**SB 506 Relating to Professional and Vocational Licensing;**  
**Military Training, Education, and Service**

Chair Espero and members of the Public Safety, Intergovernmental and Military Affairs Committee, on behalf of the Department of Defense, I would like to thank you for the opportunity to submit testimony on SB 506, a bill relating to Professional and Vocational Licensing; Military Training, Education, and Service. My name is Laurie Crehan. I am with the Department of Defense State Liaison Office which operates under the direction of the Under Secretary of Defense for Personnel and Readiness, and the Deputy Assistant Secretary of Defense for Military Community and Family Policy.

During the 2012 legislative session, Hawaii passed legislation that facilitated Service members receiving consideration of their military education, training, and experience toward meeting state criteria when applying for a state license. This policy addressed the problem separating Service members frequently face of delays in getting post-Service employment even though they have applicable military education, training and experience which can qualify them for licenses.

SB 506 provides support for transitioning Service members who come to Hawaii with a professional license from another state. We support this policy that will help those Service members enter the workforce quickly. **However, the bill also seeks to restrict the number of veterans to which this statute applies. It does so in two ways, both of which we feel will have unintended consequences and diminish its ability to meet the needs of our separating Service members.**

First, SB 506 limits the policy to Service members who have transitioned out of the military within the previous six months. While the Department of Defense's intent in asking for assistance with this issue was to meet the needs of separating Service members and not all veterans at large, we believe that six months is too short of a timeframe. The separation process can be time consuming, often requiring a move from the final duty station. At the point of separation, a Service member may not have all the requirements met in terms of education and experience to apply for a license in Hawaii but have met some of the requirements through

*Improving the Lives of Military Members and their Families*

education and training received while on active duty. If they return to school to complete the remaining requirements, they would probably miss the six month deadline for applying for a license. Missing this deadline would mean the Service member would have to repeat education and training completed during their military career to obtain an occupational license. We understand the desire to define "separating Service member" and feel a time limit of 12 to 24 months would be fairer and mean less chance that an otherwise deserving Service member might be excluded.

The second concern we have is restricting the statute to Service members who are stationed in Hawaii or those who were stationed in Hawaii immediately prior to their discharge. Given the number of Service members currently stationed in Hawaii, that would mean this statute would only apply to 3.6% of all Service members. More importantly, it would eliminate most of the returning Hawaii veterans from consideration. In 2012, 2434 Service members who list Hawaii as their home of record transitioned out of the military. Chances are that most of these Service members were stationed outside of Hawaii at the time of their discharge. Under the policy in SB 506, these Service members would not have their military training and education considered if they returned to Hawaii and applied for a Hawaii occupational license. They would be forced to start their education all over, delaying the process of becoming employed. It could possibly lead some Hawaii veterans to choose not to return to Hawaii but to move to one of the 23 other states that now provide this support to our transitioning Service members (with more states considering friendly policies this year).

These two criteria in SB 506 would negate important gains our veterans have made in Hawaii in getting their education and training considered towards meeting state criteria when applying for an occupational license in Hawaii. We understand the desire to limit the application of the statute to transitioning Service members but ask that this Committee eliminate the unintended consequences of this bill by 1) lengthening the time after transitioning out of the military, and 2) eliminating the requirement that the Service member is stationed in Hawaii or was stationed in Hawaii at the time of discharge.

This issue of consideration of military education and training towards meeting state criteria for licensing is one of the key elements of the Veterans Employment Initiative of President Obama. We request that this Committee give careful consideration to making the needed amendments to the language in SB 506 in order to guarantee our Service members can quickly re-enter the workforce.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Laurie Crehan, Ed.D

TWENTY-SEVENTH LEGISLATURE  
Regular Session of 2013

Tuesday, January 29, 2013  
2:50 p.m.

**TESTIMONY ON SENATE BILL NO. 506, RELATING TO PROFESSIONAL AND  
VOCATIONAL LICENSING.**

THE HONORABLE WILL ESPERO, CHAIR,  
AND MEMBERS OF THE COMMITTEE:

My name is Celia Suzuki, Licensing Administrator for the Professional and Vocational Licensing Division, Department of Commerce and Consumer Affairs ("Department"). The Department appreciates the opportunity to submit testimony on Senate Bill No. 506, Relating to Professional and Vocational Licensing.

The purpose of Senate Bill No. 506 is to amend Act 248, Session Laws of Hawaii 2012, to clarify the requirements for service member licensure in Hawaii. The Department supports the intent of the bill as it mirrors the language for licensure for nonresident military spouses.

Thank you for the opportunity to provide testimony on Senate Bill No. 506.

