

TAXBILLSERVICE

126 Queen Street, Suite 304

TAX FOUNDATION OF HAWAII

Honolulu, Hawaii 96813 Tel. 536-4587

SUBJECT: TOBACCO, Tax on other tobacco

BILL NUMBER: SB 492, HD-1

INTRODUCED BY: House Committees on Health and Higher Education

BRIEF SUMMARY: Amends HRS section 245-3 to provide that the tax on tobacco products other than large cigars shall be \$3.20 per ounce of tobacco effective January 1, 2014; provided that the tax shall be computed based on the manufacturer's listed net weight, including all fractional parts of an ounce.

Amends HRS section 245-1 to add a definition of "manufacturer's listed net weight."

Amends HRS section 245-15 to provide that on January 1, 2014, and thereafter the proceeds of the excise tax shall be apportioned as follows: (1) 12% shall be deposited to the credit of the Hawaii cancer research special fund for research and operating expenses and for capital expenditures; (2) 9% shall be deposited to the credit of the trauma system special fund; (3) 8% shall be deposited to the credit of the community health centers special fund; and (4) 8% shall be deposited to the credit of the emergency medical services special fund.

EFFECTIVE DATE: July 1, 2013

STAFF COMMENTS: Currently tobacco products, other than large cigars, are taxed at 70% of the wholesale price of the product. Beginning on January 1, 2014, tobacco products, other than large cigars shall be taxed at \$3.20 per ounce. The measure also provides that the revenues derived from the tax shall be distributed on a percentage basis into various special funds.

Care should be exercised in attempting to generate additional revenues from specific excise taxes like the tobacco tax as it should be noted that Hawaii's tax rates on these products are among the highest in the nation. Not only would another rate increase reaffirm the perception that Hawaii is a tax hell, but it would probably have an effect on the patterns of consumption of taxed product. Such a hike will, no doubt, have an effect on behavioral responses and affect actual consumption of these products and it will probable drive consumers to find other sources for these products that would not incur the tax. Mail order and Internet sales are sources of product that could escape taxation as well as black market purchases made from the military reservations in Hawaii. So instead of seeing growing collections from higher tax rates, lawmakers may just find that collections will drop due to their effects to discourage consumption and send consumers to other markets. As noted above, the higher one pushes the cost of these products, the greater the possibility of actually seeing a decline in consumption as consumers moderate or eliminate consumption. In fact, as was evidenced in the states of New Jersey and Maryland, lawmakers there counted on an increase in the cigarette tax to help balance their budgets only to learn that collections actually went down below their prior levels. Thus, care should be exercised in targeting these products for specific programs or services.

For this very reason, earmarking a portion of the tax for a specific project or program could actually put the future operations of the center in jeopardy should smoking cessation efforts be successful over time. For example, should cigarette use or consumption of other tobacco products decline, the amount earmarked for the trauma center will also decline. What will the cancer research center then do if the resources are not sufficient to maintain operations? If it is the intent of the legislature to provide adequate revenue to the Hawaii cancer research fund, a direct appropriation would be preferable.

It should be noted that the hikes in the cigarette tax have begun to have an effect on collections not only locally but also nationally. For the first time in the continual drive to raise the tax on cigarettes collections have fallen below their previous levels. It appears the bell curve has begun its descent because of a decline in consumption or a migration to purchases on the black or grey market - it appears that, as observed, the rise in tax burden has jeopardized this source of revenue. If nothing else, lawmakers need to make up their minds whether or not they see this tax as a source of revenue or a means by which to deter consumption.

It is an amusing situation to ponder. If lawmakers truly wanted to stop the consumption of this product because of its health hazards, they could just adopt an outright ban. But then what would they do for the revenues that would be lost. Thus, the taxing of tobacco products is just another reflection of how disingenuous lawmakers are when it comes to money.

UNIVERSITY OF HAWAII SYSTEM

Legislative Testimony

Written Testimony Presented Before the
House Committee on Finance
April 1, 2013, 2:00 pm
by
Michele Carbone, MD, PHD
Director
University of Hawai'i Cancer Center
University of Hawai'i at Mānoa

SB 492 SD2 HD1 – RELATING TO TOBACCO PRODUCTS

Chair Luke, Vice Chairs Nishimoto and Johanson, and Members of the Committee:

The University of Hawai'i Cancer Center strongly supports this bill, which proposes to impose an excise tax on tobacco products other than large cigars, and credit a portion of these additional moneys to the Cancer Research Special Fund.

The Cancer Center is one of only 67 National Cancer Institute-designated cancer centers in the United States. Our scientists and physicians focus on key cancers that impact the people of Hawai'i. Just as importantly, our work contributes to a global body of knowledge that leads to the development of life-saving treatments and therapies. And we engage in scientific collaborations on an international scale, from clinical trials conducted across the United States to partnership programs in Guam, Micronesia, and the Pacific.

The Cancer Center's impact extends beyond cancer research and treatment. Our researchers bring important grant funding to Hawai'i, which helps stimulate the island economy and generate good local job opportunities, consistent with the State's goal of "fueling an innovation economy."¹

This bill addresses a serious concern among health professionals that addictive tobacco products other than cigarettes – such as snuff, chewing tobacco or loose roll-your-own tobacco – are attracting a new generation of tobacco users. While the dangers of smoking are well known, national research also tells us there is no safe form of tobacco use. At least 28 chemicals in smokeless tobacco have been found to cause oral, esophageal, and pancreatic cancer,² and all tobacco products contain addictive nicotine. Yet in recent years, there has been an increase in the popularity of other tobacco products, including among young users for whom these products are particularly attractive. This is due in part to a misperception that such products do not carry health risks, and in part to marketing and accessibility.

In a recent publication³, the American Lung Association reported:

The rise in use of other tobacco products has alarming implications for public health. Successful efforts to regulate the sale and marketing of cigarettes have proven that reducing tobacco use is a winnable battle. However, with other tobacco products often subject to lower state taxes and less regulation, public health achievements to reduce the burden of tobacco use are threatened. Much like cigarettes, consumers of other tobacco products tend to be younger with more potential to become addicted. These products may also serve as gateway products, facilitating later and dual use of cigarettes at the same time as other tobacco products.

To counter the dangerous trend of the growing use of other tobacco products, the American Lung Association specifically recommends:

Equalize taxes on all tobacco products to reduce use by youth and encourage quitting. Increasing the price of tobacco products has been shown to reduce tobacco use, especially among youth. However, taxes on other tobacco products are often lower than taxes on cigarettes at the federal and state level, which makes these products cost less. For example, little cigars and cigarillos are very similar to cigarettes in their size and the way they are packaged, and with their cheaper price and lower risk perception, they are a popular substitute for cigarettes.

The tax on other tobacco products proposed in SB 492 is consistent with this policy recommendation. Furthermore, the American Lung Association specifically recommends tobacco cessation as scientific research priority:

Conduct research on how to help people quit smokeless tobacco. Compared with smoking cessation guidelines, there is little data on how to effectively assist individuals who want to stop using non-cigarette tobacco products.

Because tobacco is the leading cause of preventable death in the United States, any improvement in cessation or prevention techniques results in saved lives. The Cancer Center's Prevention and Control Program has a strong emphasis on tobacco control, is heavily involved in improving smoking cessation programs and techniques in Hawai'i, and has a national and international influence within the scientific community. (As just one example, Cancer Center researchers are currently finishing a smoking

³ American Lung Association, *Big Tobacco's Next Frontier: Sustaining Addiction and Hooking Kids with Other Tobacco Products*, accessed January 2013. <http://www.lung.org/stop-smoking/tobacco-control-advocacy/reports-resources/tobacco-policy-trend-reports/big-tobaccos-next-frontier.pdf> (Attachment 2)

cessation study on more than 1,800 adult smokers in Hawai'i.) The additional revenue generated through this bill could help support more efforts focused on non-cigarette tobacco products.

We believe this bill could have a real and meaningful impact in furthering our mission to reduce the burden of cancer through research, education, and improved patient care, with an emphasis on the unique ethnic, cultural, and environmental characteristics of Hawai'i and the Pacific. We respectfully urge you to pass this measure.

