Testimony for FIN on Apr 2, 2013 14:00PM in Conference Room 308

Comments: I strongly oppose this bill as it continues to use the Agricultural Development Corporation as a means to create a Agricultural PLDC. The guise is to offer us a organic livestock feed development mobilization and food production that "may" establish this worthy and much needed program but in truth we would still be held hostage by the ADC private entity and all their exemptions that hurt the public land trust. A very deceitful and shameful use of a good farming methodology and much needed organic livestock feed program. We can never sell out the will of the people and transparency in government. Mahalo for the opportunity to testify.
