Comments: While this Bill sounds good on the surface, this bill should be looked at and revised. Doctor/patient confidentiality seems to be attacked, and if this were to become law, the seriously mentally ill may not seek the proper medical attention if they were fearful they would be "turned in" at the earliest possible convenience of the doctor. Please rethink this bill and revise it to not damage a persons civil rights. Bad law is exceedingly hard to over turn, and unexpected consequences and the safety of the public may be the result. Thank you Brendon K Heal