Smokeless Tobacco and Cancer

Key Points

- Smokeless tobacco is tobacco that is not burned. Smokeless tobacco is also known as chewing tobacco, oral tobacco, spit or spitting tobacco, dip, chew, and snuff/snus.
- Smokeless tobacco causes cancer and other diseases.
- Smokeless tobacco is not a safe substitute for cigarettes.

1. What is smokeless tobacco?

Smokeless tobacco is tobacco that is not burned. It is also known as chewing tobacco, oral tobacco, spit or spitting tobacco, dip, chew, and snuff. Most people chew or suck (dip) the tobacco in their mouth and spit out the tobacco juices that build up, although “spitless” smokeless tobacco has also been developed. Nicotine in the tobacco is absorbed through the lining of the mouth.

People in many regions and countries, including North America, northern Europe, India and other Asian countries, and parts of Africa, have a long history of using smokeless tobacco products.

There are two main types of smokeless tobacco:

- **Chewing tobacco**, which is available as loose leaves, plugs (bricks), or twists of rope. A piece of tobacco is placed between the cheek and lower lip, typically toward the back of the mouth. It is either chewed or held in place. Saliva is spit or swallowed.
- **Snuff**, which is finely cut or powdered tobacco. It may be sold in different scents and flavors. It is packaged moist or dry; most American snuff is moist. It is available loose, in dissolvable lozenges or strips, or in small pouches similar to tea bags. The user places a pinch or pouch of moist snuff between the cheek and gums or behind the upper or lower

lip. Another name for moist snuff is snus (pronounced “snoose”). Some people inhale dry snuff into the nose.

2. Are there harmful chemicals in smokeless tobacco?

Yes. There is no safe form of tobacco. At least 28 chemicals in smokeless tobacco have been found to cause cancer (1). The most harmful chemicals in smokeless tobacco are tobacco-specific nitrosamines, which are formed during the growing, curing, fermenting, and aging of tobacco. The level of tobacco-specific nitrosamines varies by product. Scientists have found that the nitrosamine level is directly related to the risk of cancer.

In addition to a variety of nitrosamines, other cancer-causing substances in smokeless tobacco include polonium-210 (a radioactive element found in tobacco fertilizer) and polynuclear aromatic hydrocarbons (also known as polycyclic aromatic hydrocarbons) (1).

3. Does smokeless tobacco cause cancer?

Yes. Smokeless tobacco causes oral cancer, esophageal cancer, and pancreatic cancer (1).

4. Does smokeless tobacco cause other diseases?

Yes. Using smokeless tobacco may also cause heart disease, gum disease, and oral lesions other than cancer, such as leukoplakia (precancerous white patches in the mouth) (1).

5. Can a user get addicted to smokeless tobacco?

Yes. All tobacco products, including smokeless tobacco, contain nicotine, which is addictive (1). Users of smokeless tobacco and users of cigarettes have comparable levels of nicotine in the blood. In users of smokeless tobacco, nicotine is absorbed through the mouth tissues directly into the blood, where it goes to the brain. Even after the tobacco is removed from the mouth, nicotine continues to be absorbed into the bloodstream. Also, the nicotine stays in the blood longer for users of smokeless tobacco than for smokers (2).

The level of nicotine in the blood depends on the amount of nicotine in the smokeless tobacco product, the tobacco cut size, the product's pH (a measure of its acidity or basicity), and other factors (3).

A Centers for Disease Control and Prevention study of the 40 most widely used popular brands of moist snuff showed that the amount of nicotine per gram of tobacco ranged from 4.4 milligrams to 25.0 milligrams (3). Other studies have shown that moist snuff had between 4.7 and 24.3 milligrams per gram of tobacco, dry snuff had between 10.5 and 24.8 milligrams per gram of tobacco, and chewing tobacco had between 3.4 and 39.7 milligrams per gram of tobacco (4).

6. Is using smokeless tobacco less hazardous than smoking cigarettes?

Because all tobacco products are harmful and cause cancer, the use of all of these products should be strongly discouraged. There is no safe level of tobacco use. People who use any type of tobacco product should be urged to quit. For help with quitting, refer to the NCI fact sheet *Where To Get Help When You Decide To Quit Smoking*.

As long ago as 1986, the advisory committee to the Surgeon General concluded that the use of smokeless tobacco “is not a safe substitute for smoking cigarettes. It can cause cancer and a number of noncancerous oral conditions and can lead to nicotine addiction and dependence” (5). Furthermore, a panel of experts convened by the National Institutes of Health (NIH) in 2006 stated that the “range of risks, including nicotine addiction, from smokeless tobacco products may vary extensively because of differing levels of nicotine, carcinogens, and other toxins in different products” (6).

7. **Should smokeless tobacco be used to help a person quit smoking?**

No. There is no scientific evidence that using smokeless tobacco can help a person quit smoking (7). Because all tobacco products are harmful and cause cancer, the use of all tobacco products is strongly discouraged. There is no safe level of tobacco use. People who use any type of tobacco product should be urged to quit. For help with quitting, ask your doctor about individual or group counseling, telephone quitlines, or other methods.

8. **How can I get help quitting smokeless tobacco?**

NCI offers free information about quitting smokeless tobacco:

- Call NCI’s **Smoking Quitline** at **1-877-44U-QUIT (1-877-448-7848)**. Talk with a smoking cessation counselor about quitting smokeless tobacco. You can call the quitline, within the United States, Monday through Friday, 8:00 a.m. to 8:00 p.m., Eastern time.
- Use **LiveHelp online chat**. You can have a confidential online text chat with an NCI smoking cessation counselor Monday through Friday, 8:00 a.m. to 11:00 p.m., Eastern time.

The National Institute of Dental and Craniofacial Research, the NIH agency that supports dental, oral, and craniofacial research, offers a guide for quitting called *Smokeless Tobacco: A Guide for Quitting* and other information about smokeless tobacco.

For other resources, you may be interested in the NCI fact sheet *Where To Get Help When You Decide To Quit Smoking*.

BIG TOBACCO'S NEXT FRONTIER

Sustaining Addiction & Hooking Kids with Other Tobacco Products

Tobacco product manufacturers are gaining traction in attracting a whole new generation of replacement tobacco users while they fight to sustain current smokers' addiction. As sales of cigarettes stagnate, tobacco companies are adjusting business models to move toward selling other addictive tobacco products. Evidence also suggests that the industry is marketing its products to youth and minority communities – much like was previously done with cigarettes.

In the last decade, two of the largest tobacco companies, R.J. Reynolds and Philip Morris, purchased smokeless and/or cigar manufacturing companies to expand into the other tobacco products market. Advertising by the five largest smokeless tobacco manufacturers, some of which are now owned by these companies, more than doubled from approximately \$251 million in 2005 to \$548 million – \$1.5 million dollars per day – in 2008.¹ While consistent data does not exist on advertising and marketing by cigar manufacturers, a recent CDC study found that the sale of cigars and loose tobacco increased 123 percent and the sale of large cigars specifically increased by 233 percent from 2000 to 2011.²

Throughout this issue brief, we'll often refer to "other tobacco products." For this brief, that definition includes tobacco products other than cigarettes including cigars, smokeless tobacco and roll-your-own tobacco.

Advertising for other products, including flavored tobacco products and cigars, targets young smokers.^{3,4} Fruit- and candy-like flavors, such as strawberry and chocolate, may no longer be characterizing flavors of cigarettes, but are common in little cigars and other types of tobacco products.⁴ Flavored tobacco products are especially attractive to youth and can disguise the taste of tobacco.^{3,5}

While most tobacco products are highly addictive,⁶ the public perception (especially among younger users) is that tobacco products like cigars are less likely to cause harmful health effects.⁴ Industry marketing contributes to these misperceptions through advertisements that encourage cigarette smokers to switch to smokeless tobacco products rather than quitting, or to use them in smokefree environments, which is referred to as dual use.^{7,8} Public education and more aggressive regulation of these products are needed to ensure continued progress in reducing tobacco use.

