Comments: Aloha Chair Gabbard, Vice Chair Ruderman and Committee members, Please pass SB 64 RELATING TO PUBLIC UTILITIES COMMISSION as the intent of this measure is for government transparency. As we proceed in expanding our non-fossil fuel generating capacity, it is imperative that the general public understand how the rates were established. This will foster a favorable public opinion and increased value of non-fossil fuel usage. It will also help to ensure that there is no relationship between the fossil and non-fossil fuel rates. Mahalo for your consideration and please pass this measure on for further consideration. Me ka ha'aha'a, Kapua Keliikoa-Kamai