January 29, 2013

**TESTIMONY IN SUPPORT OF SENATE BILL 506  
RELATING TO PROFESSIONAL AND VOCATIONAL LICENSING  
WITH COMMENTS.**

**SENATE COMMITTEE ON PUBLIC SAFETY AND MILITARY  
HEARING ON TUESDAY, JANUARY 29<sup>TH</sup> AT 2:50 PM, IN CONFERENCE  
ROOM 224**

Aloha Chair Espero: The Oahu Veterans Council's delegates are honored to serve at the pleasure of our veterans and their families. On January 26<sup>th</sup>, our delegates reviewed and voted unanimously to support Senate Bill 506.

We are extremely grateful for your efforts to Clarifies that licensing authorities shall consider relevant education, training, or service completed by (military) service members. Specifies which service members are subject to these provisions. Permits licensure by endorsement or licensure by reciprocity in certain situations for service members. Establishes procedures for service members to receive a license by endorsement or license by reciprocity. Permits issuance of a temporary license if certain requirements are met. Requires the licensing authority to expedite consideration of the application and issuance of a license by endorsement, license by reciprocity, or temporary license to a qualified service member.

We respectfully ask this Committee lengthen the time from discharge, and eliminate the requirement that the Service member is stationed in Hawaii or was stationed in Hawaii at the time of discharge.

Providing this legislative professional credential protection in state law is much appreciated by our veterans and military personnel who serve so selflessly; they ask for no more recognition than we would expect for ourselves.

The Oahu Veterans Council respectfully urges your committee to consider passing Senate Bill 506 with the suggested comment included. Mahalo, for allowing us to testify, regarding this extremely important issue.

*Dennis Egge*

State Senator Rosalyn H. Baker, Vice Chair  
Committee on Public Safety, Intergovernmental and Military Affairs

Tuesday, January 29, 2013, 2:50 p.m. Room 224  
Senate Bill 506 Relating to Professional and Vocational Licensing

Honorable Chair Will Espero, Vice Chair Rosalyn H. Baker and  
members of the Senate Committee on Public Safety, Intergovernmental and Military Affairs,

My name is Russel Yamashita and I am the legislative representative for the Hawaii Dental Association (HDA) and its 960 member dentists. I appreciate the opportunity to testify in opposition of Senate Bill 506 Relating to Professional and Vocational Licensing. The bill before you today would seek to provide for the licensure by credential and reciprocity for all licenses issued by the State of Hawaii Department of Commerce and Consumer Affairs, Professional and Vocational Licensing Division. As one of state boards and commissions under that licensing protocol, the Board of Dental Examiners would be subject to the provisions of this new statute. It should be clear that this bill seeks to make substantial changes to the licensing laws that are currently govern the issuance of a large number of licenses issued by the State of Hawaii.

The HDA does not support this legislation. This legislation abdicates all 47 boards and commissions authority to regulate and police their respective profession to protect the citizens of Hawaii from unqualified persons engaging in numerous licensed vocations and professions. By providing virtually no licensing standards for anyone who has a license from another jurisdiction, all Hawaii consumers would be subject to no protection and no recourse against licensees that will be capable of injuring our citizens physically, mentally and financially.

In the case of the Board of Dental Examiners under Chapter 448, a special license category for Community Service dentist was established to provide the Federally Qualified Community Health Centers with an easier process to hire dentists who were willing to treat the under served in remote and rural communities throughout Hawaii. This legislation would nullify the original purpose of the Community Service dentist license, and make it much more difficult for the health centers to hire dentists to staff their clinics because an easier avenue to licensure would not limit their practice to the under served areas.

Additionally, the objective of the original legislation that the Obama Administration proposed was to address the situation where the newer, post 9/11 veterans would be offered benefits and opportunities due to their service in the long, drawn out wars where frequent deployments to combat zones was a different situation than that of the previous wartime deployments. The original legislation that created current law as Act 247 and Act 248 of 2012 does not address the targeted military population, because it is overly broad and poorly drafted legislation that creates substantial issues for licensing agencies and problems for veterans and their spouses. To add to the confusion of this legislation, only a handful of states have passed this legislation. Most of those states passing this legislation, unlike Hawaii, do not have a significant military bases, for example Montana.

Also, this bill does not provide for any proper oversight or enforcement over violations of the licensing laws, or any proper framework for issuing of any license by the DCCA's Professional and Vocational Licensing Division. Therefore, the Hawaii Dental Association opposes the passage of this legislation and desires that it be held by this committee.

Comments: As a former Registered Nurse who received reciprocity when i moved to California from NY for my Registered Nursing liscense, i think this is an awesome idea as long as full background checks are done on those who served in the military and are now seeking employment outside.. Than you for helping them transition.