Dangerous Attraction—Other Tobacco Products

Other tobacco options include various forms of cigars and smokeless products. Among the new tobacco products are dissolvables: a flavored, finely milled tobacco product that melts in the mouth. Dissolvables are being marketed for use in places where smoking is prohibited and as an alternative to cigarettes for smokers who want to quit.⁹ However, the products themselves and their packaging are designed to look like candy and appeal to young people.¹⁰ (The American Lung Association will address novel tobacco products including dissolvables in a forthcoming issue brief.)

Smokeless tobacco products include traditional dip, snuff, and chewing tobacco. Other products that are smoked include little cigars, cigars, pipes, bidis, kreteks, and roll-your-own tobacco used to make cigarettes. Hookahs can also be included among attractive, yet dangerous alternatives to cigarettes. More details about these products are provided in the glossary on page 4.

Between 1997 and 2007 sales of little cigars, which often look very similar to cigarettes, more than doubled.¹¹ Little cigars are often less expensive than cigarettes due to unequal tax laws, enhancing the appeal to youth as this population is sensitive to prices.¹² According to the 2010 Substance Abuse and Mental Health Services Administration (SAMHSA) National Survey on Drug Use and Health, more than one out of every 10 Americans from the age of 18 to 25 had smoked a cigar within the last month.¹³ Smokeless tobacco product advertising expenditures more than doubled between 2005 and 2008.¹⁴

The use of some non-cigarette tobacco products appears to be increasing especially among certain segments of the population. Smokeless tobacco use is typically higher among male students (12.8 percent) compared to females (2.2 percent).¹⁴ In

2011, smokeless tobacco use among high school boys exceeded 20 percent in ten states, including Arkansas, Kentucky, Montana, North Dakota, Oklahoma, South Carolina, South Dakota, Tennessee, West Virginia, and Wyoming.¹⁴

According to recent surveys, in 2009, 10.9 percent of U.S. high school students and 3.9 percent of middle school students reported using cigars.¹⁵ Overall, the percentage of high school boys using cigars (17.8 percent) is on par with their cigarette use (19.9 percent).¹⁴ Individuals who use cigar products are more likely to use multiple tobacco products when compared with cigarette smokers.⁶ For example, one study found 12.8 percent of adult cigarette smokers in Cuyahoga County, Ohio used multiple products versus 63.9 percent of cigar smokers and 80.5 percent of little cigar smokers.¹⁶ This dual use was especially true for African Americans and low income smokers.¹⁶

There is a notable gap in data on the use of other tobacco products among lesbian, gay, bisexual and transgender (LGBT) communities. As the American Lung Association highlighted in *Smoking Out a Deadly Threat: Tobacco Use in the LGBT Community*, LGBT individuals are especially vulnerable to tobacco use as a result of heavy targeted marketing to this group; however, few states report data on smoking patterns and sexual orientation. Findings from states that track these data reveal smoking rates are consistently higher among LGBT people.¹⁷ A national survey of college students confirmed higher rates of smoking in the LGB community when compared with straight peers.¹⁸ The American Lung Association has urged the Department of Health and Human Services to move forward with its 2011 proposal to expand data collection standards, including adding questions regarding LGBT status, in part to remedy this lack of data.

American Lung Association's Glossary of Other Tobacco Products

<p>BIDIS</p>		<p>Bidis are thin cigarettes wrapped in leaves. Bidis come in many flavors and are similar in size to cigarettes, but have no filters. More nicotine, tar and carbon monoxide may be in bidis than in conventional cigarettes. Users may also puff more frequently. Health effects may include an increased risk of cancer of the lips, mouth and throat.^{19,20}</p>
<p>BLUNTS</p>		<p>Blunts are hollowed out cigars filled with marijuana.</p>
<p>CHEWING TOBACCO</p>		<p>Chewing tobacco can be purchased in wads, leaves or plugs. It is placed between one's gum and cheek. When the tobacco comes in contact with saliva it releases nicotine that is absorbed directly through the skin.²¹</p>
<p>CIGARS</p>		<p>Cigars are tobacco products that are rolled in a tobacco leaf or a substance containing tobacco, and come in varying sizes. Smaller cigars are sometimes called little cigars or cigarillos.²² Smaller cigars are available in a variety of flavors and those that are similar in size to cigarettes are sold in packs of 20 or individually. Because these products are often taxed less than cigarettes, they often cost less. Health effects are similar to cigarettes—e.g. increase in risk of cancers of the lips, mouth and throat and an increased risk of heart attack and stroke.^{6,23} Cigars are not currently regulated by the U.S. Food and Drug Administration (FDA), but FDA can assert authority to regulate them at any time.</p>
<p>HOOKAHS</p>		<p>Hookahs are water pipes used to pass charcoal-heated air through a tobacco mixture and ultimately through a water-filled chamber. The charcoal or burning embers are placed on top of a perforated aluminum foil and the tobacco mixture is placed below. The user inhales the water-filtered smoke through a tube and mouthpiece. The water lowers the temperature of the smoke.^{24,25} The American Lung Association has issued a policy brief on hookah smoking entitled "Hookah Smoking – A Growing Threat to Public Health."</p>
<p>KRETEKS</p>		<p>Kreteks are clove-containing cigarettes mostly imported from Indonesia. They may contain more nicotine, tar and carbon monoxide than conventional cigarettes.²⁶ The clove and tobacco mixture has a pungent smell. Harmful health effects may include direct damage to the lungs.²⁶ The sale of kreteks in cigarette form was prohibited in the Family Smoking Prevention and Tobacco Control Act and has been the subject of a World Trade Organization dispute.</p>
<p>SNUFF</p>		<p>Snuff or dip is a finely ground, cured form of tobacco. It can be purchased as a dry powder or in moist forms. It is placed between one's gum and cheek. The tobacco releases nicotine and the nicotine is absorbed directly through the skin.²¹</p>
<p>ROLL-YOUR-OWN OR LOOSE TOBACCO</p>		<p>Roll-your-own or loose tobacco is tobacco that does not come wrapped in paper or tobacco leaf but is used by consumers to make cigars or cigarettes. Federal taxes on roll-your-own tobacco are identical to cigarettes but are often less at the state level. Recently, roll-your-own machines that smokers can use to quickly turn loose or pipe tobacco into cigarettes have been proliferating in retail establishments in some states. These machines produce generic cigarettes that can be sold for much less than manufactured tobacco products.</p>
<p>PIPE TOBACCO</p>		<p>Pipe tobacco has historically been used in pipes, but many manufacturers have begun to label roll-your-own tobacco as pipe tobacco to avoid higher federal taxes and to make cheaper cigarettes for their customers. This has caused sales of pipe tobacco to increase substantially – from 240,000 pounds in January of 2009 to over 3 million pounds as of September 2011.²⁷</p>

Addressing Public Health Concerns

The rise in use of other tobacco products has alarming implications for public health. Successful efforts to regulate the sale and marketing of cigarettes have proven that reducing tobacco use is a winnable battle. However, with other tobacco products often subject to lower state taxes and less regulation, public health achievements to reduce the burden of tobacco use are threatened. Much like cigarettes, consumers of other tobacco products tend to be younger with more potential to become addicted.⁴ These products may also serve as gateway products, facilitating later and dual use of cigarettes at the same time as other tobacco products.^{15,16} To effectively counter the dangerous trend of the growing use of other tobacco products, public health efforts should consider the following:

Some tobacco products are perceived to be safer than cigarettes.

A number of users of cigars and other tobacco products mistakenly believe they are safer and less likely to cause the significant health effects associated with cigarette smoking.^{3,4} Smokeless products, cigars and cigarillos contain a form of nicotine that is more readily absorbed through the lips and the skin inside the mouth. These products can deliver a dose of nicotine that is equivalent to what would be absorbed through the lungs during cigarette smoking,^{23,28} and are just as addictive. Moreover, use of cigars, cigarillos and smokeless products can lead to cancers of the mouth and esophagus.^{23,29} Little cigars are more likely to be inhaled than traditional cigars,³⁰ and inhaling cigar smoke can expose smokers to similar health risks as cigarettes such as coronary heart disease because cigar smoke contains the same toxic substances.^{6,23} Hookahs also have similar health risks.^{24,25}

Deceptive marketing techniques increase the appeal of other tobacco products.

