiness of Hawaii's children prior to entering kindergarten.

DEPARTMENT'S POSITION: The Department of Human Services (DHS) supports this bill.

Act 169, Session Laws of Hawaii 2013, established the existing child care assistance program, called Preschool Open Doors, as the statewide school readiness program and that the program will be administered by the Department of Human Services.

The Preschool Open Doors (POD) program will serve low- to moderate-income families whose late-born children are affected by the change in kindergarten entry age

in the 2014-2015 school year or whose children will be eligible for kindergarten in the following school year.

There are communities throughout the State, however, which do not have preschools available to which families could send their children, even if the families are eligible for the POD program. Families who choose family child interaction learning programs are not eligible for the POD program since family child interaction learning programs do not qualify as a preschool.

An appropriation for the Executive Office on Early Learning (EOEL) to enter into contracts with third party providers for family child interaction learning programs as part of a mixed-delivery early learning system to ensure school readiness of Hawaii's children prior to entering kindergarten would benefit families in communities where community-based preschools are not available or for families for which family child interaction learning programs are the preferred option.

Legislative approval of the Governor's Supplemental Executive Budget request of \$1 million for EOEL to contract with family child interaction learning programs will support school readiness for more of Hawaii's children.

Thank you for the opportunity to provide testimony on this bill.

PARTNERS IN DEVELOPMENT
FOUNDATION

LATE

31Mar14

To: The House Committee on Finance
From: Partners In Development Foundation
Re: Testimony in Support of SB 2975 D1: Relating to Early Learning

Aloha Chair Sylvia Luke, Vice-Chairs Nishimoto & Johansen, and members of this Committee on Finance,

Partners In Development Foundation strongly supports the intent of this legislation. As long-time providers of Family Child Interactive Learning (FCIL) preschool early education services (as opposed to day-care), to at-risk Native-Hawaiian families within our communities, we have experienced first-hand the positive effect that this mode of teaching has made in their lives. It is not just the child that learns but also the caregiver, which makes it possible for the educational process to continue within the home.

Why are FCILs important?

- 40% of keiki are NOT in preschool and in FCIL communities the statistic is as low as 20%.
- 85% of the brain develops in the first three years of life.
- One out of every three children is not reading at grade level by the third grade.
- For every \$1 spent on quality early education, the state gets \$7.00 return on its investment.
- The Parenting component of the FCIL insures that the child and *family* will be ready for the kindergarten transition.
- Family choice matters! Parents should have a variety of early childhood options from which to choose for their keiki -- options that meet their family needs.
- FCIL's foster life-long learning as it promotes the importance of caregiver involvement and being the critical support in the educational well-being of the child.

Why should you support FCIL Programming?

- Viable option for many families, especially those who choose to keep their children with them or cannot afford center-based drop-off preschool.
- FCIL programs provide free and high-quality early childhood education programming, vital and culturally responsive services to some of the state's highest need populations.
- FCIL practicing preschools are strategically placed in underserved areas where there are high concentrations of Native Hawaiians and minority populations.

Serving Hawai'i's Families, Living Hawaiian Values

A positive FCIL example is our Ka Pa'alana traveling preschool, which provides early education services to homeless communities. This in turn has helped us to develop a rapport of trust, that allow us to transition these displaced families into shelters where we can further assist in finding jobs for the adult members and in some cases, assist in getting them permanent housing.

Additionally, the Ka Pa'alana traveling preschool for the homeless is the only such program in the nation that is accredited by the National Association for the Education of Young Children (NAEYC).

The NAEYC through strict assessment procedures has determined that Ka Pa'alana's Hope Shelter preschool meets, and in many instances exceeds, the high standards required for NAEYC accreditation.

Current FCIL programs are operated by a consortium of USDOE Native Hawaiian grantees that collectively form an organization dedicated to serving communities through the FCIL education system: 'Aha Pūnana Leo, ALU LIKE, Inc., INPEACE (Institute for Native Pacific Education and Culture), Kamehameha Preschools, Keiki O Ka 'Āina Family Learning Centers and Partners in Development Foundation.

The 6 organizations independently serve 25,000 children and their families statewide, strategically located in Native Hawaiian communities, rural settings and areas where there is a gap in services for children ages 0-5.

It is clear, that if Hawai'i wants to improve school readiness for Hawai'i's Keiki while actively preparing and promoting positive parenting, the FCIL approach to learning must be considered in any future plan of comprehensive early education. FCIL programming provides supported quantified results, is highly cost effective, is able to serve the capacity needed in rural communities, and transcends cultural and socio-economic lines that are often barriers to early education by traditional center-based preschools.

The current FCIL programs are embedded in rural and Native Hawaiian communities. The infrastructure is already built and the transition to build capacity is in place.

Support of FCILs through SB 2975 SD1 sends a clear message that the State of Hawai'i is willing to diversify early learning options based on family need and choice!

Mahalo Nui,

Billy Richards
Director of Communications
Partners In Development Foundation