HI Senate Public Safety, Intergovernmental and Mil

Dear HI Senate Public Safety, Intergovernmental and Mil:

I feel that Senate Bill 506 affects the practice Dentistry in Hawai'i

COMMITTEE ON PUBLIC SAFETY, INTERGOVERNMENTAL AND MILITARY AFFAIRS  
Tuesday, January 29, 2013 2:50 p.m. Conference Room 224

SB506 RELATING TO PROFESSIONAL AND VOCATIONAL LICENSING.

Clarifies that licensing authorities shall consider relevant education, training, or service completed by service members. Specifies which service members are subject to these provisions. Permits licensure by endorsement or licensure by reciprocity in certain situations for service members.

Establishes procedures for service members to receive a license by endorsement or license by reciprocity. Permits issuance of a temporary license if certain requirements are met. Requires the licensing authority to expedite consideration of the application and issuance of a license by endorsement, license by reciprocity, or temporary license to a qualified service member.

Honorable Senators Chair Espero, Vice Chair Baker, esteemed members of the Senate Committee on Public Safety, Intergovernmental and Military Affairs.

I am writing in opposition to SB 506 Relating to Professional and Vocational Licensure. I am a Licensed Dentist, practicing in the State of Hawaii. My colleagues include Military Veterans, active and inactive service members, National Guard and Reserve Dentists.

1) This bill relaxes the regulatory safeguards that protect the health and safety of dental patients in the State of Hawaii. Licensure by reciprocity or endorsement circumvents the professional standards and regulations that have protected and provided safeguards for Hawaii residents.

2) The proposed bill fails to protect the intent of previous legislation which provides economic opportunities for post 9/11 veterans.

3) The proposed bill duplicates what the state allows under its Community Service License, which would then undermine the requirement to practice only in federally qualified health centers, Native Hawaiian health systems

centers, or post-secondary dental auxiliary training programs. So, in effect, this would jeopardize the status of the community license for dentists who have been instrumental in addressing the dental access issues.

I respectfully ask that you oppose the passage of SB 506.

Thank you for your consideration.

Mahalo for your support.

With aloha,

Brad Ching

SB506 RELATING TO PROFESSIONAL AND VOCATIONAL LICENSING.

Clarifies that licensing authorities shall consider relevant education, training, or service completed by service members. Specifies which service members are subject to these provisions. Permits licensure by endorsement or licensure by reciprocity in certain situations for service members.

Establishes procedures for service members to receive a license by endorsement or license by reciprocity. Permits issuance of a temporary license if certain requirements are met. Requires the licensing authority to expedite consideration of the application and issuance of a license by endorsement, license by reciprocity, or temporary license to a qualified service member.

Honorable Senators Chair Espero, Vice Chair Baker, esteemed members of the Senate Committee on Public Safety, Intergovernmental and Military Affairs.

I am writing in opposition to SB 506 Relating to Professional and Vocational Licensure. I am a Licensed Dentist, practicing in the State of Hawaii. My colleagues include Military Veterans, active and inactive service members, National Guard and Reserve Dentists.

1) This bill relaxes the regulatory safeguards that protect the health and safety of dental patients in the State of Hawaii. Licensure by reciprocity or endorsement circumvents the professional standards and regulations that have protected and provided safeguards for Hawaii residents.

2) The proposed bill fails to protect the intent of previous legislation which provides economic opportunities for post 9/11 veterans.

3) The proposed bill duplicates what the state allows under its Community Service License, which would then undermine the requirement to practice only in federally qualified health centers, Native Hawaiian health systems

centers, or post-secondary dental auxiliary training programs. So, in effect, this would jeopardize the status of the community license for dentists who have been instrumental in addressing the dental access issues.

I respectfully ask that you oppose the passage of SB 506.

Thank you for your consideration.

Mahalo for your support.

With aloha,

Glenn Okihiro, DDS

centers, or post-secondary dental auxiliary training programs. So, in effect, this would jeopardize the status of the community license for dentists who have been instrumental in addressing the dental access issues.

I respectfully ask that you oppose the passage of SB 506. The system we have in place now has served the people of Hawaii very well for the past 3 decades that I have been a dentist here. It has been modified a few times to meet the changing needs but this current bill does not take the needs of the people of Hawaii into consideration. It just looks out for the needs of a few. Thank you for your time.

Thank you for your consideration.

Mahalo for your support.

With aloha,

Calbert M B Lum, DDS

Honorable Senators Chair Espero, Vice Chair Baker, esteemed members of the Senate Committee on Public Safety, Intergovernmental and Military Affairs.

I am writing in opposition to SB 506 Relating to Professional and Vocational Licensure. I am a Licensed Dentist, practicing in the State of Hawaii. My colleagues include Military Veterans, active and inactive service members, National Guard and Reserve Dentists.