Manufacturers have employed various marketing techniques to increase the use of other tobacco products. Manufacturers have added flavorings to tobacco, which may make it more appealing.^{4,5} Kreteks, for example, contain cloves combined with tobacco.²⁶ Products are now available in many flavors.^{4,5}

Smokeless tobacco products also provide an alternative way of marketing to youth and adults in a world of increasing smokefree environments, as tobacco companies often encourage the use of smokeless tobacco in smokefree settings. Tobacco companies have also started to encourage smokers to switch to smokeless tobacco products rather than quit smoking. For example, during the American Cancer Society's Great American Smoke-Out in 2011, R.J. Reynolds ran an [advertisement](#) that encouraged smokers to switch to smokeless tobacco instead of quitting.

Industry targeting of youth, women and minorities poses a serious threat to public health.

Other tobacco products have the potential for harm—a reality not often highlighted in advertisements or products targeted to young people. These ads often attempt to lure youth and young adults by linking the use of tobacco products to increased popularity, luxury, status or success.^{12,22} Industry advertising has helped to encourage young people to start smoking.²³ Tobacco advertising has also prominently featured women, especially women smoking cigars, in an attempt to increase the adoption of cigar smoking among women.²³

Tobacco companies also aggressively market tobacco products to racial and ethnic minorities. Studies have shown that advertising of tobacco products occurs more often in African American neighborhoods.^{31,32} Moreover use of cigars is more common among African Americans than Whites. Data from the 2010 National Survey on Drug Use and Health show that African-American adults are significantly more likely to smoke cigars (8.0 percent) compared to Whites (5.3 percent).¹³ The top cigar brands are consistently Black and Mild, Swisher Sweets, Phillies, White Owl, and Garcia y Vega. When controlling for gender, age and education, African Americans were still more likely than Whites to smoke cigars of any brand and even more likely to smoke one of the five most popular brands.⁴

Fruit flavorings increase the attractiveness of little cigars.

National sales data from recent years have shown that flavored cigars make up a significant portion of sales at convenience stores.⁵ The list of flavorings that are added to these cigars are quite extensive as well.⁵ Flavored products can mask the taste and smell of tobacco, making them more appealing to youth and young adults.⁵ Advertisements for these products include terms like mild and sweet, which when used on cigarette packaging has led to the perception of lower risk for users.^{11,33,34}

Recommendations

Despite decreases in overall tobacco use, especially among young people, much work remains to be done. Action is needed to sustain and avert a reversal of the nation's progress in reducing tobacco use. Reducing the threat of other tobacco products can be achieved through the actions outlined below.

- 01 Reduce the consumption of flavored other tobacco products.** While most flavorings are prohibited in cigarettes, the FDA has not put in place a regulation to prohibit flavorings in smokeless tobacco products, or asserted jurisdiction and regulatory control over many other tobacco products. Because flavored tobacco products have been shown to be used more by youth, restrictions on flavored tobacco products should be pursued at the federal, state, and local level.
- 02 Reduce youth access to other tobacco products at the state and local level.** Policies often prohibit access to cigarettes and smokeless tobacco by youth, like requiring these products to be kept behind the counter in retail stores, but sometimes these policies do not apply to other tobacco products. As part of a comprehensive approach to limiting use of other tobacco products, access should be restricted for all tobacco products.
- 03 Expand comprehensive tobacco-free facilities such as campuses and workplaces.** In some communities, workplaces and campuses are becoming tobacco free. These practices and programs can limit exposure to secondhand smoke. They also incentivize quitting behavior by limiting tobacco users' access to places where they can use tobacco products.
- 04 Equalize taxes on all tobacco products to reduce use by youth and encourage quitting.** Increasing the price of tobacco products has been shown to reduce tobacco use especially among youth. However, taxes on other tobacco products are often lower than taxes on cigarettes at the federal and state level, which makes these products cost less. For example, little cigars and cigarillos are very similar to cigarettes in their size and the way they are packaged, and with their cheaper price and lower risk perception, they are a popular substitute for cigarettes.⁴ In its report to Congress on tobacco tax disparities, the Government Accountability Office included in its recommendation that "Congress may wish to consider equalizing tax rates on roll-your-own and pipe tobacco and, in consultation with Treasury, also consider options for reducing tax avoidance due to tax differentials between small and large cigars."²⁷
- 05 Increase availability of resources to help people quit tobacco use.** Resources and services to help people quit tobacco are limited in states that are not properly funding cessation services and where cessation coverage benefits are not comprehensive. Even fewer resources are available for smokeless tobacco users.³⁵ For people living in rural areas these resources may be even less available than in urban centers.³⁶ To make it easier to quit, tobacco prevention and cessation programs should be funded at the Centers for Disease Control-recommended levels. All tobacco users also need comprehensive cessation benefits.
- 06 Conduct research on how to help people quit smokeless tobacco.** Compared with smoking cessation guidelines, there is little data on how to effectively assist individuals who want to stop using non-cigarette tobacco products.
- 07 Increase availability of tobacco cessation programs to youth.** More evidence is needed concerning the effectiveness of tobacco cessation treatment among youth.³⁷ Additionally, tobacco use reduction programs should be more widely available. One approach is to focus on settings where youth congregate. Research suggests behavioral interventions can be effective in reducing tobacco use when delivered in school settings.³⁷ The use of counseling and other behavioral interventions, some with the additional use of cessation aids, have been effective in other settings.³⁸

Conclusions

Public health officials and policymakers must be made aware that other tobacco products pose a real risk to the health of young people and to public health as a whole. Some of these products are not cigarettes, but share cigarette characteristics like size, shape and packaging while lacking the higher prices and regulations that apply to cigarettes. This has contributed to the popularity of these other tobacco products as replacement products for cigarettes that lead youth to begin a lifelong addiction to tobacco.

Other tobacco products are for the most part not yet subject to the Tobacco Control Act. Other tobacco products are also often taxed at lower rates than cigarettes, which only increases their popularity. Despite these obstacles, there are opportunities at the federal, state and local levels to reverse these trends. A more aggressive regulatory approach, coupled with measures to change the public perception that these products are less harmful than cigarettes, are necessary steps if the U.S. is to continue its efforts to reduce tobacco use. If the popularity and misperceptions about the health effects of using other tobacco products is not reversed, there could be a continued increase in the use of other tobacco products, as well as dual use, which has been seen for some products over the past decade. This is especially problematic for youth because introduction to tobacco products at younger ages can translate to a lifetime of use and addiction.

Nicholete Robino	Let's Roll Hawaii	Oppose	No

Comments: 29 March 2013 Honorable Chairperson and Members of the Committee: I am writing to you today in opposition of SB492. As a citizen of this state, a business owner, and a smoker, I am horrified that my representation believes that taxing any good an additional 100% or more, when it is already being taxed at 70% of the wholesale price, is responsible government. This issue is cyclical in nature. The higher the taxation on tobacco products (which never seems to include large cigars interestingly enough), the less inclined people are to smoke; but if fewer people smoke, the revenue generated for the state is significantly decreased, leading to another tax increase on tobacco products to make up for the lost income. Any legislation regarding tobacco should not be passed as flippantly as it has been in the past. We have already had a 1500% tax increase on tobacco since 1998, in 2010 smokers in Hawaii paid \$185 million in taxes, and still you wish to increase our taxes. I do not believe that any demographic should be singled out to be overtaxed and treated like pariahs by the government for legal activity. Now, some of you may address this as a "public health issue", but it is already illegal to smoke in bars, restaurants, within 20 feet of any public enclosed area, and as of recent, it is also illegal to smoke in any public housing area. It seems that the government has dealt with the "public" part of the issue and is now trying to control the personal choices of its citizens through outrageous taxation. The concept of personal freedom should not just be political rhetoric. If the goal of this legislature is to make this state smoke free, tobacco should be made illegal; and because that has not happened, it is clear that this bill is solely about money and state revenue. Perhaps the 36% increase in pay and "legislative allowance" the legislature gave its self at the beginning of the recession in 2008 (which totals \$973,408 a year NOT including the increase in "legislative allowance") could be put toward the cancer research fund instead of the legislature demanding the outlandish taxation of one demographic. Thank you for your time and consideration on this issue. Aloha, Nicholete Robino Let's Roll Hawaii at Kokea 1111 Dillingham Blvd E4 Honolulu, HI 96817 (808) 845-9800

Comments: Members of the House and Senate are charged amongst other things, with fiscal responsibility. This proposed bill is extremely unfair and irresponsible. I oppose it and you should, too. The point is it is wrong to target one group for a disproportionately large increase in taxes to make up for spending more than you should in other areas. (It does not matter what your personal opinions are on tobacco use; it is not for you to decide what is best for each individual adult as long as no laws are being broken.) Secondly, the repercussions of such an unfair and unreasonable tax burden on a single group of people will certainly include increased underground activity to make purchases in other states or countries in order to avoid our exorbitant taxes, thereby driving legitimate local business out, and ultimately taking more money away from Hawaii's economy.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers and the small businesses that serve them in Hawaii. As a retailer, the ever-increasing tobacco taxes hurt my business and could cost much-needed jobs in this challenging economy.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다. 소매업체의 입장에서는 갈수록 증가하는 담배세는 생업에 지장을 주고 어려운 경제 상황에서 절실한 일자리에 영향을 줄 수 있습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 썸는 담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers and the small businesses that serve them in Hawaii. As a retailer, the ever-increasing tobacco taxes hurt my business and could cost much-needed jobs in this challenging economy.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다. 소매업체의 입장에서는 갈수록 증가하는 담배세는 생업에 지장을 주고 어려운 경제 상황에서 절실한 일자리에 영향을 줄 수 있습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 썸는 담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers and the small businesses that serve them in Hawaii. As a retailer, the ever-increasing tobacco taxes hurt my business and could cost much-needed jobs in this challenging economy.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다. 소매업체의 입장에서는 갈수록 증가하는 담배세는 생업에 지장을 주고 어려운 경제 상황에서 절실한 일자리에 영향을 줄 수 있습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 씹는 담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers and the small businesses that serve them in Hawaii. As a retailer, the ever-increasing tobacco taxes hurt my business and could cost much-needed jobs in this challenging economy.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다. 소매업체의 입장에서는 갈수록 증가하는 담배세는 생업에 지장을 주고 어려운 경제 상황에서 절실한 일자리에 영향을 줄 수 있습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 썸는 담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers and the small businesses that serve them in Hawaii. As a retailer, the ever-increasing tobacco taxes hurt my business and could cost much-needed jobs in this challenging economy.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다. 소매업체의 입장에서는 갈수록 증가하는 담배세는 생업에 지장을 주고 어려운 경제 상황에서 절실한 일자리에 영향을 줄 수 있습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 썩는 담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers and the small businesses that serve them in Hawaii. As a retailer, the ever-increasing tobacco taxes hurt my business and could cost much-needed jobs in this challenging economy.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다. 소매업체의 입장에서는 갈수록 증가하는 담배세는 생업에 지장을 주고 어려운 경제 상황에서 절실한 일자리에 영향을 줄 수 있습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 썬담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 썬담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers in Hawaii.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers in Hawaii.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers in Hawaii.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

하와이를 위한 더 나은 선택에 지지를 보내주십시오

과거 수년간 하와이에서는 성인 담배 소비자들에 대한 불공정한 과세 논란이 있었습니다.

지난 10년 동안 하와이에서는 담배류에 대해 10건의 소비세 인상이 있었는데, 그 중 9건은 이 기간 중 세금을 담배 한 갑당 1.00 달러에서 3.20 달러로 인상시켰으며, 1건은 2009년에 썬담배에 부과되었습니다.

열심히 일하는 이곳의 성인들은 이미 국내에서 가장 높은 수준의 담배세를 내고 있습니다. 어려운 결정이라는 것은 이해하지만 호놀룰루의 선출 공직자들은 이들에게 세금을 무더기로 부과하는 대신 국가의 예산 제약에 대한 실질적인 해결책을 모색해야 할 것으로 저는 생각합니다.

예, 저는 제 목소리를 내고 싶습니다.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers in Hawaii.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers in Hawaii.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

YES, I WANT TO MAKE MY VOICE HEARD.

STAND UP FOR BETTER SOLUTIONS IN HAWAII

Over the years, there has been an unsettling trend toward unfair taxation of adult tobacco consumers in Hawaii.

In the last decade, there have been 10 tobacco excise tax increases in Hawaii: 9 tax increases on cigarettes, which raised taxes from \$1.00 to \$3.20 per pack over this period, and 1 tax that was imposed on smokeless tobacco in 2009.

Although I appreciate the tough decisions that must be made, I believe our elected officials in Honolulu should find real solutions to the state's budget constraints instead of piling on taxes on hardworking adults who already pay some of the highest tobacco tax rates in the nation.

March 29, 2013

TO: Chair Sylvia Luke and Members of the Committee on Finance

FROM: Cigar Association of America, Inc.
(William Goo)

RE: SB 492 HD1 - Relating to Tobacco Products
Hearing Date: April 1, 2013
Time: 2:00 p.m.

My name is William Goo. I represent the Cigar Association of America, Inc. (CAA).

CAA opposes SB 492 HD1 as it relates to **pipe tobacco**. The bill's intent is to tax tobacco products other than large cigars including loose or roll-your-own tobacco at a rate of \$3.20 per net ounce of tobacco in an attempt to equalize the tax rate on these products with that of the tax rate on cigarettes.

The only similarity between **pipe tobacco**, chewing tobacco and cigarettes is that they are all made from tobacco. **Pipe tobacco** is not consumed in the same manner as cigarettes nor would cigarette consumers substitute cigarettes for a pipe and aromatic pipe tobacco.

If it is the legislature's intent to dissuade the temptation to purchase less expensive products such as roll-your-own cigarette tobacco, any tax increase should apply only to that specific product and not to **pipe tobacco**. To tax **pipe tobacco** at a rate that is higher than the current rate which is already among the highest in the nation would effectively destroy a very small niche market enjoyed by adult consumers who have responsibly chosen to use it.

Thank you for considering this testimony.

To: The Honorable Sylvia Luke, Chair
and Members of the House Committee on Finance

Date: Monday, April 1, 2013
Time: 2:00 p.m.
Place: Conference Room 308, State Capitol

From: Les Drent
for the Hawaii Cigar Association

Re: SB492 SD2, HD1 Relating to Tobacco Products

The Hawaii Cigar Association, Kauai Cigar Company and others who buy and sell premium cigars in Hawai'i **strongly encourage you to amend S.B. 492** to bring further tax parity to HRS section 245-1. In 2013 Hawai'i Senate agreed that premium cigar sellers whose products are intended for adult consumers (including cigars produced with Hawai'i-grown tobacco) are unfairly burdened by the current percentage tax. They acknowledged that this tax places Hawai'i cigar retailers at a disadvantage when competing with those selling cheaper cigars through mail order. The Legislature further acknowledged that few if any consumers filed usage taxes for mail order purchases, creating a loss of revenue for the state.

Island retailers estimate that 90 percent of all mail order cigars bought in Hawai'i are purchased from unlicensed sources. If you doubt the impact this has on tax revenue, consider that the state collected nearly \$1.6 million in large cigar taxes in 2011, yet there were only sixty-nine filings (fewer than six a month on average) for that year from unlicensed sources.

Under the proposed amendment, a flat rate tax of \$.50 would be applied to cigars meeting the definition of a premium cigar. This would incentivize Hawai'i residents to purchase competitively priced cigars from legitimate in-state sources, generating an additional \$1 million in tax revenue. (That estimate is based on the \$2 average wholesale price of a premium cigar).