- 1) This bill relaxes the regulatory safeguards that protect the health and safety of dental patients in the State of Hawaii. Licensure by reciprocity or endorsement circumvents the professional standards and regulations that have protected and provided safeguards for Hawaii residents.
- 2) The proposed bill fails to protect the intent of previous legislation which provides economic opportunities for post 9/11 veterans.
- 3) The proposed bill duplicates what the state allows under its Community Service License, which would then undermine the requirement to practice only in federally qualified health centers, Native Hawaiian health systems

centers, or post-secondary dental auxiliary training programs. So, in effect, this would jeopardize the status of the community license for dentists who have been instrumental in addressing the dental access issues.

I respectfully ask that you oppose the passage of SB 506.

Thank you for your consideration.

Mahalo for your support.

With aloha,

Randall Yee

HI Senate Public Safety, Intergovernmental and Mil

Dear HI Senate Public Safety, Intergovernmental and Mil:

I feel that Senate Bill 506 affects the practice Dentistry in Hawai'i

COMMITTEE ON PUBLIC SAFETY, INTERGOVERNMENTAL AND MILITARY AFFAIRS

Tuesday, January 29, 2013 2:50 p.m. Conference Room 224

SB506 RELATING TO PROFESSIONAL AND VOCATIONAL LICENSING.

Clarifies that licensing authorities shall consider relevant education, training, or service completed by service members. Specifies which service members are subject to these provisions. Permits licensure by endorsement or licensure by reciprocity in certain situations for service members. Establishes procedures for service members to receive a license by endorsement or license by reciprocity. Permits issuance of a temporary license if certain requirements are met. Requires the licensing authority to expedite consideration of the application and issuance of a license by endorsement, license by reciprocity, or temporary license to a qualified service member.

I firmly believe that this bill, as well intentioned as it is, will undermine the Community Service License that permits licensure by credentials for treatment of the underserved in rural and remote areas of Hawaii. Those currently restricted to these Community Health Centers will apply for a license under Licensure by Credentials or reciprocity, and move their practice away from the CHC and to the population centers where there is currently an over population of dentists and access issues are nonexistent. This will also have a negative impact on our local dentists who are members of the Army Reserve and National Guard. These dentists stand a greater chance of losing their private practices during deployments. This bill needs further review to evaluate the unintended consequences that could result.

Honorable Senators Chair Espero, Vice Chair Baker, esteemed members of the Senate Committee on Public Safety, Intergovernmental and Military Affairs.

I am writing in opposition to SB 506 Relating to Professional and

Vocational Licensure. I am a Licensed Dentist, practicing in the State of Hawaii. My colleagues include Military Veterans, active and inactive service members, National Guard and Reserve Dentists.

1) This bill relaxes the regulatory safeguards that protect the health and safety of dental patients in the State of Hawaii. Licensure by reciprocity or endorsement circumvents the professional standards and regulations that have protected and provided safeguards for Hawaii residents.

2) The proposed bill fails to protect the intent of previous legislation which provides economic opportunities for post 9/11 veterans.

3) The proposed bill duplicates what the state allows under its Community Service License, which would then undermine the requirement to practice only in federally qualified health centers, Native Hawaiian health systems centers, or post-secondary dental auxiliary training programs. So, in effect, this would jeopardize the status of the community license for dentists who have been instrumental in addressing the dental access issues.

I respectfully ask that you oppose the passage of SB 506.

Thank you for your consideration.

Mahalo for your support.

With aloha,

Dr. Edmund Cassella

Requires the licensing authority to expedite consideration of the application and issuance of a license by endorsement, license by reciprocity, or temporary license to a qualified service member.

Honorable Senators Chair Espero, Vice Chair Baker, esteemed members of the Senate Committee on Public Safety, Intergovernmental and Military Affairs.

I am writing in opposition to SB 506 Relating to Professional and Vocational Licensure. I am a Licensed Dentist, practicing in the State of Hawaii. My colleagues include Military Veterans, active and inactive service members, National Guard and Reserve Dentists.

1) This bill relaxes the regulatory safeguards that protect the health and safety of dental patients in the State of Hawaii. Licensure by reciprocity or endorsement circumvents the professional standards and regulations that have protected and provided safeguards for Hawaii residents.

2) The proposed bill fails to protect the intent of previous legislation which provides economic opportunities for post 9/11 veterans.

3) The proposed bill duplicates what the state allows under its Community Service License, which would then undermine the requirement to practice only in federally qualified health centers, Native Hawaiian health systems

centers, or post-secondary dental auxiliary training programs. So, in effect, this would jeopardize the status of the community license for dentists who have been instrumental in addressing the dental access issues.

I respectfully ask that you oppose the passage of SB 506.

Thank you for your consideration.

Mahalo for your support.

With aloha,

steven a kumasaka dds