Under the current tax regime, and after subtracting the Federal tax of \$.40 per cigar, a tax of \$.80 per premium cigar is assessed by dealers and wholesalers, bringing the average wholesale price to \$2.80, or \$5.60 on average when retailed. This can seriously distort the retail price of a premium cigar sold in Hawai'i. For example, the Kauai Cigar Company is taxed between \$1.60 to \$2 on cigars costing \$4 or more under the current 50 percent ad valorem. Once that cigar is keystoned for retail, it costs \$10 to \$12. Why would any Hawai'i consumer purchase premium cigars at these prices when they can buy a similar cigar through mail order at half the price?

If you doubt the potential windfall in added revenue that a flat tax on cigars would provide, consider the cigarette tax stamp implemented in 2000 as an analogy. In that case tobacco tax revenue jumped from \$42 million in 2000 to more than \$66 million in 2002. This was the direct result of a weakened black market and fewer sales of untaxed cigarettes, along with

For More Information on the Hawaii Cigar Association please visit

hawaiicigarassociation.org

enforcement by the Attorney General's Tobacco Tax Enforcement Unit. There is good reason to believe that a similar jump in revenue would occur with premium cigars once the disparity created by the ad valorem 50 percent tax is resolved.

According to a 2012 United States Department of Commerce Economic & Statistics Administration Report, mail order and electronic sales have grown at the staggering rate of 14 percent per year on average over the past decade. Empirical data show that states such as Oregon, Rhode Island, Washington, Wisconsin and Iowa that have high tobacco taxes but that also cap cigar taxes at \$.50 have generated significantly higher tax revenue—the direct result of relieving a competitive disadvantage afflicting local business.

Last week the Arkansas state legislature joined Connecticut, Iowa, Oregon, Washington, Rhode Island, Michigan, Wisconsin and Vermont in recognizing that a tax cap or flat rate tax on cigars encourages more in-state sales of premium cigars, leading ultimately to higher tax revenue. In my humble opinion, Hawai'i should be next.

On behalf of all those in our state who support the premium cigar industry, we thank you for your effort to bring parity to all under Hawai'i law.

Sincerely,

A handwritten signature in cursive script, appearing to read "Les Drent".

A BILL FOR AN ACT

RELATING TO TOBACCO PRODUCTS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The legislature finds that tobacco use is the single most preventable cause of disease, disability, and death in the United States. Tobacco use continues to be a problem in Hawaii, causing approximately one thousand one hundred deaths per year among adults. An estimated twenty-seven thousand four hundred children in Hawaii currently under the age of eighteen will ultimately die prematurely from smoking. Tobacco use poses a heavy burden on Hawaii's health care system and economy. Each year, smoking costs approximately \$336,000,000 in health care expenditures and \$320,000,000 in lost productivity in the State.

The legislature further finds that tobacco products are addictive and inherently dangerous, causing many different types of cancer, heart disease, and other serious illnesses. Hawaii has a substantial interest in reducing the number of individuals of all ages who use tobacco products, and a particular interest in protecting adolescents from tobacco dependence and the illnesses and premature death associated with tobacco use.

The legislature additionally finds that taxes on tobacco products should be similar to the tax rates already imposed on

cigarettes. Tobacco products other than cigarettes are currently taxed at a lower rate than cigarettes, even though their use carries similar health risks. Research has shown that either a tax on cigarettes or cigarette price increases have the propensity to reduce the rate of smoking by adult and youth smokers. However, the legislature is concerned that as the price of cigarettes increases, smokers may be tempted to purchase less expensive tobacco products, including loose or roll-your-own tobacco.

The legislature further finds that premium cigar sellers whose products are made for adult consumers, including cigars produced with Hawaii-grown tobacco, are unfairly burdened as a result of a percentage tax. As a result, cigar retailers are put at a competitive disadvantage when lower priced cigars can be purchased legally through mail order sales. The legislature further finds that few, if any, consumers file usage taxes for cigars purchased through mail order sale, creating a loss of revenue for the State.

The legislature finds that there should not be a lower-priced tobacco alternative to cigarettes in Hawaii; therefore a similar tax rate for cigarettes and tobacco products that acts as a deterrent for all forms of tobacco use is needed. Higher tobacco product prices will encourage tobacco users to quit, sustain cessation, prevent youth initiation, and reduce consumption among those who continue to use tobacco.

It is the legislature's intent for loose and roll-your-own tobacco to be considered a tobacco product subject to the excise tax under this Act.

The purpose of this Act is to:

- (1) Impose an excise tax equal to \$3.20 per net ounce of tobacco for each article or item of tobacco products, other than large cigars and premium cigars, sold by a wholesaler or dealer on and after January 1, 2014;
- (2) Curtail tobacco use among adolescents and young adults by raising tobacco taxes, while not placing the local premium cigar industry at a competitive disadvantage as a result of a percentage tax;
- (3) Help the State of Hawaii collect more tax revenue as a result of in-state cigar sales; and
- (4) Provide for the allocation of the additional moneys collected under the excise tax for specified purposes.

SECTION 2. Section 245-1, Hawaii Revised Statutes, is amended as follows:

1. By adding a new definition to be appropriately inserted and to read as follows:

""Manufacturer's listed net weight" means the weight of the finished product as shown or listed by the product manufacturer on the tobacco product can, package, or shipping container."

2. By adding a new definition to be appropriately inserted and to read as follows:

""Premium cigar" means a cigar that is made entirely by hand of all natural tobacco leaf, hand-constructed and hand-

wrapped, with no filter or artificial flavors, wholesaling for \$2 or more per cigar."

3. By amending the definition of "tobacco products" to read:

"Tobacco products" means tobacco in any form other than cigarettes or little cigars, that is prepared or intended for consumption or for personal use by humans, including large cigars, premium cigars, and any substitutes thereof other than cigarettes that bear the semblance thereof, snuff, chewing or smokeless tobacco, and smoking or pipe tobacco."

SECTION 3. Section 245-3, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) Every wholesaler or dealer, in addition to any other taxes provided by law, shall pay for the privilege of conducting business and other activities in the State:

- (1) An excise tax equal to 5.00 cents for each cigarette sold, used, or possessed by a wholesaler or dealer after June 30, 1998, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (2) An excise tax equal to 6.00 cents for each cigarette sold, used, or possessed by a wholesaler or dealer after September 30, 2002, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (3) An excise tax equal to 6.50 cents for each cigarette sold, used, or possessed by a wholesaler or dealer

after June 30, 2003, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;

- (4) An excise tax equal to 7.00 cents for each cigarette sold, used, or possessed by a wholesaler or dealer after June 30, 2004, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (5) An excise tax equal to 8.00 cents for each cigarette sold, used, or possessed by a wholesaler or dealer on and after September 30, 2006, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (6) An excise tax equal to 9.00 cents for each cigarette sold, used, or possessed by a wholesaler or dealer on and after September 30, 2007, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (7) An excise tax equal to 10.00 cents for each cigarette sold, used, or possessed by a wholesaler or dealer on and after September 30, 2008, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;
- (8) An excise tax equal to 13.00 cents for each cigarette sold, used, or possessed by a wholesaler or dealer on and after July 1, 2009, whether or not sold at

wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;

(9) An excise tax equal to 11.00 cents for each little cigar sold, used, or possessed by a wholesaler or dealer on and after October 1, 2009, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;

(10) An excise tax equal to 15.00 cents for each cigarette or little cigar sold, used, or possessed by a wholesaler or dealer on and after July 1, 2010, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;

(11) An excise tax equal to 16.00 cents for each cigarette or little cigar sold, used, or possessed by a wholesaler or dealer on and after July 1, 2011, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer;

(12) An excise tax equal to seventy per cent of the wholesale price of each article or item of tobacco products, other than large cigars and premium cigars, sold by the wholesaler or dealer on and after September 30, 2009, but before January 1, 2014, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer; [~~and~~]

(13) An excise tax equal to \$3.20 per ounce in each article or item of tobacco products, other than large cigars and premium cigars, sold by the wholesaler or dealer on and after January 1, 2014, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer; provided that the tax shall be computed based on the manufacturer's listed net weight, including all fractional parts of an ounce;

~~[(13)]~~ (14) An excise tax equal to fifty per cent of the wholesale price of each large cigar of any length, sold, used, or possessed by a wholesaler or dealer on and after September 30, 2009, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer; and

(15) An excise tax equal to 50.00 cents for each premium cigar of any length and sold, used, or possessed by a wholesaler or dealer on and after January 1, 2014, whether or not sold at wholesale, or if not sold then at the same rate upon the use by the wholesaler or dealer.

Where the tax imposed has been paid on cigarettes, little cigars, or tobacco products that thereafter become the subject of a casualty loss deduction allowable under chapter 235, the tax paid shall be refunded or credited to the account of the wholesaler or dealer. The tax shall be applied to cigarettes through the use of stamps."

SECTION 4. Section 245-15, Hawaii Revised Statutes, is amended to read as follows:

"§245-15 Disposition of revenues. All moneys collected pursuant to this chapter shall be paid into the state treasury as state realizations to be kept and accounted for as provided by law; provided that, of the moneys collected under the tax imposed pursuant to:

(1) Section 245-3(a)(5), after September 30, 2006, and prior to October 1, 2007, 1.0 cent per cigarette shall be deposited to the credit of the Hawaii cancer research special fund, established pursuant to section 304A-2168, for research and operating expenses and for capital expenditures;

(2) Section 245-3(a)(6), after September 30, 2007, and prior to October 1, 2008:

(A) 1.5 cents per cigarette shall be deposited to the credit of the Hawaii cancer research special fund, established pursuant to section 304A-2168, for research and operating expenses and for capital expenditures;

(B) 0.25 cents per cigarette shall be deposited to the credit of the trauma system special fund established pursuant to section 321-22.5; and

(C) 0.25 cents per cigarette shall be deposited to the credit of the emergency medical services special fund established pursuant to section 321-234;

(3) Section 245-3(a)(7), after September 30, 2008, and prior to July 1, 2009:

- (A) 2.0 cents per cigarette shall be deposited to the credit of the Hawaii cancer research special fund, established pursuant to section 304A-2168, for research and operating expenses and for capital expenditures;
- (B) 0.5 cents per cigarette shall be deposited to the credit of the trauma system special fund established pursuant to section 321-22.5;
- (C) 0.25 cents per cigarette shall be deposited to the credit of the community health centers special fund established pursuant to section 321-1.65; and
- (D) 0.25 cents per cigarette shall be deposited to the credit of the emergency medical services special fund established pursuant to section 321-234;

(4) Section 245-3(a)(8), after June 30, 2009, and prior to July 1, 2013:

- (A) 2.0 cents per cigarette shall be deposited to the credit of the Hawaii cancer research special fund, established pursuant to section 304A-2168, for research and operating expenses and for capital expenditures;

- (B) 0.75 cents per cigarette shall be deposited to the credit of the trauma system special fund established pursuant to section 321-22.5;
- (C) 0.75 cents per cigarette shall be deposited to the credit of the community health centers special fund established pursuant to section 321-1.65;
and
- (D) 0.5 cents per cigarette shall be deposited to the credit of the emergency medical services special fund established pursuant to section 321-234;
[and]

(5) Section 245-3(a)(11), after June 30, 2013, and thereafter:

- (A) 2.0 cents per cigarette shall be deposited to the credit of the Hawaii cancer research special fund, established pursuant to section 304A-2168, for research and operating expenses and for capital expenditures;
- (B) 1.5 cents per cigarette shall be deposited to the credit of the trauma system special fund established pursuant to section 321-22.5;
- (C) 1.25 cents per cigarette shall be deposited to the credit of the community health centers special fund established pursuant to section 321-1.65;
and
- (D) 1.25 cents per cigarette shall be deposited to the credit of the emergency medical services special

fund established pursuant to section 321-234~~[.]~~;
and

(6) Section 245-3(a)(13), on or after January 1, 2014, and thereafter:

(A) Twelve per cent shall be deposited to the credit of the Hawaii cancer research special fund, established pursuant to section 304A-2168, for research and operating expenses and for capital expenditures;

(B) Nine per cent shall be deposited to the credit of the trauma system special fund established pursuant to section 321-22.5;

(C) Eight per cent shall be deposited to the credit of the community health centers special fund established pursuant to section 321-1.65; and

(D) Eight per cent shall be deposited to the credit of the emergency medical services special fund established pursuant to section 321-234.

The department shall provide an annual accounting of these dispositions to the legislature."

SECTION 5. Statutory material to be repealed is bracketed and stricken. New statutory material is underscored.

SECTION 6. This Act shall take effect on July 1, 2013.

Report Title:

Tobacco Products; Excise Tax; Special Funds

Description:

Imposes an excise tax equal to \$3.20 per ounce of tobacco in each article or item of tobacco products, other than large cigars and premium cigars. Allocates monies generated to certain special funds and the general fund. Effective July 1, 2013. (SB492 HD1)

DISTRIBUTION OF TAXES

Of the \$3.51 billion in tax revenue collected by and for the state, approximately 85%, or \$2.97 billion, was deposited into the state general fund. The counties received 3.9%, or \$135.9 million, from county fuel taxes collected by the state and from transient accommodations taxes designated to the counties by statute. The remaining \$403.4 million was distributed to state special funds. The largest portion, \$150.0 million, went to the Unemployment Trust Fund, which received all of the dedicated employment security tax paid by employers to fund unemployment benefits. Next in size was the \$147.7 million distribution to the State Highway Fund. Third in size was the \$63.9 million distribution to the Tourism Special Fund. By statute, this fund receives 37.9% of transient accommodations tax (TAT) collections. Hawaii's statutes also directed that the Convention Center Fund receive 17.3% of TAT revenue, which amounted to \$29.2 million for fiscal 2000, the final year in which it would receive distributions. A new Compliance Resolution Fund received \$2.5 million from the franchise tax on financial institutions. The new fund will be used by the Department of Commerce and Consumer Affairs to enforce state business practice laws. Voluntary checkoffs on individual income tax returns provided \$0.3 million to the Election Campaign Fund. Discretionary transfer of \$5 million into the Bond Reserve Fund did not occur this year.

from this source accruing to the counties. At present, the counties administer all of the real property functions. Administration of the State and county motor vehicle weight taxes is vested in the counties with the revenue accruing to the State and county highway funds.

Revenues from eleven of the State-administered taxes go into the State's general fund and are used to provide government services. Although the fuel tax is administered by the State, it is a source of revenue for both the State and county highway funds. The employment security tax is a dedicated tax used exclusively to provide benefits to cover unemployed workers. Rental motor vehicle and tour vehicle surcharge taxes are deposited into the State highway fund.

DISTRIBUTION OF TAXES

Of the total \$3.5 billion in tax revenues collected, \$3.1 billion, or 86.5%, was deposited into the state general fund. The counties received \$135.4 million, or 3.8%, from county fuel taxes and transient accommodations taxes. The remaining \$340.5 million was allocated to state special funds. The State Highway Fund received the largest portion, \$153.9 million. A total of \$111.9 million of the employment security contributions transferred to the Unemployment Trust Fund, which was the second largest distribution. The third largest distribution of \$59.7 million went to the Tourism Special Fund from transient accommodations taxes.

Effective in July 1, 2001, revenue distributions to two of the special funds were changed. The amount of the allocation to the Compliance Resolution Fund from the franchise tax on financial institutions decreased from \$2.5 million to \$2.0 million (Act 28, SLH 2001). Act 133, SLH 1999 restored the 25% share of conveyance taxes to the Rental Housing Fund.

In fiscal year 2002, there were three new special funds. Act 270, SLH 2001 distributes 1.5% of cigarette stamp fee to the Cigarette Tax Stamp Enforcement Special Fund and 0.2% to the Cigarette Tax Stamp Administrative Special Fund. These two Cigarette Tax Stamp Special Funds received a total of \$1.1 million. The School Minor Repairs and Maintenance Special Fund received \$0.1 million from taxpayers who chose to contribute from their individual income tax refunds (Act 311, SLH 2001).

2007	\$30,936,052	86.9%	11.5%	\$9,280,815.60	3.45%	65% (cap-50c)
2008	\$32,755,867	87.2%	12.8%	\$9,826,760.10	3.84%	65% (cap-50c)
2009	\$32,873,951	86.8%	13.2%	\$9,862,185.30	3.96%	65% (cap-50c)
2010	\$37,390,367	84.4%	15.6%	\$11,217,110.10	4.68%	65% (cap-50c)

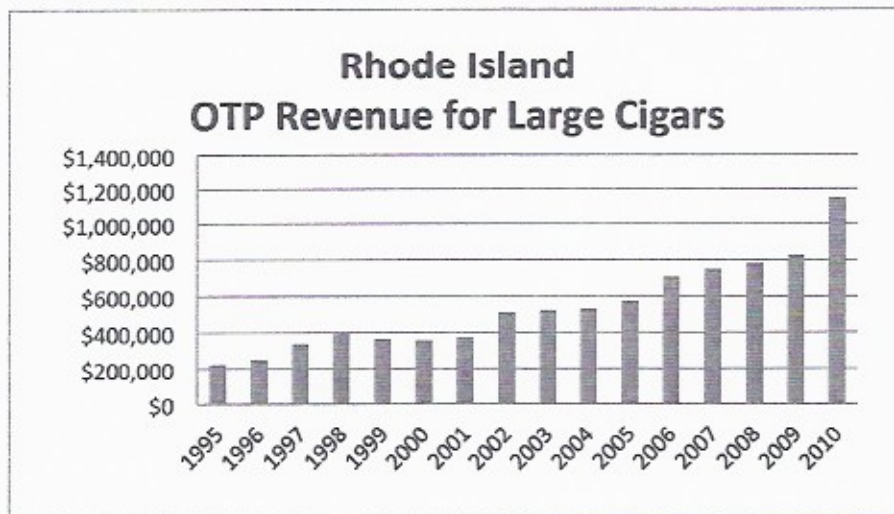

In 2010, the Other Tobacco Products (OTP) excise tax collections accounted for 15.6% of total state tobacco excise tax collections (columns C and D); premium cigars make up only 30% of that total revenue, or 4.68% (columns E and F). Based on these estimated revenue collections, we accurately estimate a state's premium cigar collections based on cigar imports reports (U.S. Bureau of the Census, Imports of Merchandise for Consumption, IM-146, data of the U.S. Customs Service) and tax collections (Tax Burden on Tobacco).

Note: In 2009, federal tobacco tax excise tax (FET) increase on cigars went into effect--retailers paying additional state excise tax due to higher wholesale price that included higher FET.

About the Tax Burden on Tobacco: The first volume was produced in 1949 by the Virginia-based Tobacco Tax Council under the name *Cigarette Taxes in the United States*. In 1966, the Council gave the annual its current name. From 1982 through 1998, The Tobacco Institute published the book. The economic consulting firm Orzechowski and Walker is now producing *The Tax Burden on Tobacco*. This volume was prepared with the financial support of Altria Client Services, the Lorillard Tobacco Company, and Reynolds American.

Year	Net OTP Revenue (all tobacco products other than cigarettes, i.e. cigars, snuff, chewing tobacco, etc.)	% Cigarette Excise Tax Collections	% OTP Collected (of 100% tobacco revenues)	OTP Revenue for Large Cigars	% Cigar Excise Tax Collections (based on large cigars accounting 30% of OTP Revenue) of all OTP Collections	Excise Tax Rate

ASSOCIATION

Petition for Support of a Flat Rate Tax on Premium Hand Made Cigars

Dear Hawai'i Legislators:

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or characterizing flavor, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

Petition for Support of a Flat Rate Tax on Premium Hand Made Cigars

Dear Hawai'i Legislators:

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or characterizing flavor, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

Respectfully Submitted,

ASSOCIATION

Petition for Support of a Flat Rate Tax on Premium Hand Made Cigars

Dear Hawai'i Legislators:

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or characterizing flavor, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

Respectfully Submitted,

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or characterizing flavor, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

ASSOCIATION

Petition for Support of a Flat Rate Tax on Premium Hand Made Cigars

Dear Hawai'i Legislators:

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or characterizing flavor, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

Respectfully Submitted,

Signature:  Printed Name: John Miranda

Business Name (if applicable): _____

Dear Hawai'i Legislators:

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or characterizing flavor, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
• Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
• Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
• Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

Respectfully Submitted,

ASSOCIATION

Petition for Support of a Flat Rate Tax on Premium Hand Made Cigars

Dear Hawai'i Legislators:

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or characterizing flavor, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

Respectfully Submitted,

Signature:

ASSOCIATION

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

Respectfully Submitted,

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

ASSOCIATION

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

Respectfully Submitted,

Signature:  Printed Name: Yunki Iihama

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

Respectfully Submitted,

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

Respectfully Submitted,

Signature:

ASSOCIATION

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

Respectfully Submitted,

Signature:

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

Respectfully Submitted,

Add personal comments here, or attach additional testimony:

1. A high tax on tobacco/cigar producers in HI is counterproductive to the important goals of supporting local farmers and developing a self-sustaining economy in HI. A small tax is appropriate, similar to a few other states, but a high tax will ruin local businesses.
2. It must be recognized that large and premium cigars are different from cigarettes! These are enjoyed in small quantities and have not been proven to have the same medical risks as cigarettes!

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

ASSOCIATION

Petition for Support of a Tax Cap, or Flat Rate Tax on Large and Small Cigars

Dear Hawai'i Legislators:

We encourage you to place a tax cap, or flat rate tax of 50 cents on large cigars and 16 cents on small cigars in order to:

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of large cigars in Hawai'i.

Respectfully Submitted,

ASSOCIATION

Petition for Support of a Flat Rate Tax on Premium Hand Made Cigars

Dear Hawai'i Legislators:

We encourage you to place a flat rate tax of 50 cents per "premium cigar". Premium cigars are defined as cigars made entirely by hand of all natural tobacco leaf, hand-constructed and hand-wrapped, with no filter or artificial flavors, wholesaling for \$2 or more per cigar, and weighing more than four pounds per one thousand cigars.

- Protect businesses and jobs that support the sale of not only locally grown cigars but also premium, handmade cigars. The current 50 percent unlimited tax negatively impacts our economy.
- Create fairness and help Hawai'i cigar retailers who pay their taxes, compete with mail-order businesses that sell premium cigars within Hawai'i without paying taxes and whose customers do not file usage taxes.
- Protect a local agricultural industry that pays higher tobacco taxes as a result of higher production costs.
- Support and protect tax revenue generated from the sale of premium cigars in Hawai'i.

Subject: Strong Support for SB 492, SD 2, HD 1

To: Rep. Sylvia Luke, Chair
Rep. Scott Nishimoto, Vice Chair
Rep. Aaron Ling Johanson, Vice Chair
Members of the House Committee on Finance

Re: Strong Support for SB 492, SD 2, HD1 Relating to Tobacco Products

Hrg: April 1, 2013 at 2:00 pm, Room 308

Thank you for the opportunity to submit testimony in support of SB 492, SD2, HD1. This bill attempts to raise the taxes on other tobacco products to achieve parity between cigarette taxes and other tobacco products (OTP). Raising the tax on OTPs will result in less people using smokeless tobacco and would eliminate roll your own stores offering cigarettes at half the price of retail stores. Campaign for Tobacco-Free Kids recommends Hawaii OTP tax be charged at 102% of the wholesale price in order to achieve tax parity with cigarettes (\$3.20 per pack).

Youth are more sensitive to prices than adults. Increasing the tax on these other tobacco products is an additional disincentive for youth to use tobacco products.

As cigarette tax increases, smokers will look towards quitting or they will find cheaper means to continue using tobacco. We must be sure taxes on all tobacco products are equitable so that those who are addicted to nicotine will quit. More smokers quitting means less costs to our state in tobacco-related medical expenses. I also ask that you earmark a portion of the tax for tobacco cessation and prevention programs. As we encourage tobacco users to quit, we must provide tobacco treatment for them.

Thank you for the opportunity to provide testimony in support of this measure.
